Copper at Evans' Falls. A visit to Evans' Falls last week found the quiet inhabitants of that place some what excited by the finding of copper on the farms along Bowman's Creek. Many years since, an Englishman named Bren-ton found copper, as he supposed it to be, on what has ever since been called Cop-ger Mine Hill. He was sure there was copper there and he dug a deep hole by the roadside, but failed to interest men with means to form a company and he gave it up. Some time ago Jackson, who then owned the farm, found rocks purple with copper and sent it away to an es-sayist to be tested. It was pronounced copper, but not in paying quantities. The Jackson farm was sold at sherift sale and bid in by neighbors who went to to a blacksmith shop and melted. Pare copper bright agold melted with it and something that looked like silver. Major R. H. Evans has hundreds of acres of land and he proposes to know at once what the copper anouns to. Old miners who have worked in copper mines com-sider it exceptionally rich and if so Evans' Falls will soon be a busy place.- *Newsdet*.-Under New Management. Copper at Evans' Falls. Under New Management. The opera-going people of Freeland and surrounding towns will be glad to know that the management of the Free-land opera-house has at last been placed in the hands of men who are in sym-pathy with the wants of the public. For some time past the attendance at the shows exhibited here has been falling off, the reason for such we are unable to say. We have been assured by Messrs. Fowler and Boyle, the present lessees, that nothing of an objectionable charac-ter will be brought here, nor will en-gagements be made with any troupe who does not bring first-class recommenda-tions. They assure the TREUKEN thi is at liberty to criticise any and all shows brought here, and allow will be pleased to here any complaints or suggestions from ought here, and also will be pleased to ar any complaints or suggestions from e patrons of the house in order that year y may guard themselves against any ide shows that may come around, and to be better prepared to cater to their ints. We bespeak for the lessees a superous career. They are personally quainted with all the people of this ition and nothing that the TIRUXE ide asy in their behalf could help em.

Haines; Deputy Warden, Henry Bul-lock; Assistant Warden, Jhon, Llewellyn; Night Watchmen, Thomas Smith and John Fallon. A Good Company. On Monday, Tuesday and Wednesday evenings the Justin Adams Dramatic Company played under the auspices of the Young Men's T. A. B. Society, of Freeland, at the opera house. The weather against them, the attendance was above the average each night. Those who braved the elements last night to attend were well repaid for their trouble. The members of the company are all first-class artises, and they leave Free-land with the assurance that their parts were well rendered and everything was done as promised.

The residents of Hazleton Mines and West Hazleton were thrown into a state of excitement early Thursday afternoon by a cave-in just west of the borough line.
