The Secondary School Principals' Association recently took issue with the PIAA. disapproving of this current policy of obtaining funds for support of sports organization through the gate receipts of post-season hashetthall tournaments. The principals' group recommended that a committee be appointed to work with the PLAA in find to work with the PLLA in finding a way to provide finances. Mark Funk, PIAA executive director, is drafting a repty. Mr. Funk reportedly is in favor of other means of supporting the FIAA program, but does not believe it can be done at this time by making member schools aboulder the costs. The principals probably are right in their convictions, but ending all tournaments would take the competition out of basketball. It would be like major league baseball without a World Series. The PIAA has staged their eage tournaments for the past 30 years and few, if any, school men, condemned the events Let's not start now?
