Light-up! from grade - school scholars to the college crowd, students need good light. Good light helps make good grades! Good light makes work go faster - saves energy for other activities. Above are several good lamp styles and arrangements for easy reading and study! The table lamps use a 150-watt bulb in diffusing reflector bowl. The shades are at least 16 inches in diameter with the lower edge 15 inches above the work table. Wall lamps are used in pairs with 100-watt bulbs. They should have 6-inch diffusing bowls and be placed so lower edges are 15 inches above the work table. Your dealer has a wide selection of lamps that are suitable for sewing, reading and study. Among the best are those with a "Certified" label. See them at your dealers. Enjoy good lighting for yourself and the students in your family! IT'S FREE! Get your copy of this booklet on "Light Conditioning" in which 22 lighting recipes for reading, television viewing, sewing and other home tasks. Ask for it at your nearest Pacific office.
