The Rope Breaks.

Monday morning at No. 5 slope of G. B. Markle & Co., situated between Jeddo Borough and Eckley, which has been sunk to the first lift of the old Pink Ash vein, as the engine was about to hoist a car of coal up the rope broke when it was a short distance from the bottom. The break occurred near the sheave on top and struck a Hungarian, injuring him severely. The descending car was broken up, but otherwise no injury was done to any person.

Tried to Scalp Him.

There was a Hungarian moving at Upper Mines on Saturday. After being comfortably settled the men celebrated the event by "getting outside" of the comfortable fire-water. Stephen Fritz, one of the number, attempted to give his comrades "some pointers" in American pugilism. When John Schubach, Thos. Lorenz and John Bultz resorted to a stone lid and hit the Hungarian about midnight and placed them in the lock-up. When the affray was over Fritz was found unconscious with four large gashes across his head. A warrant was sworn out for the arrest of Schubach, Lorenz and Bultz. Constable Martin and Chief Miller arrested them about midnight and placed them in the lock-up. They were given a hearing before "Squire Gorman who committed them to await the result of Fritz's injuries—*Hazleton Standard.*

Huns Experimenting With Daulin.

On Sunday evening at Tomhickon, four Hungarians, George Bollinger, Jno. Kurick, George Bannen and Adam Behun, were sitting around a stove discussing the explosive qualities of daulin powder, some contending that it would not explode by fire and that a concussion was necessary to put it off. Behun, who had a wedge of it in his trunk, went and brought it in the fire while the rest sat back and complacently looked on. All at once there was a deafening report and Bollinger's hand flew in the direction of the ceiling and so great was the force that one of his fingers stuck there. Kurick was struck by a piece of the stove and his arm badly lacerated and Bannen was also injured some, but Behun who furnished the powder for the experiment was gone and it was thought he was blown through the roof, but such was not the case for he quietly snuffed out during the crush for fear of being arrested. A physician was called in who dressed the wounds and now the three are resting as well as can be expected after the experiment, and fully convinced that daulin will explode in a stove as well as in a rock blast. The funny thing about the matter, is all of the men were perfectly sober.—*Pain Speaker.*

Council Meeting.

Council met on Monday evening in regular session, the following members being present: Albert Goepfert, A. Donop, A. A. Bachman and Patrick Doris. The minutes of the last meeting were read and approved.

PRESENTATION OF BILLS.

The following bills were presented, read and approved:

A. B. Howe, for 7 loads of stone, \$ 4 20

John M. Powell, janitor, 8 00

John M. Powell, rent of land for entrance to borough pound, 1 00

Penn'a Globe Gaslight Co., 39 00

A bill for \$6.00 was offered by R. M. Kinker for arresting, killing and burying four dogs. The bill was presented at the last meeting and returned for the approval of the burgess. On this occasion the bill was signed by the burgess, but, as the high constable could not give an account of the owners of such dogs, the bill was rejected.

The treasurer presented his report for the month of October, as follows:

Bal. on hand at last report..... \$1044 70

Paid out on orders..... 372 24

Balance on hand..... \$672 46

The burgess' report was presented and read, but, as he was not present, it was laid over until an itemized report be made out, covering the time since his last report.

The street commissioner presented his report for the month of October, showing an expenditure of \$94.03. The report was accepted and the Secretary instructed to draw orders on the treasurer for the amount.

The street committee reported that the sidewalks on several streets were in a bad condition; and after discussing the subject for some time, the street commissioner was instructed to attend to the matter and have the property owners repair the same.

Mr. John Brelsford presented himself before the council on behalf of the owner of the property and house in which he resides, complaining of the bad condition of the sidewalk and gutter along the property adjoining it, belonging to St. Luke's Church on Main street. The street commissioner was instructed to consult with the trustees of the church, and to use his own judgment as to what repairs are needed and place it in a passable condition.

The term of the janitor having expired, Mr. Powell agreed to do the work for another month, and during that time proposals will be received from parties who wish to act in that capacity.

The order was made for the widening of Ridge street, from Main to South, was read for the third time and approved finally.

There being no further business the council adjourned to meet on the first Monday in December.

Wrestling Match at Hazleton.

James Morgan, the wrestler, who was dissatisfied with the result of his match with August Schmidt at Hazleton last week, wrestled with Schmidt at the opera house in Hazleton on Saturday evening and was again defeated. After the contest was over Mr. Morgan informed a newspaper reporter that his name was not James Morgan but Bert Scheller and that he had one of the best records in the West as an athlete. He stated he had been traveling through the western part of Pennsylvania for the last few months, and hearing that a number of sports in this region would like to meet any man in a wrestling bout, he decided to come to Hazleton; but fearing that his record would discourage them he changed his name. After staying in Hazleton for a couple of days he found, to his surprise, there was none such men here and his challenge was consequently taken up by Schmidt, who resides in New Jersey.

Weekly Coal Report.

The anthracite coal trade is still actively engaged in shipping coal to fill orders at the prices ruling prior to October 1st, but the new business done during the past week at the October circular figures is not worth mentioning. The Eastern dealers, whose orders have not yet been filled, are pressing the shippers to forward their coal before navigation closes, and this together with the scarcity of vessels has stiffened vessel freights. The general sales agents of the anthracite companies met at New York on last Wednesday and decided to advance the circular prices of egg and stove coal for shipment beyond New York and the Capes of the Delaware 10 cents per ton, which advance will take effect on Saturday. It was also agreed to fix the output of coal for November at 3,250,000 tons, against 3,277,000 tons, the production (actual) for the corresponding month of last year. There were several conferences of the principal schuylkill and Lehigh coal operators held last week in this city, when an effort was made to increase the line and city prices for anthracite, but an agreement could not be reached upon which sizes to make the advance, and consequently the subject was dropped without result.

The total amount of anthracite coal sent to market for the week ending October 25, as reported by the several carrying companies, was 848,311 tons, compared with 869,807 tons in the corresponding week last year, an increase of 38,504 tons. The total amount of anthracite mined thus far in the year 1890 was 28,384,951 tons compared with 28,740,325 tons for the same period last year, a decrease of 355,375 tons.—*Ledger.*

PATTISON ELECTED!

Delamater Overwhelmingly Defeated.

LUZERNE'S VOTE.

JEFFREY ELECTED REPRESENTATIVE BY A BIG MAJORITY.

The greatest political battle ever fought in this or any other State has resulted in a sweeping victory for the Democrats of Pennsylvania, whose standard bearer, Robert E. Pattison, will be inaugurated Governor of this great Commonwealth next January. The campaign, which was entered upon last July under most favorable auspices, has concluded in a triumph for the people, who have for years past been clamoring for an honest government and ballot reform, which they realized could not be had under George Wallace Delamater.

The State is now safe, and it is well deserving of a return to civil methods of government. It had openly asserted that it was not only tired of Republican methods, but became alarmed at the fundamental ideas of the Republican party. It demanded to be free—free from the degrading influence of ring rule, one man power and bossism—and asserted its power to free itself. With this feeling pervading the State, we, as Democrats, have reason to be thankful at the result.

When the smoke of battle is cleared away and all unnecessary feeling and excitement allayed, we can begin to see the dismay that has seized upon the unscrupulous enemy. The Republicans have been consoling themselves all through the State that they would again receive the endorsement of fraud and corruption as they have in the past, and be again victorious.

The base hope has, however, deceived them, and already the death knell of Republicanism is resounding in their ears. It is a terrible attempt to invalidate the will of the people, and those who attempt it by trickery or fraud are sorely punished for their crime.

All kinds of nefarious schemes were resorted to by Delamater, but under a Democratic executive, we will have a return to the principles of purer government, such as characterized the first four years of Pattison's administration, with such good results.

This is indeed a happy result for our State. The hoodlums and leeches who had intended to fatten on the spoils of office will be relegated to the rear, and ballot reform in its true meaning will be an assured fact.

The election on Tuesday was one of the most bitter contest ever known in this part of the county. In the borough the contest raged pretty hot from the opening until the close of the polls; but apart from party rivalry and a desire on the part of both parties to get in all their votes, the best of feeling prevailed. Freeland has been noted in the past for the fairness in which elections were held, and this was no exception.

Early in the evening the P. O. S. of A. Band left their hall, on Ridge street, and serenaded many of our business men, as also Representative-elect Wm. R. Jeffrey, who kindly invited them in and done the fair thing by them. Later on many of our Republicans indulged in the firing of Roman candles.

The Western Union Telegraph office was kept open all night, and returns were received from all parts of the State.

The enthusiasm manifested by those who made displays and shot off Roman candles was when the news flashed across the wire that Pattison had been elected.

The prohibition party in Freeland and Woodside district was lost sight of.
