THE LAND OF SILENCE.

Twirt the shining steeps of joyance And the death-clear lake of ruth A low land lies-a wonderful land-That knows not age nor youth.

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text>

shook their heads, and several turned shook their heads, and several thread away as if longordelay spot was uneless. But, when silence reigned for some time, Pierce Ryan stopped out and said; "The only hope is in descending to her aid, and with Heaven's Help I will make the trial. Give me a roop?"

Oratory Against Horse Racing. Jerry Simpson is not the man that he is represented to be by some of the daily prints. He dresses neatly and has the appearance of a keen-eyed businessman. He is called "Sockless Jerry," but he de-clares that since raching man's estate he has never worn shoes without socks. He is a fuent talker, and the trouble with him is that he does not know when to stop. At the Alabama State Fair he was ad-vertised to stand on a platform with Sen-ator Peffer and deliver a speech. As this platform was in the grandstand and directly opposite the judges' grandstand. Mr. Simpson was advised to cut it short, so that the racing programme could be finished before dark. Benator Peffer spoke briefly, keeping his eyes on his watch and then Mr. Simp-son began to unwind himself. He tick-led the Alabama fatter was no help for it. The bell was sharply rung, and it drowned for a space of one minute the voie of Mr. Simpson. The orator paused with a smile on his face and then almy proceeded with his speech. The herses wore on the track and ready to score it most of the as sharply rung, and it drowned for a space of one minute the voie of Mr. Simpson. The orator paused with a smile on his face and then almy proceeded with his speech. The herses stored and finally got the word. Tho orator kept at it until the quarter pole was passed, and then, as his hearers rose to their feet and grew we keited over the shifting of positions of the contestants, Mr. Simpson rounded a period and stopped. He watched the finish of the heat with some interest, and then was low in the throng. Thet coming the dinger table Mr.

Mr. Simpson rounded a period and stopped. He watched the finish of the heat with some interest, and then was lost in the throng. That evening, at the dinner table, Mr. Bonner apologized for his seeming rude-ness, but Mr. Simpson good-naturedly stopped him. "No explanation is nec-essary. My time was up and I knew it. I simply wanted to see how long I could hold an Alabama audience against the experiment in other States, and now I am satisfied there is nothing more mov-ing than a horse trot." As Mr. Simpson spent his younger days in Cleveland and Chicago, he learned a good deal about the light-harness horse before settling down in Kansas.--[Turf, Field and Farm. Bismarck Made Him Rich.

There was buried in the little town of Biesenthal. Germany, a few days ago, a marek. It was Gustav Bannewitz. On May 7, 1866, Bannewitz, who was then serving his three years in the army, was stationed at the Russian embassy in Bur-lin, when Blindt fred a revolver at the exchancellor. The bullet hit the prince, but failed to do him injury on account of the mail coat which he wore under his miform. One of the comic papers in Berlin asked, sententiously, at the time: "Herr Von Bismarck, who is the black-smith who sews your shirts?" Bannewitz succeeded in capturing the criminal and Bismarck never forgot the service. The prince became a good customer of the prince became a good customer of the little book-bindery which Bannewitz owned and his patronage made it popular. During the France-Prussian war he had him attached to the royal headquarters, where he was almost always at his side. After the war Bismarck did not lose sight of the man, who therefore die a rich man, owning several palatial mansions in Berlin and a large country estate. He also received through the intercessions of the prince floavene. Olive Trees 2,000 Years Old. There was buried in the little town of

The fugitive raised her grateful eyes, and thenl'ierce saw for the first time that she was a young girl apparently seven-teen, and of unusual loveliness. Pierce folt that he could dare the same danger a thousand times to win another such for the prock on which they stood— for every wave dashed the cold spray over them—soon recalled him to the necessity of providing a place of shelter for his companion until means should be found to raise her to the succeeded in ele-vating her to a narrow shelf of the rock, with great difficulty, and aided by the clift. They are huddled in birth when he is entirely defence-wandering Lapps drive several hundred of their reindeer to a valley only a few miles from Tromso, and it was there that we saw them. They are huddled in birch bark, full of smoke from a fire in dome-shaped hats of stone, turf and birch bark, full of smoke from a fire in the center of the hut, which finds an exit only through a hole in the top of the structure and through the door when it is opened. They have the yellowish forehead of the Mongolian race. They in and wretched. The reindeer is their splies them with milk, meat, clothes and framsportation. Nearly everything that they need is made from some part of this gearn something by the sale to summer from the horns of the reindeer. The no-my and Sweden are comparatively few in number, misserable, semi-barbarous. But have hed in the sling of the source and from the horns of the scale to summer f

## She Knew Mr. Simpson.

Two refined-looking ladies sat in the members' gallery of the House of Re-presentatives picking ont the various statesmen on the floor with the aid of the chart in the Congressional Directory.

## NOTES AND COMMENTS.

A FRENCH statistician calculates that the aggregate wealth held by millionaires in civilized countries amounts to about \$5,000,000,000, the entire number of millionaires to be about 950, of whom 250 are in Great Britain, 200 in the Uni-ted States, 100 in South America, 100 in Germany, 75 in France, 50 in Russia, 50 in India and 125 in other countries.

Steiningly, to lattice, which is that is a solution of the second in the contries. The finest gamets and nearly all the periodets found in the United States are obtained in the Navajo Nation, in the northwestern part of New Mexico and the northwestern part of New Mexico and the soldiers stationed at adjacent forts. Generally these gens are traded for stores by the Indians at Gallup, Fort Defiance, Fort Wingste, etc., whence they are collected to the soldiers of the sold of the sold

Fine gems weighing from two to three carats each and upward when cut are not uncommon. CHARLES DUDLEY WARNER, in the Editor's Drawer of Harper's Magaine, proposes a novel plan by which life may be inverted, and most of the ills which now afflict mankind may be avoided. "This plan," he says, "has more to recommend it than most others for re-moving poverty and equalizing con-ditions. We should all start rich, and the dying off of those who would never tatin youth would amply provide for-tunes for those born old. Crime would doubtless, be some old sinners, the erim-inal class, which is very largely under thirty, would be much smaller than it is now. Javenile depravity would pro-portionally disappear, as not more peo-ple would reach nonage than now reach over-age. And the great advantage of the scheme, one that would indeed trans-form the world, is that women would al-ways be growing younger." Ture first land which has undertaken the legal registration of hypnotism is Belgium. A few days ago the Legisla-lature adopted a law which, in all proha-bility, will serve as a model for the legis-lative action of other countries. It de-clares that any one who exhibits publicly a person hypnotized by himself or others who hypnotizes a person under 20 years of age, cr not in the full possession of his faculties, will be punished by imprisonment rang-ing from two weaks to six months, and be fined from §5 to §200; that any one not in possession of a physician's diploma who hypnotizes a person under 20 years of age, cr not in the full possession of his faculties, will be punished by imprisonment rang-ing from two by more on under 20 years of age, cr not in the full possession of his faculties, will be punished by imprisonment. The same penalty threatens a person who attempts to use a document signed by one while hypnotized by earb of head will be punished by imprisonment. The same penalty threatens a person who attempts to use a document signed by one while hypnotize a person to glagium have welcomed the adoption of law.

Six Evanto REED's plan for construct-ing a railway across the British Channel is to lay two mammont tubes of steel plate and concrete, twonty feet in diameter. The tubes would be made in lengths, and when two lengths were completed they would be joined together in a parellel fity feet apart and floated out into the Channel to be attached to the completed length. All the work is to be done above water. Thus, the end of the completed length. All the work is to be done above water. Thus, the end of the completed length is joined on. Then that will be allowed to sink, and the last attached part will form the end of the completed part. This plan has already been practised with success in America in carrying the pipe, forty inches in diameter, for a waterworks a long dis-tance across a body of salt water. In that cass the engineer in charge invented a joint which remained tight as the com-pleted tube first hung in a curve, and afterward adjusted itself to the bottom on which it came to lie. SIR EDWARD REED's plan for construct-

afterward adjusted itself to the bottom on which it came to lie. The plans for the projected Protest-ant Episcopal Cathedral of St. John the Divine, in New York, have finally been adopted. The cathedral will be built in the form of a cross. The total external length will be 520 feet. The width across the front, 190 feet; height of central spire, 425 feet from the floor of Cathedral; from level of city, 525 feet. The width of front towers will be 57 feet, and their towers, 43 feet; height, 160 feet; total central of cet. Width of four flanking towers, 43 feet; height, 160 feet; total central of plers, 60 feet; height of vanling, 230 feet; depth of chancel, 120 feet; width of nave, 116 feet; interior diameter of central tower, 116 feet; interior diameter, 96 feet; height of vanling, 230 feet; depth of chancel to centers of piers, 60 feet; length of nave, 180 feet; width forn aves and chancel to centers of piers, 60 feet; height of chancel vaults, 155 feet. The cathedral will stand on the highest, or nearly the highest, ground in Manhattan Island, and its first floor will be fully 100 feet above the level of the city.

above the level of the city. THE Chicago Tribune, which thinks that the wife of Columbus has been neglected, gives this sketch of her: "Columbus was married in 1470, or thereabouts, to a Miss Palestrelle, of Lisbon, whose father had distinguished himself as a navigator. A part of Miss Palestrello's marriage dower was a great collection of valuable charts, journals and important memoranda. From child-hood she had displayed wonderful enthu-siasm on the subject, partaking to a marked degree of the speculative and ad-venturesome ideas and schemes in the theory for a statement of the statement theory for a statement of the statement of the statement theory for a statement of the statement statement of the statement of the statement of the statement of the statement marked degree of the speculative and ad-venturesome ideas and schemes in the statement of t

An Albino Brook Trout. I have received from Colonel John Gay

I have received from Colonel John Gay a small albino brook trout, three inches long, which was presented to him by Mr. J. P. Creveling, Superintendent of the Allentown hatchery of the Pennsylvania Fish Commission. This little trout has pink eyes; the sides are of a pale straw color and described by Colonel Gay as sparsely red spotted in life. The fins are paler than the booky and the teeth of the upper jaw deep brown on their outer surface. The fish is slightly deformed, the portion of the backbone near the tail fin being slightly bent downward, while the lower lobe of the tail is more nearly horizontal in direction than in the normal tish. This albino was hatched in Allen-town from one of the eggs forwarded to that station from Corry, Penn. Super-intendent Creveling has a number of de-formed trout now living, some of which are cariously distorted. He says they seldon live to a greater age than ten or eleven months.—[Forest and Stream.
