You get a 3-way bonus in the car that's soaring to new success

WHAT has happened in the automobile business this year is something that you should take to heart — as a personal benefit to yourself, and as a sure way to pick a winner. It is simply this: Buick has moved into the charmed circle of America's three top sales leaders — a circle once dominated only by the so-called "low-price three."

In plainer words—Buick today is outselling all other cars in America except two of these so-called "low-price three." And this has come about because of Buick's advanced year-ahead styling, great V8 power, big-car room and comfort — all for prices starting right close to the lowest. So you reap a worth-while 3-way benefit.
