THE NEWS OF CONGRESS.

Proceedings of the Senate and House at Washington.

WASHINGTON, July 14.—July 18 will be regarded hereafter by the free silver men as a unlucky date, and they say many Democrats who will long remember the fate of the silver bill. While the fight had been practically conceded to the antisilver men for several days, yet it needed a final vote to settle the question.

After the regular order Mr. Catchings, of Mississippi, and the resolution from the committee on rules setting apart today for the consideration of the silver bill.

Mr. Catchings then demanded the previous question on the resolution. This was ordered—yeas, 163; nays, 129. The crucial test came on its passage, and this was defeated, carrying the silver bill into its grave by a vote of yeas, 130; nays, 154.

The senate finally disposed of the Chicago exposition provisions of the sundry civil bill. Mr. Quay's amendment to close the exposition on the "first day of the week, commonly called Sunday," was adopted without a division, after a motion to table it had been defeated by a vote of 4 to 1. A further amendment by Mr. Peffer to prohibit the sale of all intoxicants in the exposition grounds except for "medical, mechanical or scientific purposes" was adopted by a narrow majority of two. With these contentions attached the senate voted to issue to the World's Fair managers 10,000,000 souvenir silver half dollars.

WASHINGTON, July 15.—After six days' hard work the senate completed the consideration of the sundry civil bill and sent it over to the house with three or four hundred amendments, increasing the aggregate appropriation more than \$5,000,000, irrespective of the \$5,000,000 World's fair souvenir half dollar scheme. The clause prohibiting the sale of intoxicating drinks on the fair grounds was reconsidered and defeated, but the Sunday closing proviso was left in the bill.

The house devoted its time to conference reports on appropriation bills, the legislative, naval, diplomatic and consular bills being agreed to.

WASHINGTON, July 16.—The consideration of the sundry civil bill occupied the attention of the house, the World's fair appropriation of \$5,000,000 being the item under discussion. Dr. Durbin, of Illinois; Mr. Pendleton, of West Virginia, and Mr. A. Taylor, of Illinois, made brief speeches in support of the proposition. Mr. McCreary, of Kentucky; Mr. Little, of New York, and Mr. Wheeler, of Alabama, opposed it. It was agreed that a vote should be taken on the bill at 12 o'clock on Tuesday next.

The senate adopted final conference reports on the army, navy and legislative executive and judicial appropriation bills, and assisted to a house resolution extending existing appropriations for objects not yet acted upon until July 30. It also passed the fortifications bill with amendments.

WASHINGTON, July 19.—The senate having completed the deficiency bill, the last of the appropriation measures, and having sent it over to the house for a conference, however, will come up again as unfinished business at 2 o'clock today.

The house will go to the floor all day, and considering the number of roll calls, which consumed much time, an unusually large number of measures were disposed of.

WASHINGTON, July 20.—If the people of the United States are in favor of a World's fair to the extent of giving the exposition an appropriation of \$5,000,000 they have not expressed their views through their representatives in congress. The advocates of this appropriation had hard sailing in the house, and the result of the day's work may be summed up as follows:

The appropriation item was voted down—110 to 123—and the Sunday closing paragraph inserted by the senate was sustained by a vote of 147 to 61. The appropriations as made by the senate for the geological survey were concurred in. An amendment was inserted forbidding the letting of any contract by any government officer to any one employing the Pinkerton detective agency or other organizations employing all over the country that have been in New York for a long time, and it seems to be no talk of any one but Harry Campbell, chairman of the national committee. No other name has even been suggested.

Grover Cleveland, General A. E. Stevenson, General Ewing and Private Secretary O'Brien and some half dozen newspaper men of the party arrived here this morning from Buzzard's Bay via the Fall River line steamer Pilgrim. After an enthusiastic reception Messrs. Cleveland, Stevenson, Ewing and O'Brien were driven to their hotel and refused to be interviewed.

Mrs. Cleveland left Buzzard's Bay on her yacht Onida and will join her husband here. The Cleverlands will undoubtedly return to Buzzard's Bay after the duties of meeting the committee are concluded.

CARTER IS CHAIRMAN

M'COMAS MAY BE SECRETARY OF THE REPUBLICAN COMMITTEE.

Chris Magee Says That He Cannot Accept the Position, and It Will Likely Go to the Man from Maryland—Stevenson Visits Cleveland at Buzzard's Bay.

NEW YORK, July 18.—Mr. Whitelaw Reid and the leaders of the Republican party in this city are enthusiastic over the unanimous election of Thomas H. Carter, commissioner of the general land office, as chairman of the national Republican committee. The nomination of Mr. Carter was made by General J. S. Clarkson and seconded by Mr. Payne.

Mr. J. F. Burke, of Pittsburg, was appointed secretary pro tem. It was agreed that the appointment of the permanent secretary be left to the discretion of the chair.

The chairman was authorized to appoint a subcommittee of five, to be selected from Republicans and members of the committee, to act as an advisory committee to the national executive committee. A committee of five will be appointed by the chairman to secure headquarters in this city.

It was also unanimously agreed to continue Mr. Campbell as a member of the executive committee. Mr. Campbell will take charge of the branch headquarters at Chicago.

Mr. Carter is but thirty-eight years of age, having been born in June Furnace, Scioto county, O., in 1854. In 1880 he moved to Pana, Ill., where he lived until 1875, when he moved to Burlington, Ia. He studied law in Louisville and Illinois, being admitted to the bar in Nebraska. In 1883 he moved to Helena, Mont., which is now his home. He was elected territorial delegate to the Fifty-first congress as its first representative. He was re-nominated in 1890, but was defeated. In March, 1891, he was appointed by President Harrison as United States land commissioner.

Mr. Carter was one of the five men originally suggested by President Harrison for the office of chairman when the national committee held its first session in Washington three weeks ago. His name was withdrawn from the consideration of the committee for two reasons. He had arrived in Washington from Montana, whither he went immediately after the Minneapolis convention, only a few hours before the committee met, and he had not given his consent to be elected chairman without an opportunity to consider the matter fully.

M'Comas May Be Secretary. When Mr. Carter was asked if the acceptance of the chairmanship entailed the resignation of his position in the land office he replied, "I shall resign at all events."

Chris L. Magee, of Pennsylvania, who has been prominently mentioned as the successor to Thomas H. Carter as secretary to the Republican national committee, is at the Fifth Avenue hotel. He states that he is not in a position to accept the secretaryship. The probable choice of the chairman will be L. E. M'Comas, of Maryland.

CLEVELAND IN NEW YORK. He Is to Be Publicly Notified of His Nomination. NEW YORK, July 20.—The establishment of headquarters of the Democratic national committee at the Fifth Avenue hotel, the meeting of the national committee and the near approach of the great notification meeting have brought together the greatest number of prominent Democrats from all over the country that have been in New York for a long time, and it seems to be no talk of any one but Harry Campbell, chairman of the national committee. No other name has even been suggested.

Grover Cleveland, General A. E. Stevenson, General Ewing and Private Secretary O'Brien and some half dozen newspaper men of the party arrived here this morning from Buzzard's Bay via the Fall River line steamer Pilgrim. After an enthusiastic reception Messrs. Cleveland, Stevenson, Ewing and O'Brien were driven to their hotel and refused to be interviewed.

Mrs. Blaine came back here as quietly as she went away. The trip abroad was taken principally in search of health, and its results have proven very satisfactory.

Tuttle Says It Is Bosh. NEW HAVEN, July 20.—Vice President Tuttle, of the New York, New Haven and Hartford railroad, when interviewed as to the use of electricity as a motive on its lines between New York and New Haven, as outlined in an article in the Worcester Gazette, said: "Bosh! It's nothing but romance."

THE ENGLISH ELECTIONS.

Gladstone's Majority in the Commons Is Now Forty-two.

LONDON, July 20.—There have now been elected 607 members of the house of commons out of the 670 composing that body. With the result of the North Kerry election, the polling in Tipperary, which took place yesterday, and the polling in the Orkney Islands, which takes place next week, the contest will be over.

The parties now stand: Conservatives, 314; opposition, 283. The three remaining districts are certain to return supporters of Mr. Gladstone, so the latter's majority in the next house will be 42.

At the Liberal headquarters in London some credit is placed in the report that the Conservatives rely upon certain Parnellites, whom they assisted with money in the elections, to move an amendment to Mr. Gladstone's "no confidence" motion. The Parnellites indignantly repudiate the report, and point to the recent declaration of John Redmond to the effect that the first duty of all Home Rulers is to combine to oust Lord Salisbury. The Liberals reply that John Redmond has not the whiphand of his faction and can only speak for himself.

The final returns of the elections are rather disappointing to the Liberal party, had hoped, until last evening, to glean sufficient gains to make their majority 48.

A Terrible Volcanic Disaster Reported from the Philippine Islands. SYDNEY, July 18.—Rumors have reached here from Timor that there has been a volcanic eruption on the Island of Sangur, one of the Philippine group, and that most of the inhabitants have been killed. A native from the island, who landed at Singapore four weeks ago, brought a remarkable story to the effect that several other natives had just returned from a voyage near Sangir. They had intended to land on the island, but were prevented by the sight of mountains belching forth smoke and fire.

They reported that the "whole island was on fire." The water along the coast was full, they said, of half burned wreck, pieces of houses and charred bodies. The whole population, estimated at about 12,000, seemed to have been swept into the sea or burned, as not a living soul was to be seen. Streets of lava were still flowing toward the shore, showing that the activity of the volcanoes had not abated.

CHILI PAYS THE INDEMNITY. Seventy-five Thousand Dollars for the Baltimore's Dead and Wounded. WASHINGTON, July 20.—Secretary of State Foster has announced that an entirely cordial and mutually satisfactory settlement has been reached between the government of the United States and Chili respecting the indemnity to be paid by the latter on account of the deaths and the crew of the Baltimore at Valparaiso on Oct. 16 of last year.

Under date of the 13th inst. Senor Errazuriz addressed Mr. Egan a note placing at the disposal of the latter the sum of \$75,000 in gold, asking him to cause it to be distributed among the families of the two seamen who lost their lives and to the surviving members of the crew wounded in the affair of Oct. 16.
