Whither? Whither? —Ye Statesmen!

On November 2, an important election is on the calendar. All of the nation's House of Representatives will be elected, as well as one- er was heard, he could not be third of its senators. Likewise, the same ratio will take place in the State of Pennsylvania. In some respects, it is the most amazing pre-election campaign we have ever witnessed. It is even so tonsy tury election campaign we have ever witnessed. It is even so topsy-turvy in the Republican ranks of leadership, that about the only thing left for the independent voter to do is to cast a ballot for the Democrats -at least they seem to pretty well know what they are attempting

Republican orators are working on the slogan of "Help Ike." Yet some of the very chaps who are advancing that slogan haven't got records that prove they've done that. Here in Pennsylvania, a visit from the President this month is presumed to be of great help to a bogged-down campaign. Why? We wouldn't know. To the vast ranks of the unemployed here in Cambria County, and to an equally vast number of only part-time employed, a visit by the President, or of Sen. Jim Duff at the Ebensburg Fairgrounds means little. They are interested not in what is promised for the future, but are anxious to know why something hasn't been done to alleviate the conditions we have.

And statements made to the press last week by President shower's Secretary of Defense Mr. Wilson, regarding his sentiments that while "he had a lot of sympathy" for the jobless in the surplus labor areas, he always "liked bird dogs better and kennelfed dogs," places him in the position of being just about the greatest fed dogs," places him in the position of being just about the greatest help to the Democratic campaign that even the most hopeful could want. Can anyone imagine an unemployed miner with a home and a family here in Northern Cambria, being able to desert them, and travel hither and you in search of employment?

Well, let us analyze the contents of this resolution. First, why do these doctors only refer to cigarette smoking? It appears to cigarette smoking? It appears to us that water is water whether we drink it out of a glass or out of a glass or out.

And Senator doe McCarthy he of the Red-hunting and

And Senator Joe McCarthy-he of the Red-hunting, and Army controversy fame, last week attacked his own Republican administration on their betrayal of campaign promises to the farmer, even stating that a failure of keeping up a 100 percent of parity, could well mean defeat in the forthcoming election. d you, dear reader, Messrs. Wilson and McCarthy both are ms. They are a cross section of the party that wants ned to power in Congress. They pretty well indicate the any" that exists in the G. O. P. If it had not been for Democratic support in the last Congress, much of the Eisenhower program would have fallen.

We wouldn't know, of course, whether the Republicans will be orious or not. However, when it comes to high-bracket blundering on the part of men high in the administration, the G. O. P.

Congressman Saylor's ampaign has been solely for the Congressman alone. He wouldn't be canample, mention the record of Gov. John Fine, when he allelfs a Democratic voter. Democrats, don't be fooled. Vote for our own energetic and capable candidate.

This is an important election. You now have had two years to adde whether or not you think the present administration has been atter, or worse, for you, your living conditions, your employment, our family comfort. You have had two years to determine whether a not you want a continuance of an administration whose high-inchest men talk in various confusing ways. You here in the coal safe have seen a long period of "watchful waiting and no action" a the part of the government to alleviate a condition that daily grows worse. Naturally, the Republicans probably can't do too much all at once in bolstering a coal market, but there are a lot of people the feel that the Democrats would have had the foresight to provide some means of livithood in the way of public work, had they de some means of livilhood in the way of public work, had they as at the helm of government.

There are sell a comple of weeks before election.
