### UPPER LEHIGH NOTES.

The Tarriers Social Rock Club, after a debate which covered three evenings, decided the matter under discussion in favor of the affirmative. Fishermen and the public in general will take notice that fishing with a net is more productive than fishing with a hook. The subject of debate this week is, "Resolved, that lager beer is more offensive to the masal appendage than limburger cheese." Much difficulty is expreienced in procuring speakers for the affirmative side, but this will be overcome by initiating a few Prohibitionists. The Grand Tarrier is to be elected soon and an exciting time is anticipated. The members of the ciub think the secrecy of the Baker ballot law is not sufficient, so a committee has been appointed to confer with the gypsies encamped near Freeland and inquire into their methods of conducting elections.

Some of the miners of this place say they are satisfied now, since they do not have to go to the office twice a month to turn in the laborers' time. That was the complaint of many—the trouble and annoyance caused by the two weeks' pay. But we notice they still find some excuss to run to the office, not only twice month but twice a week, and it is not the laborers' time they talk about when they get there. It is strange these things called "men" don't possess enough sense to know that the whole community is aware of 'their tale-carrying, but we suppose that is the nature of a lickspittle. Their continual hanging around the store is time lost that could be spent more profiably in other ways. For sometime past the residents of this place have been, in constant dread of something that was supposed to have come back from the home of the dead, and many attempts have been made to learn the exact nature of the object. A few evenings ago this mysterious affair was cleared up by one of our young men who has more than the ordinary amount of courage. While at the rear part of the house, he saw a white object going up the street, and from it was heard in a low, weird, sepulchal tone the familiar song "Maggie Murphy's Home." He thought the object must have surely come from the land of spirits as this ballad has been dead for some time. He gave chase and after a hard race got close enough to see what it was. He turned, went home and sneaked to bed. When asked about his adventure the next day in the mines he said: "I hat any person who could have the spook racket worked on them by a young man, a white horse from Freeland and two girls should prepare for the next world without delay, as this was no place for them."

It seems to be settled that No. 1 breaker is not to be rebuilt. When it was torn down the wise men of this place said that the new iron structure to be erected in its place would cause scientific men to come from all parts of the country to behold the wonderful mechanism it contained, also to see the scientific men who planned and built it. Since then, however, it has become apparent that its usefulness has gone to keep company with the hall that was burned a few years ago, and that it was taken down for good. A portion of it is yet standing, and the wise men have came to steen the culm bank or left to the mercy of sparks from passing locomotives.

Umpire Bonner or Sunday awarded the game with the Painter Athletic As-sociation Club to Freeland with the usual Score, 9 to 0. The cause of this was the visitors' refusal to play after the seventh inning, owing to a misunderstanding 

The statement made in Monday's Sentinel that the Freeland mangement dub for the state and surjective the state and surjective the state on Sunday afternoon. People who have interested themselves in base ball are familiar with the reputation of this club, which has furnished more professional players to the leagues than any other single team in the country. The manager of the Solar Tips has sent word to advertise them as the strongest club in that city, and says he will ask nothing if his players are not capable of giving an exhibition equal to that of any professional nine. The game will commence at 3 P. M., with the usual admission. Freeland's battery will probably be Welch and Brady, while Hirshfield and Margerum will fill the same positions for the visitors.

The statement made in Monday's Sentinel that the Freeland management duped a number of people of that city by advertising the club of last Sunday as the Athletics of Philadelphia is dervounced as false and malicious by Manager Hanion. Nothing more was claimed for the club than what it really was, although several papers took upon themselves the responsibility of calling the team the Athletics. The game was advertised only in the Traisurs, which stated the club was composed of members of the Painter Athletic Association. It is very unbecoming for a newspaper like the Sentinel to try to shift its blunders upon the Freeland management.

Steve Welch has received an offer from the Charleston (S. C.) Club of the Southern League. ### Memorial Day in the South

New Beene, N. C., June 2, 1892.

EDITOR TRIBUSE:—Memorial Day was ushered in by a beautiful sun and with a cloudless sky. Early in the day the town was thronged with people, and old veterans of 1861-65 came from all adjacent towns to do homage to the fallen heroes of many a hard fought battle. The scars and broken limbs and warm grasp of the hand and the tearful eye were visible on all sides, either Federals or Confederates. The National Cemetery at this place holds in trust the sacred bones of over 1850 of the Union army. At 2 o'clock John C. Beecher's Post, No. 22, took the lead, followed by the Sons of Veterans, Women's Relief Corps, Sunday Schools and a number of bands and other organizations.

An essay was read by Miss Sarah Dixon and Miss Amanda Shaw entitled "The Blue and Brave," and after oration services was through the procession was soon in line and the mound of every soldier was bedecked with flowers and the emblem of their country. After performing this sad duty the procession moved for this town and dispersed, and of such good order I was certainly surprised, for the National Cemetery is situated about one and a half miles east of the city of New Berne, and the procession reached from the city to cemetery at four abreast and there was fully 3,000 people in line.

The Confederates hold the Memorial Day on the 10th ulti. twenty days previous to the National Decoration Day as they call it down south. I was surprised to see so few white people or business people of the north that are in business, and those doing business are so unconcerned in paying a last tribute to him who fought for his country and flag. The colored race they do certainly rejoice in gaining their liberty. H. S. DEFFE. New Berne, N. C., June 2, 1892. DITOR TRIBUNE:—Memorial Day was ared in by a beautiful sun and with

A Woman's Strange Death.

Probably the most remarkable occurrence ever known happened in Dawson Wednesday, Martha Roundtree, the well known negro woman who kept a restaurant at the south end of Main street, now occupies a grave at the cemetery, the result of a sneeze. The physicians of Dawson say that they have never heard or read of a similar case. Wednesday the woman, as well as usual, was at the restaurant attending to her work. She had just left the rear of her eating saloon and walked to the front when she was attacked with an excessive spell of sneezing and coughing. She had been afflicted with hernia, and the strain was so great as to burst a hole in her stomach. Surgical aid was called in and her stomach sewed up, which gave temporary relief. She lingered until late Saturday afternoon, when she died. The victim of this remarkable occurrence was a large woman, weighing 246 nounds.—Savannah News. currence was a large woman, weighing 246 pounds.—Savannah News.

Sheep shearing.

Sheep shearing is now being pushed rapidly, and most of the flocks in the valley have been shorn of their fleecy coats. Some big records have been made in shearing, but the ten men headed by O. H. Lane seem to take the lead. They clipped 42,000 fleeces in six weeks. The best record for a single day twas made by G. O. Meager and L. Palmer, who sheared 155 each. Lane will start in a few days for Flagstaff, where he and his band have work altready engaged to last three months. The clip this season is unusually good, although the early winter drought killed off a large percentage of flocks. Hanson Brothers, of Show Low, were among the heavy losers, having lost \$10,000 worth of sheep by death and strays.—Arizona Republican. Big Sheep Shearing.
