## FATHER BOYLE'S CASE.

The Supreme Court Grants Him a New Trial—An Appeal to the Public for Funds to Assist Him.

EDITOR FREELAND TRIBUNE.—I received a despatch from Father Boyle now in Raleigh N. C. jail that the Supreme Court had granted him a new trial. Col. T. C. Fuller, one of his counsel, sent me a copy of the opinion delivered by the Supreme Court reversing the judgment of the lower court and from it I am satisfied, not only that he did not get a fair and impartial trial in the first instance, but that he is innocent of the offence with which he stands charged. Col. Fuller and his colleagues feel confident that the result of a new trial will be an acquittal. He says, that confident as he is of Father Boyle's innocence, he will continue along with the other lawyers associated with him to work with unabated zeal for the cause of a man unjustly accused.

Since I began to collect for Father Boyle's defence I receive about one hundred and forty dollars (a small amount to collect in the neighborhood of a man's birth and where his friends are more numerous than the dollars collected) I sent to Col. Fuller in all two hundred dollars, and Father Boyle informs me that all the money I sent was placed to his credit so that he might have proper food etc. while confined, and not a single cent did the "hungry lawyer" keep.

The new trial of Father Boyle will take place in March when his counsel expect that with proper means at hand he will be acquitted, and I ask every person, friend or acquaintance of Father Boyle, or strangers who believe in a fair trial to persons accused of crime to contribute to defend him. Sources from which he might expect help are closed to him, and it is only his friends and the public he can now look to. I have prepared the following circular letter which I intend to mail to one or two persons in each town in the neighborhood. If any place should be overlooked, I will feel thankful to any person calling my attention to the same.

JOHN D. HAYES.

FREELAND, Pa., January 20, 1890.

DEAR SIR:—Will you kindly aid in raising a fund for the defence of Father J. J. Boyle now in prison at Raleigh N. C. He was sentenced to be hanged, but on a review of his case by the Supreme Court the verdict and sentence were set aside because the charge of the judge was not fair and impartial, and the evidence did not warrant the verdict. In other words, he did not get a fair trial, and was found guilty without proof of guilt. His counsel are satisfied that on a new trial he will be acquitted.

I ask you, as a lover of fair play and justice, to take some of our young men with you and canvass your town for subscriptions for this fund and send them to me or to Col. T. C. Fuller, Counselor-at-law, Raleigh, N. C., and they will be applied to his use and benefit. The money received by me before was not all received from you and Father Boyle's faith or nationality, Dr. H. M. Neale of Upper Lehigh, Jos. Neuberger of Freeland, W. A. Evans and A. S. Monroe of Hazleton, G. L. Halsey Esq. of White Haven, as well as many others contributed liberally. Would you try and do your share? God only knows who may need aid next. Cardinal Wiseman said: "Charity is not moth nor rust; but holy alms are like the dew of Heaven, a moisture stolen from the fields by day, repaid with silent usury at night."

JOHN D. HAYES.

## Anthracite Coal Statistics.

John H. Jones, Chief of Bureau of Anthracite Coal Statistics, furnishes the following statement of anthracite coal production for the month of December, 1889, compared with the same period of 1888, compiled from returns furnished by the mine operators:

Output in tons of the Wyoming region, 1889, 18,647,925; 1888, 21,852,365; decrease, 3,204,440. Lehigh region, 1889, 6,285,420; 1888, 5,639,236; increase, 646,184. Schuylkill region, 1889, 10,474,364; 1888, 10,654,116; decrease, 179,752. Total, 1889, 35,407,710; 1888, 38,145,718; decrease, 2,738,007.

Of the total production in 1889, 52 per cent. was from the Wyoming region; 8 per cent. from the Lehigh region and 30 per cent. from the Schuylkill region.

An Appeal for Aid.

The following circular has been sent out to societies and others by the Young Men's Catholic Beneficial and Literary Society of Lansford:

LANSFORD, Pa., Jan. 13, 1890.

DEAR SIR: The above named Society wishes to present the following facts. Four years ago our society was induced to undertake the erection of a Public Hall and Opera House in the borough of Lansford, Pa. After expending over two thousand dollars in lots and basement, the miners' strike of '87 took place, and lasting over seven months, and much longer with some we were obliged to cease operations. We again started the erection of the building last September, and when it was ready for roofing, the contract of an architect, any trouble, carelessly removed the bracing while the work was progressing. In an unguarded moment a violent storm arose and the building was blown down. Being so far into it we could not back out and lose what we had invested, so we set it under way again, and in a few weeks we will have completed a first-class Opera House at a cost of ten thousand dollars. The mishaps mentioned crippled us financially, and wishing to clear our indebtedness, we thought it advisable so as to derive all the benefits from it, we respectfully request you to purchase some of the stock. Shares are five dollars each, and any person purchasing the same will be entitled to present them at any time for payment.

Respectfully,

Not Dead Yet.

Michael Dougherty a miner of Milnesville while returning from work on Thursday night last fell into an old mine hole and received some very painful injuries. Having occasion to visit Hollywood on Sunday, and while returning through Milnesville, we were about going to see him when we saw him coming from a neighbor's house. As old friends we had a hearty hand-shake, and was pleased to see that with the exception of a bandaged head, he looked as well as ever. No "Salem" is not dead yet.

## The Mine Examiners' Report.

Below will be found a very interesting report of the Miners' Examining Board of the Fourth Inspection District. The Examining Board is divided into three sub-districts, the center which is Hazelton and the immediate vicinity, the North which includes all North of Hazelton, and the South, which takes in the collieries of the South Side.

The committee took great pains in the performance of their duties and paid particular attention to details, which can be easily seen by the report that is submitted.

J. L. Pfouts Dead.

J. L. Pfouts well known to the traveling public around here as solicitor general of the C. R. R. of N. J. died at his home in Wilkes-Barre on Sunday last of pulmonary troubles. Mr. Pfouts was a young man, and was raised from his boyhood in this section of the county, and he was a member of the fraternal order of the esteem in which he was held by those with whom he came in contact. As solicitor agent for his company he was untiring in his duty, and gained for himself the respect of the traveling public.

Weekly Coal Report.

The anthracite coal trade continues in the same inactive state heretofore reported, the only improvement noted being in the demand for the small steam sizes (pea and buckwheat), which are growing scarce and for which the prices are firmer both in Phila. and at New York. The domestic sizes remain exceedingly dull, and the consumption of egg, stove and chestnut coal keeps pace with the movements of the mercury in the thermometer. While the output of anthracite is still being curtailed the weekly production is in excess of the market requirements, and the accumulation at both the interior and tidewater shipping points continues to swell. Several of the carrying companies have thousands of loaded cars standing at tidewater awaiting discharge, but cannot find no dumping ground for the coal. On January 1st the stocks of anthracite at tidewater were as large, if not greater, than at any previous time in the history of the trade, and this is looked upon by some shippers as a menace to the stability of prices. But the larger producing interests are not at present suffering very much for ready cash, and they are apparently still working in harmony, consequently there need be no immediate fear of any great break in prices, because it matters not at what figures coal is offered nor it does not affect sales beyond the requirements for immediate consumption.

The total amount of anthracite coal sent to market for the week ending January 11, as reported by the several carrying companies, was 495,904 tons, compared with 661,939 tons in the corresponding week last year, a decrease of 166,035 tons. The total amount of anthracite mined thus far in the year 1890 was 941,506 tons compared with 1,042,505 tons for the same period last year, a decrease of 100,999 tons.—Ledger.
