During the recent illness of Street Commissioner Beattie of New York City his department was controlled for a fortnight by his private secretary, Miss Cynthia Westover, who superintended 1500, meq. Miss Westover went about personally to decide which streets were in worst condition, and assigned every day the dump-carts and sweepers. Knowing just how much smoopey she could spend daily, she engaged or discharged hands accordingly, having harrowing experience with

ON SPAIN'S SHAKY THRONE.

Agree Regent Christina and the Sickly Little Intant King Alfonso.

Maria Christina, the Queen Regent of Spain, is a darghter of Archduke Charles of Austria and is now in her thirty-third year. Spaniards are proverbially averse to being ruled by a soreigner, but the tact and judgment shown by the widowed mother of their pre-ent beby king have disarmed their hostility and made her popular. She was the second wife of Alfonso XII., the late king, and was married in November, 1879. Alfonso was never strong, and he died while still a very young man, in December, 1885. The Queen has two young children, both of frail health. The elder of the two, the Infanta Donna Maria de-las Mercedes, Princess of Asturias, to whom the crown would revert in the event of her brother's death without issue, was born in 1880, and the present King, Alfonso XIII., in 1886, five months after his stather's death.

The little king has had a fard struggle for life. Like most of the royal families of Europe the Spanish Bourbons are affected with scrofula, and the baby who now wears the crown has been pulled through many severe crises only by great medical skill. The general belief in Spain is that he will never reach manhood. All sorts of stories are told about him. Among them is one that when mildly rebuked by his attendants for eating with his fingers and told that kings did not do so, the little fellow pertly remarked: "This king does." The republican sentiment has been steadily growing in Spain during recent years, and it would not surprise those who know that courty best if Alfonso XIII. should turn out to be the last king. Preparations Under Way for the Dedication of the Shaft at Beneington.

The Vermonters whose great-grandsires fought at Bennington are to have a great celebration Aug. 16. It will be a double jubilee. The battle of Bennington was fought Aug. 16, 1777. Vermont was admitted to the Union in 1791. So the celebrations are combined, and on the anniversary of the battle the great Bennington battle monument will be dedicated.

The monument will soon be completed and will be one of the most interesting memorial structures yet erected in this country. It stands on the hill which the grim and determined men of Bennington held against the red-coats on the memorable day in 1777. The base of the shaft is 300 feet above the Walloomsac valley. Half a mile to the south Mount Anthony rears itself in grandeur 2,000 feet high. The site of the towering shaft has been admirably selected.

German Syrup"

For Coughs & Colds.

John F. Jones, Edom, Tex., writes I have used German Syrup for the past six years, for Sore Throat, Cough, Colds, Pains in the Chest and Lungs, and let me say to anyone wanting such a medicine—German Syrup is the best.

B.W. Baldwin, Carnesville, Tenn., B. W. Bardwin, Carnesvine, Fenn., writes: I have used your German Syrup in my family, and find it the best medicine I ever tried for coughs and colds. I recommend it to everyone for these troubles.

R. Schmalhausen, Druggist, of Charleston, Ill., writes: After trying Charleston, III., whites: After trying scores of prescriptions and preparations I had on my files and shelves, without relief for a very severe cold, which had settled on my lungs, I tried your German Syrup. It gave me immediate relief and a permanul current current.

No one doubts that Dr. Sage's Catarrh Remedy really cures Catarrh, whether the disease be recent or of long standing, because the makers of it clinch their faith in it with a \$500 guarantee, which isn't a mere newspaper guarantee, but "on call" in a moment.

That moment is when you prove that its makers can't cure you.

The reason for their faith is this:

Dr. Sage's remedy has proved itself the right cure for ninety-nine out of one hundred cases of Catarrh in the Head, and the World's Dispensary Medical Association can afford to take the risk of your being the one hundredth.

The only question is—are you willing to make the test, if the makers are willing to take the risk?

If so, the rest is easy. You pay your druggist 50 cents and the trial begins.

If you're wanting the \$500 you'll get something better—a cure!
