A very pleasant surprise was tendered Mr. and Mrs. Henry Boyer at their residence in Upper Lehigh on Thursday evening by a large party composed of young people from Freeland and Upper Lehigh. The party was held in honor of the estimable lady's fifty-first birthday, and was one of the most enjoyable social events of the season. All kinds of eatables and refreshments were there in abundance and were served during the evening. The amusements consisted chiefly of vocal and instrumental music, and were kept up until an early hour, when the guests left for their homes, wishing the respected lady a continuance of the event for many years hence. Surprise Party.

WONDERFUL FASTING.

WONDERFUL FASTING.

A Lehigh County Woman Has Not Eaten for 993 Days.

The history of Lehigh county's great faster, Mrs. Adam Wuchler, of Whitehall, has often been told in the newspapers. Commencing to-day she will complete 993 days without touching a morsel of food. A reporter who visited her found the old lady propped up in bed. Her eyes are bandaged with a white cloth which makes her black hair appear still darker by contrast. She says she cannot see at all. She is excedingly attenuated, but her strength of mind is remarkable. Her voice is firm, and the subject of her conversation was entirely of a religious nature. "God knows how I have suffered and and He alone is my judge," she said. "I pray for relief, but fear it will only come by death; how soon I cannot say."

Mr. Wuchler and his sons are no longer constantly at the house, as they were for two years, and now pursue their daily labors. Mrs. Wuchler is nursed by her daughter, Sarah. The neighbors have long ago ceased to place any confidence in the story of the fast, and laugh at it, but there are many who believe it to be true.

### Almost Drowned.

Almost Drowned.

What came nearly being another drowning accident occurred at the Honeyhole yesterday. Four young men who refused to give their, names, and who were under the influence of liquor, engaged a boat, and when at a point on the creek known as Port O'Donnell, where the water is about ten feet deep, they began wrestling in the boat and capsized it. One of the party struck his head on the boat and was knocked senseless into the water, going down without a struggle. One of his companions, whe clung to the boat, went down after him and brought him to the surface; then, with the assistance of the capsized boat, made the shore. It required fully fifteen minutes work before his companions brought him to consciousness.

### Scranton for Congress

Scranton for Congress.

The Republican congressional primaries of Lackawanna county were held Saturday evening, ane the result shows that Joe Scranton will be the nominee. This, however, was made certain on Friday by the voluntary withdrawl of E. P. Kingsbury, upon whom the opposition to Scranton had crystalized. The Tribune, William Connell's paper, serves notice to the Republican party that it will fight Scranton until the polls are closed on election day if he is nominated. Connell is jealous because he will not be nominated, but he is very influential and can have Scranton defeated and a Democrat elected.

### Caused a Wreck.

A peculiar accident occurred on the Lehigh Valley Railroad at South Wilkes-Barre. Willie Dugan, a little boy, attempted to cross the track in front of a coal train going at a good rate of speed, but was struck by the engine, thrown under the wheels, and his left leg and right foot was cut off. As the engine struck the boy the engineer put on the brakes, and the sudden shock caused the axle on one of the loaded cars to break and in a minute twenty-five cars were piled in a wreck as high as a small house. None of the trainmen were hurt.

The Cuban Giants drew over 750 people to the park yesterday afternoon, and
for a few innings they were treated to

the game progressed every far the colored
gentlemen demonstrated their superiority, and after the fifth they played just
as they pleased. White went in the box
in the first inning, and Freeland opened
old-time style, making three hits and
afthree runs. The Giants did the same,
and then Stovey took White's place untill a good lead was obtained. Kitson, or
granton, threw five innings for Free
land, and he was replaced by Mayer, or
Hazleton. The change was not of any
great benefit, however, as the Giants
seemed to have a grudge against the
ball and kept pounding it every inning
until they were tired. The Freeland
players did good work in the field, but a
few costly errors on the diamond and
some misplays let in several runs.

Seven different clubs were represented in Freeland uniforms yesterday. Players from Scranton, Wilkes-Barre, Hazleton, Jeanesville, Freeland, Tigers and Fearnots composed the nine, but as few of them played together before there was very little team work done.

The Eckley Terrors play at Yorktown on Saturday afternoon. This will be the fourth game between these clubs this season, the Terrors having won two.

Jeaneswille club will take a trip for a week during August, and will play several clubs in and near Philadelphia.

Freeland has eight lost and three won.

The Fearnots, of Drifton, and the Soapies, of South Heberton, played an eleven-inning game at the Drifton park yesterday aftenoon. The contest abounded with fine plays and the teams did some great playing. The Fearnots won by a score of 10 to 9. A number of Tigers were on both sides.

### Troops Called Out.

Governor Pattison last night called the entire National Guard of Pen Governor Fattson last night called on the entire National Guard of Pennsylvania, and gave instructions to have it proceed immediately to Homestead, the scene of the great iron strike. It is not known how the strikers will act when confronted by soldiers, but many predict they will resist everybody who tries to bring imported workmen to the mills. It is certain much blood will be shed before the men give in. The Guard numbers 7270 officers and men, and all will be at Homestead to-morrow. What a spectacle to see in the very heart of "protected" America, where, according to the Republicans, all workingmen are "happy and contented!" God bless the tariff!

Chopped Off a Finger.

Two small boys, children of Edward Jacobs and Daniel Mulreany, of Ridge street, while playing in the yard on Saturday attempted to cut a stick. Whill the Mulreany boy held it on a block young Jacobs raised a hatchet, but before having it to its desired height he accidentally released his hold, and in descending the axe fell on young Mulreany's little finger, completely severing it from the hand. Doctor Murray was immediately called and sewed the finger on, which, it is believed will grow into place again.

### Doubly Welcome.

spacession of the borough authorities until recently it may be said the borough had control of it from the time it was donated. When Mr. Coxe so generously gave this piece of ground to the people of Freeland, he never meant that it should lie in its natural condition, or he would probably have kept it himself. It was given to the people to improve, to use to the best advantage for their welfare and not to lie a waste, barren place where no one will go, unless attracted there by the sounds of a brass band or the orchestra of a Saturday night picnic.

We call it a park, but it has not the least-semblance of one, and to the people he who reside in that immediate vicinity, it is nothing but a bedlam. On entering it persons are liable to injure themselves by falling into a large gutters that runs the entire length of it. Stumps, roots, old logs and stones are there nearly the same as nature left them, and no effort is made to have them removed. All interest in it seems to be lost when it should be the pride of the town.

The majority of our people, it appears, who talk this subject over, are unwilling to go into print lest they offend the firemen, who seems to have charge of the grounds. It is not my intention to injure or offend the firemen in any way, because their services should be apprepotent of the council, or the people as a whole, might be prevailed upon to have it improved and used for the benefit of the public.

The funds of the firemen will hardly allow an ontapy of \$500 or \$1000 to have the grounds properly fixed up, and even if their funds would allow it, they are not the proper parties to have charge of it, because, as the park is public property, it should be controlled by men who are elected to serve the public.

The was defined to the matter, and the same price of the town.

might be prevailed upon to have it improved and used for the benefit of the public.

The funds of the firemen will hardly allow an outlay of \$500 or \$1000 to have the grounds properly fixed up, and even if their funds would allow it, they are not the proper parties to have charge of it, because, as the park is public property, it should be controlled by men who are elected to serve the public. While the firemen are in a measure public servants (voluntary), the great value of their services should not be underestimated, for what they have already done has been done well and justly appreciated by the public. When we ask the firemen to sacrifice themselves to protect our lives and property it is enough, without obliging them to eke out an existence by charging the public \$10 for the use of that which belongs to all. This complication of affairs will work injury to the best interests of the town, unless the matter is speedily settled at once and for all time. The object of having a park is not for the sole purpose of holding moonlight pienies, as this one is used for. It should be improved by having seats, walks, water faucets, a band and dancing pavillion placed in it, and any other thing that would add to the comfort of our people who work in the mines or in the business places of town. Women who have to attend to their household duties, religious bodies who hold services out of doors, etc., would all find it a pleasant place to enjoy a few hours' rest after a hard day's toll. A park of this description is what the public demands, but whether its wishes will be satisfied is a question to be answered by those who have been elected to serve the people and comply with their demands.
