

CHICAGO GETS NIKE DEFENSE RING

AFTER TWO YEARS OF SECRET, the Army has revealed that it has been busy engaged in ringing Chicago with Nike sites such as the one pictured here at suburban Niles. From the Nikes can be launched these giant, pencil-shaped missiles which are provided with "electronic brains" capable of following and destroying enemy aircraft. Launcher at left has achieved almost perfect alignment.

Check-Sheets On Sale for Top Value

If you are wondering how the sheets you see on sale will wear, check these points as given by Doris L. Snook, extension home management specialist at the Pennsylvania State University. Examine the weave. It should be firm, close and uniform. Hold the sheet to the light. It should look smooth and evenly woven at every point. The yarn should be even with no thick or thin spots. Look at the selvage. Good sheets are made with a tape selvage—extra threads woven in. The selvage should be firm, strong and neat with no loose, untidy threads.
