Wonderful Growth of Shipping on the Great Lakes.

The history of marine architecture does not furnish another instance of so rapid and complete a revolution in the material and structure of floating equipment as has taken place on the great lakes since 1886.

More than one-half of the vessels on the great lakes are assigned to Chicago, Port Huron, Detroit, Milwaukee, Grand Haven, Cleveland and Buffalo.

The increase in population of the lake ports indicates the great increase that must follow, necessarily, in the business of the lakes and also of the railways tributary to them.
