Thomas, a miner, was at work in his breast with his laborer a Polander, when he was struck by a mass of falling top coal. One side of his head was crushed in and a drill which he was using was driven into his left breast. his left breast. Death must have been instantaneous. The Harry E colliery at Forty Fort Was also the scene of a fatal accident on Monday. While Michael Lockist, a Hungarian miner, and John Cringo, his laborer, were at work in their breast a large piece of top coal fell upon them. The miner was almost instantly killed, and the laborer had both legs broken and was otherwise so badly injured that his life was despaired of. Peddlers Must Have a License. Governor Beaver has approved the Hawkers' and Peddlers' bill passed at the last session of the legislature. The bill absolutely prohibits the hawking and of fereign goods, wares and mer-chandise without license, except that persons sesiding within the State may sell articles of their own manufacture without a license. License to hawk and peddle can only be obtained by citizens of the United States and residents of the county for at least one year, on the certificate of two respectable practising physicians of the county that the appli-cant, by reason of infirmity, is unable to procure a livelihood at his trade, if he has any, or by bodily labor. This will almost entirely abolish the peddling system. -Eckley B. Coxe of Drifton has do-nated to Father N. It has also given a tract 120x250 feet to the Hebrew people of that town. -The condition of John Boyle of Wilkes-Barre, who was injured by an explosion last week, is much improved. For a time his life was despaired of, but he now stands a good chance of recover-ing. Mr. Boyle is well known in this part of the county.

The alleged murderers, Edward McGiynn and wife, are still in jail at Wilkes-Barre. -The remains of Rev. P. T. Roche, pastor of the Archbald Catholic church, who died at Boston on Monday, were taken to Scranton and the funeral took place at 9 o'clock this morning. throughout this diocese. —W. H. Smith, for the past few years superintendent of the Hazleton Manu-facturing Company, has assumed the superintendency of G. B. Markle & Co's. collieries at Highland and Oakdale. John Markle heretofore acted in the capacity of superintendent, but retired from the position to take up his resi-dence in New York.—Standard. Will Add Strength to the Ticket. Hugh Malloy will be a candidate for Recorder from the lower end of the county. This is good. Mr. Malloy is a sterling Democrat, well liked and es-teemed in his section of the county, and his name, location and well known quali-fications for the place will prove of great strength to the ticket.—Neusdealer.

A New Swindle on the Farmers

A New Swindle on the Farmers. Swindlers have struck a new scheme for beating the unhappy granger who is inclined to make money more rapidly than by the paths of strict rectitude. It is the man who wants to get rich fast that lays himself open to the wiles of such scoundrels as this. A well dressed man calls at the farm house and wants to buy a good horse. A good horse is shown him. Prices are made and after bantering a bargain is struck and the bargain and leaves to return in a week for the horse. The next day another well dressed and gentlemanly man calls and takes a fancy to the same horse. The farmer cannot sell it because it is sold, but buyer No. 2 wants the horse bad as it will just match his other horse in New York or Chicago, or some other place. He offers \$10, \$15 or \$25 above the price for which it was sold to No. 1. The farmer cannot sell the horse, but buyer No. 2 will be back in a few days, and if the farmer has the horse he will be glad to pay the \$25 extra for the horse the farmer yants to keep the animal to sell to No. 2, so he offers No. 1 his money and \$10 more back for his bargain. No. 1 takes the money, is \$10 ahead, half of which he gives to No. 2, and the farmer still owns the horse.

The Games of a Week. The Mt. Carmel club arrived early Thursday morning to test their skill and knowledge of base ball with the repre-sentatives of Freeland's diamond. The leak in the clouds prevented the morn-ing game and only one was played, which began at 2.30 p.m. and dragged which began at 2.30 p.m. and dragged which began at 2.30 p.m. and dragged which began at 2.30 p.m. and the sentence careless in the field and did good work at the bat, while the home club was pro-careless in the field and did good work at the bat, while the home club was pro-careless in the field and did good work at the bat, while the home club was pro-careless in the field and did good work at the bat, while the home club was pro-ficient in both those places, but showed the utmost recklessness in running bases. To this alone they can attribute their defeat; it was not their errors, neither was it the superior fielding or batting of them. It seemed the height of nonsense for player after player to try to steal the whole diamond on a battery that has played professional ball for the past four of two years. The experience of the first few who tried it had no effect whatever upon the others. One player after reaching third three times tried to steal home just as often, but it wouldn't work. This sort of play cost at the box. The change was not beneficial, as McGeady was not repared to throw, having taken the place of J. Carr, who was struck by a fly ball in the face just before the game began. He gave the statided down after that. Simmons' base throwing was not up to his standard, in fact all the players seemed to lack their usual confidence, without any ap-parent reason. The score by innings was: Freeland......0 2 0 1 0 0 0 1 2-6 Mt. Carmel......0 0 0 3 2 1 1 0 x-7 erty. Terms very reasonable.
