St. Francis College Facilities Listed Before Principals

John W. Powers, head of the department of education at St. Francis College, Loretto, was the guest speaker at Wednesday's meeting of Cambria County Superintending Principals Association.

Approximately 20 principals attended the luncheon-meeting in the Ebensburg Dairy Dell.

Mr. Powers spoke on "What St. Francis College Means to Cambria County."

In discussing the school's broadened curriculum, Mr. Powers pointed out that St. Francis College offers a three-year engineering program, which is coordinated with the school of engineering at Notre Dame University.

He told principals the Loretto college also offers pre-medical and pre-law training as well as full courses in secondary and elementary education. The elementary education program was added this past fall.

The educator discussed the school's building program, that will provide additional housing facilities for the growing student body. Enrollment presently is about 1,000 students.

He also pointed out that the college is situated within commuting distance of all sections of Cambria County. The college's recreation facilities also were discussed.

Next meeting, Wednesday, Mar. 16, will be the annual point session with Cambria County High School Principals Association.

Young Farmers On Record Against San Juan Rabbits

Cambria County Young Farmers Association has gone on record opposing importation of the San Juan rabbits into the county.

The approximately 60 farmers who attended last Tuesday evening's meeting at Ebensburg Fairgrounds voted against the rabbits following talks by Harold L. Lockhoff, county assistant farm agent, and State Rep. E. J. Parabaugh, association member.

Mr. Lockhoff read and discussed a statistical report on San Juan rabbits compiled at Penn State University. The farmers were told the controversial rabbits are very destructive to farm crops.

The association asked Rep. Parabaugh to seek legislation against importation of the rabbits.

Also speaking at the session was Herbert C. Terndrup, county farm agent. Mr. Terndrup discussed spring planting, emphasizing rotation and fertilization and the importance of using certified seed. He also discussed the county's milk ring test program and hand seeding methods.

The annual membership drive officially closed. A team headed by Jay Davis defeated the James Westrick team in the drive. The losing team feted the winners.

Next meeting will be held on March 22.
