It's the Hit that's writing New History

TAKE a look, if you please, at the car and the styling that are changing historic sales standings.

Take a look at the beauty and the buy called Buick—the car that is forging ahead to new sales heights in the 1954 market.

Take a look at the new best seller that has moved into the "Big Three" of the nation's top sales leaders—into that very exclusive circle that for two decades has held only the so-called "low-price three."

For today, as national sales figures for the first five months reveal, Buick is outselling all other cars except two of these "low-price three." And each month firms Buick's new position.

It takes solid worth to bring this about—a lot more automobile per dollar in Buick than in other cars.

But it also takes the glamorous new tomorrow styling that is Buick today. It takes the highest V8 horsepower, Series for Series, in all Buick history. It takes the room and comfort and ride and handling that are Buick's proud tradition.

And it takes a range of cars to satisfy a wide range of people—with prices that most people can well afford. So you find

the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPRA, and the custom-built ROADMASTER—the four big reasons for Buick's tremendous sales success.

Come in for a demonstration and you'll see what we mean.

With the years-away styling of this glamor car, you'll be way ahead at resale time. And right now you're money ahead with the big trade-in allowance our volume sales can bring you. Drop in this week.

Buick Sales are Soaring!
