To Organize a Choir.

At an early date Prof. W. Rhys Herbert will organize a Welsh choir of 250 voices. The singers will be from Hazleton, Freeland, Andenried, Mahanoy City and Shenandoah. On March 17 the choir will go to Wilkes-Barre and compete for the \$500 prize offered at the Cambro-American Eisteddfod to be held in that city. There is not another section in the State where so many talented Welsh singers can be brought together, and the proposed new choir will be made up of none but the very best vocalists. Prof. Herbert is a man who knows how to get a choir together and under his training the choir will no doubt bring home the laurels from Wilkes-Barre.

Saturday's Celebration.

The observance of Father Mathew's Day here by the societies of lower Luzerne was a grand success. The parade, in appearance and numbers, fulfilled expectations, the marching and general deportment of the societies being very good. Exclusive of the music, which consisted of three bands and five drum corps, there were 1088 men and boys in line. At the Firemen's Park Hon. E. B. Coxe, John Brady and Father McNally delivered appropriate addresses. During the day the town was well filled with visitors. In the afternoon and evening the local societies held their picnic, which was the largest ever conducted in Freeland. One of the principal events of the day and one that occasioned much surprise was the presentation of a valuable gold cross to Mr. Coxe by D. J. McCarthy. The recipient acknowledged the gift in a kind reply.

The situation of the coal trade has not changed materially since our last report. There is not much business doing at the October circular prices, and the anthracite companies and larger individual operators are still making large shipments of coal on old contracts at figures which ruled prior to September 1.

The total amount of anthracite coal sent to market for the week ending October 3, as reported by the several carrying companies was \$855.00 tens. October 3, as reported by the several carrying companies, was 863,500 tons, compared with 859,782 tons in the corresponding week last year, an increase of 3718 tons. The total amount of anthracite mined thus far in the year 1891 was 25,688,793 tons, compared with 25,916,585 tons for the same period last year, an increase of 2,772,288 tons.—Ledger.

How to Sell Segars.

The Philadelphia Record states on the authority of an Internal Revenue Agent that every dealer who takes out a handful of segars for a customer to choose from or a saloonkeeper who brings segars on a plate or in a tumbler, as most of them do, makes himself liable to a fine of \$100 and other disagreeable consequences besides. The revenue law says "Segars must be sold to the customer direct from the properly stamped box." Dealers and saloon men should take note of this and possibly save trouble.
