

Barnesboro Board Sets Year's Budget

Calls for Expenditure Of About \$137,000

A 1954-55 budget was adopted and a secretary and treasurer were elected at Monday evening's meeting of Barnesboro Borough School Board.

Directors adopted a budget calling for expenditures of approximately \$137,000.

Miss Bernadette Hromulak was elected to her first full three-year term as board secretary. For the past two years she has been filling the unexpired term of Miss Betty Haddock, resigned.

Elected to his first full term as treasurer was Charles Brancato. He was named to the post several months ago to fill the unexpired term of Stanley Ulrich.

The district renewed its contract with the Department of Public Assistance. Under the program, DPA beneficiaries are used to supplement the district's work force. The new pact will run until June, 1955.

Dr. W. M. Leonard, supervising principal, will conduct the school year. The survey is expected to begin late next month or in early July.

The board named Joseph Hromulak to supervise the district's summer inter-league baseball program. Reports on the recent football clinic at Michigan State University were given by George Magulick, head football coach and Dick Miller, assistant.

Barnesboro Gives Coal Firm Small Acreage of Land

Barnesboro Borough Council Monday night announced the transfer of a small portion of the borough property to Barnes & Tucker Coal Co.

In exchange, the coal firm released the borough of any liability for damage incurred as a result of the borough flood control program.

Councilmen explained that the coal company owns much of the property along the flood control route. The company has asked permission to purchase or lease the 20th Street property, which adjoins company land.

Council said the property transfer was a goodwill gesture toward the company, which not long ago gave the borough land on which to construct a secondary pumping station for the borough water system.

In other action, council re-elected a \$2.50 per capita tax and a mercantile tax calling for one-half mill on wholesale transactions and one mill on retail transactions.

Public park improvements were discussed. Plans call for installation of tables and benches and the purchase of new playground equipment. A new baseball diamond is being completed. The old diamond was torn up to make way for the flood control project.

Head Tish was present in charge of the Pine Tree water plant. He will supervise removal of underbrush and general improvements to the area. The borough will seek additional workers from the Dept. of Public Assistance for the program.

At a special meeting with the members of the school board after the council meeting, councilmen agreed to cooperate with the school district in a summer playground and recreation program.

Turkey Dinner At Chest Springs To Be Held On June 6

Attorney Resigns

Attorney Ferdinand F. Bonas of Fortage has resigned as director of public relations and instructor of economics at St. Francis College, Loretto.

The attorney, in a letter of resignation to Rev. Father Xavier Crowley, CSC, president, said the action was necessary that he might devote full time to his law practice.

The resignation becomes effective Tuesday, June 1.

Attorney Bonas joined the St. Francis College staff as public relations director and economics instructor in 1949 and during his tenure has taught classes in labor problems, mining economics and business law.

Dean Twp. School Board Seeks To Quit Jointure Setup

Contends It Is Unable To Share Building Cost

Dean Township School Board, contending it will be unable to pay its assigned share of costs for a proposed \$1.7 million school building, is seeking to be released from Cresson Joint School District.

A resolution to that effect was passed by the board earlier this month.

Copies have been sent to the other four districts which comprise the jointure—Cresson, Ashville and Sankertown Boroughs and Cresson Township.

As yet no action has been taken on the request.

Protesting that "we won't be able to meet our financial obligations," a spokesman for the Dean board said that the necessary tax boost would be too great a strain. He claimed that the board's action to seek release from the jointure was taken on advice given by the State Department of Public Instruction.

He further disclosed that township board representatives met with the state department May 11 in Harrisburg and explained their problem.

"After hearing of the situation," he went on, "the state advised us to pull out." The spokesman said that Dean "has had trouble" operating as part of the joint setup since it was formed two years ago. Cresson's present stand at 30 mills on real estate, \$7 per capita and one per cent on earned income.

"Even if the millage could be increased to 50 mills and the per capita tax raised to \$10," the spokesman said, "we still would be in the red."

He estimated the township's share of construction costs for the proposed school at an annual rental of \$18,000. Present plans call for the new school to be built on a site adjoining the high school athletic field in Cresson.

According to the board representative, the township board already is committed to paying off costs of a newly-built grade school in Dysart at a rate of \$3,500 annually.

The spokesman added that the State Department of Public Instruction also has been notified officially of Dean's request to leave the joint setup.

Further progress toward construction of the new joint school will be delayed, he said, until some action is taken on the township board's request.

The spokesman hinted that if permitted to withdraw from the jointure, the township board might consider a similar pact in Altoona.

St. Benedict Airmen Taking Photo Course

Airman John A. Yeckley, son of Mr. and Mrs. Alvin Yeckley of St. Benedict, is attending a course in photography at the Naval Air Technical Training Station in Pensacola, Florida.

The course offers training in the technical phases of photography, including optics, operation and maintenance of various types of equipment used by the Navy. Upon completion of the course, some students are selected for more training in aerial photography.

Airman Yeckley attended the Spangler High School before enlisting in the Navy last October.
