State's Public Schools. The department of public intruction has furnished statistics relating to the public schools of Pennsylvania for the school year ending June 6, 1892. Ac-cording to this report there are in Pennsylvania 33,436 schools. There are 25,339 teachers on the pay-roll, of which 8162 are males and 17,177 females. The average salary paid the male teachers is \$42.15 per month and the female teachers \$31.41 per month. The pupils in these schools numbered 977,428 and the total cost of tution, building, fuel and contingencies was \$14,329,140.46. These figures in comparison with the figures of the proceeding year ending June 1,1891, show a steady increase in the number of schools, scholars and teachers. The report shows an increase in the number of schools of 5522, and in the number of pupils of 8022. A peculiar part of this report is that in the last school year the number of male teachers of 423.
