## -Ice cream every day at Jacobs'.

Index of Freeland. —Much criticism has been indulged in by some of our citizens at the action of the burgess and street commissioner in taking time by the forelock and cleaning up the streets and alleys of the borough. Those people must remember that the officers are doing nothing but what they are ordered to do, and, apart from the constitutionality of the guestion, what is done now may save life before the summer is over. "Help them," rather than "hinder," should be your motto. —The ball held by the Soapies Base

Another Old Citizen Gone

Another Old Citizen Gone. Death, the unerring visitor, has again entered our midst and claimed another victim, in the person of John McNelis, aged 88 years, who died at Dritton, Fri-day evening. The deceased was an old resident of Jeddo, but for a number of years has been living at Dritton, and at one time held the position of supervisor of Foster township. He was well and favorably known—a fact attested by the large gathering made in St Ann's cemetery, at which a Requiren Mass was read at 10 m.

at which a Requiem Mass was read at 10 a.m. The deceased leaves a wife and five children—namely, Hugh McNelis, out-side superintendent for G. B. Markle, at Highland; P. H. McNelis, of Indian-apolis, Ind., John McNelis, of Drifton; Miss Kitty McNelis, of Drifton, and Mrs. Philip Brislin, of Jeddo. The funeral was an unusually large one, considering that the hour was early, and that a number of people were pre-vented, by being at work, from being present.

vented, by being at work, present. May his soul rest in peace.

# Almost an Accident.

Almost an Accident. While Charles Moerschbacher and his little boy, together with Charles Wad-linger, were driving up Main street yes-terday morning the brake iron on the wagon, for some reason unknown, failed to act. When they were about to turn, the mule attached to the wagon got scared and started off down the street at a rapid gait, throwing the occupants out on the street and upsetting the contents of the wagon. It was finally stopped be-fore any serious damage was done. Mr. Wadlinger received a good shaking, otherwise he is all right.

A Rich Coal Field.

A Rich Coal Field. Coxe Bros. & Co. have struck five rich veins of c-al in their new openings at Green Mountain or Oneida. One of these veins is thirty feet thick. Three breakers will be erected, and when com-pleted it is expected 1200 cars will be hoisted daily. During the past few weeks the company had a corps of surveyors at work making a survey for a private line from Oneida to Hazleton, where it may meet the Pennsylvania or branch of and run to Lansford to connect with the Reading. The line has reached the Le-high Valley road at the reservoir South of town.—Standard.

With another good battery the Tigers will have the strongest team of home talent that ever represented Freeland on the diamond. the diamond. It would be well for the several base ball organizations in this vicinity to ap-point committees to meet and form a local league of six or eight clubs. The first battle of the base ball war between the Brotherhood and National Leagues was fought on Saturday, and re-sulted in an overwhelming victory for the Brotherhood. Success to the Players League.

A New Mining Lamp.

A New Mining Lamp. Peter Miller of Upper Lehigh, has filed a caveat for a patent on an im-proved mining lamp. The lamp is a great improvement on those in use now, as it is will save its cost in oil in one month's use. As is well known to all who have occasion to use mining lamps, a great source of annoyance to the miner is the dripping of oil from the spout, and from the swinging of the head oil comes out of the airhole on top of the lid. In the Miller lamp all this is obvi-ated. The air hole on the hil is pro-tected by a cone tube which allows the lamp to be turned upside down without spilling the oil, and the spout has a wedged rim, acting as an oil arrester. The spout and bottom are in one piece making it less liable to melt the solder-ing. Mr. George McGee of Unger Lehigh

ing. Mr. George McGee of Upper Lehigh has one in use for some time and pro-nounces it first class, and fulfills all that is claimed for it.

ECKLEY.

Miss Mary McCann, who has has been visiting friends at Laurytown for the past week, returned home on Monday. Patrick Sweeney and James Brogan left on Monday morning for the Western States.

John McCole, of Kingston, spent Sun-ay with friends in town. David Campbell, of Scale Siding, spent Sunday in town seeing the sights.

Mr. John Wagner is very busy putting up a handsome fence through the mid-dle of his lot. We suppose John means to prevent the goats from destroying the fruit trees.

fruit trees. John Boyle removed his family to Williamsport on Tuesday. A grand ball was held at the band hall on Friday evening, and dancing was kept up until an early hour on Saturday morning. Johnson's orchestra furnished the music.

# Mining Inspection Laws.

-If current rumors be relied upon Luzerne county will shortly witness a prize fight to a finish between Thomas Cavenaugh, of Buffalo, N. Y., and Jas. Farrel, of Plymouth- The former will fight at 126 pounds and the latter at 130. The numerous mine accidents of a re-cent period afford additional proof of the futility, not to say downright mischiev ousness, of Government interference with mining affairs. Since the mine-owners have become relieved by Inspection laws of a large share of their responsibility for accidents they have grown careless in re-gard to the condition of the mine-dimension of a large share of their responsibility for accidents they have grown careless in re-gard to the condition of the mine-dimension of the intersection of the providence of the state of share become relieved by Inspection laws of a large share of their responsibility for accidents they have grown careless in re-gard to the condition of the mine-dimension of the state of the state of the state of the state accidents they have grown careless in re-gard to the condition of the mine-dimension of the state of the state of the state of the state accidents they have grown careless in re-gard to the condition of the mine-dimension of the state of the state of the state of the state accidents they have grown careless in re-gard to the condition of the mine-dimension of the state of accuents they have grown careless in re-gard to the condition of the mines.
