THE SPRING ELECTION.

METHOD OF CONDUCTING IT UNDER THE NEW BALLOT LAW.

How Borough and Township Nominations Must be Made—Citizens' Tickets Come Under the Head of Nomination Papers—Extract from the Law on the Subject.

This paper has from time to time given brief interpretations of the new ballot law, but the information in the following article, however, is more complete, and will be found very useful to those whose duty it will be to put the new ballot law into operation for the spring or February election and to all voters. The facts are gleaned from a very careful reading of everything in the law that pertains to borough and township elections.

The language of the law, it seems, contemplates nominations in each election district by the two dominant parties at primary meetings or caucuses. Certificates of such nominations must be made out and signed by the presiding officer and the secretary or secretaries of such primary meeting or caucuses, and shall be sworn or affirmed to by them before an officer qualified to administer oaths, to be true to the best of their knowledge and belief.

Nominations may also be made by what is termed "nomination papers." It often transpires that no party nominations are made for the spring election, but "Citizens'" tickets are voted. Such tickets will come under the head of "nomination papers," and are regulated as follows in section 3:

"Nominations of candidates for any public office may also be made by nomination papers, signed by qualified electors * * * of the election district for which the nominations are made * * *. The signers shall number at least three per centum of the largest entire vote for any officer elected at the last preceding election in the election district for which said nomination papers are designed to be made. * * * Each signer shall add to his signature his place of residence and occupation, and the signatures must be verified for by the affidavits of at least five of the signers."

Independent candidates are not debarred, but to have their names printed on the ballot they must come under the same regulation that governs nomination papers. In other words, the independent candidate must procure signers to his nomination. Certificates of nomination and of nomination papers for township and borough offices shall be filed with the auditors of the respective townships or boroughs for which they are made.

Certificates of nomination shall be filed ten days before the day of election and certificates of nomination papers shall be filed seven days before the day of election. All such certificates shall be open to public inspection and shall be preserved in the office in which they are filed for a period of at least two years.

Objections to certificates or to papers, as to conformity or nonconformity to law, shall be heard and determined by the auditors or by a majority of them. Such objections must be in writing and filed with the auditors within three days after the last day for the filing of such certificates and papers.

Objections to the validity of certificates and papers other than the objections as to form shall be filed with the prothonotary, and the court, or any judge thereof, shall immediately upon notification proceed to hear such objections.

Any person whose name has been presented as a candidate at a caucus or whose name to be withdrawn from nomination by request in writing, and a committee appointed by the primary meeting or caucus making the original nomination shall have the power to place on the ticket a substitute for the name withdrawn, the manner of so doing subject to the same regulation that governed the original nomination.

In case of a substitute nomination paper, not filed by a committee but signed by citizens, then it shall only be necessary that two-thirds of the signers of the substituted nomination shall have been signers of the original paper.

In case a substitute nomination is transmitted to the township or borough auditors after the ballots have been printed the said auditors shall prepare and distribute with the ballots suitable slips of paper (stickers) bearing the title of the office, which shall be offered to each voter with the regular ballot and may be affixed thereto.

The county commissioners and auditors shall certify the cost of printing and shall be responsible for the accurate printing of the ballots, and for the safe keeping of the same while in their possession or that of their subordinates or agents.

The auditors shall cause the ballots to be printed and to be distributed to the proper election board, and they shall certify the cost of printing and the cost of distribution to the county commissioners for payment as part of the county elect on expense.

The form of the ballot for township or borough elections is in every respect similar to the form used at the last November election, excepting that the ballot will begin with the names belonging to the political party which polled the highest number of votes at the last preceding election.

As to size, section 15 provides that all the ballots used at the same voting place at any election shall be alike and be at least six inches long and four inches wide. They shall be printed with the same kind or kinds of type, which shall not be smaller than the size known as brevier, on white paper, without any impression or mark to distinguish one from another.

Each ballot shall be attached to a stub and all the ballots for the same voting place shall be bound together in convenient numbers in books in such a manner that each ballot may be detached and removed separately.

The auditors shall provide for each election district seventy-five ballots for

every fifty and fraction of fifty voters on the assessors' list, and an equal number of specimen ballots, and shall obtain from the county commissioners the requisite cards of instructions, which shall be delivered with the ballots to the judges of election the day before the day of election.

Found Dead on the Road.

While on his way to St. Ann's church yesterday morning Peter W. Amon, of Upper Lehigh, discovered the body of John Morgan, of Freeland, lying in the middle of the road that leads from Drifton to Butler Valley, about 200 yards from the church. An examination proved that the man was dead, and Mr. Amon, upon arriving at the church, notified several parties of his discovery.

Deputy Coroner Buckley was sent for and after having the body removed to H. M. Brislin's undertaking establishment a complete examination of the corpse was made. No marks of violence or any other indication of foul play could be found, and the coroner decided there was no necessity for holding an inquest.

Up to the time of its removal the body was quite warm, and it is not likely that he was frozen to death, as the snow underneath was melted clear to the ground by the heat of the body. It is presumed he died of nervous prostration, brought on by alcoholism, as he had been drinking heavily for a few days past.

Morgan had been employed as a shoemaker by Geo. Chestnut for some time, and also boarded with the latter gentleman. He was seen around town about 6 p. m. the previous day, and no one knows how he came to wander in the direction of the spot where he was found.

The deceased was aged about 55 years, and had worked as a shoemaker here for several years. He was a step-father of Charles Evans, of Hazleton; Mrs. Jos. Evans, of Beaver; George F. Sheaman, Wm. J. Evans, of Clayton, Wisconatin. The funeral will take place tomorrow afternoon, but up to this morning his relatives had not decided whether the interment would be made at Freeland or Hazleton.

Officers Elected.

The Young Men's T. A. B. Society elected the following officers yesterday. President—D. J. Boyle. Vice president—E. J. Doggett. Treasurer—Hugh Malloy.

Financial secretary—Chas. O'Donnell. Assistant financial secretary—Condy Johnson. Messenger—Wm. Brogan. Sergeant-at-arms—Patrick Ferry.

Trustees—John D. Herron, Jas. North, Stewart, Jas. Burns, Upper Lehigh; E. J. Doggett, South Lehigh; Patrick McGeehan, Patrick Hanlon, Ed. Kehoe, Freeland; J. J. McNelis, Drifton.

The following officers were elected at the last meeting of Freeland Council, No. 348, Jr. O. U. A. M.: Conclor—Christ Miller. Vice conclor—Evan Paul. Secretary—Michael Nagle. Asst. secretary—Alfred Cunnius. Financial secretary—Oscar Cunnius. Treasurer—A. W. Washburn. Conductor—Philip Paul.

Inside sentinel—George F. Sheaman. Outside sentinel—Fred. Sipple. Junior past conclor—John R. Boyd. Trustee—John Pettit. Delegate to F. B. Asso.—Christ Miller.

Poor Conventions.
The Democratic poor convention, to nominate candidates for director and auditor, will be held in Concordia Hall, Hazleton, tomorrow afternoon.

The Republican convention will be held at Union Hall, Hazleton, on Wednesday afternoon.

Delegate elections for both parties were to be held in each district Saturday evening, but the voters took little interest in the matter and very few elections were held.

Freeland has two candidates for the nomination of director, Jos. P. McDonald on the Democratic side, and Thomas Elliott on the Republican. So far as is known Mr. McDonald has no opposition, but Mr. Elliott has for an opponent A. S. Monroe, of Hazleton, the present director.

It is stated this morning that Mr. Elliott has withdrawn from the contest, thereby giving Mr. Monroe a clear field on Wednesday.

Another Priest at St. Ann's.

Owing to the continued ill-health of Rev. M. J. Fallibe, pastor of St. Ann's church, Bishop O'Hara has sent Rev. David Dunn to assist Father McNally until the pastor is able again to assume the duties of his position.

Rev. David Dunn arrived on Saturday from Hyde Park, where he had been stationed since his ordination a year ago. He read high mass at St. Ann's yesterday morning.

UNION HALL, HAZLETON.

DRIFTON ITEMS.

The works are idle here today so that the employees may observe New Year. The employes of Kudlick has been confined to his home for several days on account of sickness.

Jerry McCarty is visiting among friends in Allentown.

William Argust, a former resident, but lately of Bristol, was in town last week doing business. He had the misfortune to lose an eye since he left here. The Fearnots Athletic Association made a fine gift to the managers of St. Ann's fair in the shape of a handsome lounge.

The skating pond was well patronized on Saturday by a large number of skaters from Freeland.

On one of the cold days last week an old man who worked outside here went into the boiler house to warm his hands. The next day he was notified from the office that he was discharged. To stop five minute to warm his hands cost him his job.

Frank Burns and wife visited Hazleton friends yesterday.

Miss Rebecca Coxie has gone to her Philadelphia residence for the remainder of the winter.

Mrs. E. B. Coxie is slowly recovering from her recent illness.

The students of the normal schools who are spending the holidays here will leave this week to resume their studies.

A rumor was current through town for several days past that Condy O'Donnell was to be promoted to the position of assistant mine foreman at No. 2 slope which has been vacant since William Iles was transferred to Oneida. Inquiry into the matter makes it appear as if the place will be left vacant as it is thought it is not necessary to have an assistant there at present.

D. S. & S., engine No. 3 jumped the track here on Saturday about 10 o'clock and it was 4 in the afternoon before it stood on the rails again. The breaker was thrown idle for a few hours on account of the accident.

It is said that "Steve," the genial coachman, made a queer mistake the morning Mr. Coxie's house was on fire. He took one of the horses over which he has charge and went on a gallop to the company stable for the hook and ladder wagon, but when he arrived there he found he had forgot to put harness on the horse.

JEDDO NEWS.

Miss Bridget Brislin, of Hazleton, was in town visiting friends last week.

William Boyle was among the numerous visitors here during the holidays.

Mr. and Mrs. Daniel McMullen, of Avoca, spent a few days here last week.

Robert Boyle, of Wilkes-Barre, has been here on a week's vacation.

John Kerrigan, of Mauch Chunk, spent yesterday here among friends.

The colliers are all idle here today on account of New Year.

Misses Katie and Maggie Harkins, of Philadelphia, were spending a few days here among relatives and friends.

"Graney" McNelis, who has been for some time in Philadelphia, is here among relatives and friends.

Anthony McNelis, who has been for some time in Wilkes-Barre, has secured employment and will remain with us again.

Who's your second choice? Is the question asked by the many politicians of the township who have struck the town lately, but as the delegates here are not of the second-class kind it is useless to try to commit them. In other matters, it is said, some of them have a second choice.

For some time past complaints have been made that several scamps, who are unknown, make it a business of using indecent language in the presence of ladies on the road between here and Drifton. People of this kind should receive the attention of the law without delay.

Large numbers of our young people attend St. Ann's fair during the evenings it is opened.

The proposed gymnasium here has been a failure. The boys could see no benefit to be derived from it.

List of Patents.

Patents granted to Pennsylvania inventors last week. Reported by C. A. Snow & Co., Washington, D. C.
O F Freeman, Drifton, method of and apparatus for making leaf springs; A L Avery, Bradford, injector-burner; J T Connelly, Milton, locomotive boiler; H Cook, Hyndman, washing machine; J P Derr, Greenville, car-coupling; J Dogan, Bristol, support for umbrellas on bicycles; J P Eirth, Pittsburg, weighing scale; C A Gleeker, Pittsburg, gate-operating device for elevators; J H Klinginger, Pittsburg, hose-bridge; W H Kochler, Bellefonte, napkin supporter; W R Macdonald, Allegheny, generator; W A McCool, Beaver Falls, duplex drilling machine; M J Reuber and E G Stone, Pittsburg, and F Fuchs, Lower St. Clair, condensing apparatus; J N Singer and G M Davis, Lancaster, permutation lock; G Thomas, Royersford, fence post; W J Wright, Cooperstown, stove jointing machine.

A Sewing Needle in Her Arm.

For several weeks past Mrs. William Jarvis, of Monnt Carmel, has been suffering from a strange pain in her arm. A physician was consulted and thought that a bone had been splintered, and that pieces of the broken bone were working out.

A few days ago a sharp point came through the skin, and with a pair of pliers it was extracted. It was found to be a common sewing needle, and Mrs. Jarvis has no idea how it got into her arm.—Pottsville Journal.

The Concert at White Haven.

On Saturday evening the P. O. S. of A. band gave another very creditable concert to a large audience at Smith's opera house, White Haven, and if the feeling of an audience can be judged by the applause which it gives, the concert was all that could be desired by the residents of that quiet little borough by the river.

Each number was well rendered and the solo playing by Prof. Mayberry, J. H. Troell and Alvin Doud, with band accompaniment, was well received. The special feature of the programme, a solo, "You'll Remember Me," by Master Morgan DeFoy, made a great hit and was encored several times.

Faas and Woodring, in their specialties of songs and witticisms, more than pleased the audience and brought forth liberal applause. The piano playing of Miss Goepfert and the cornet duet by Miss Cunnius and Master DeFoy was highly appreciated. The following is the programme played by the band:

March—"Crusader".....V. Moskan
Overture—"Night Wander".....V. Moskan
Cornet Solo—"For She Is".....A. P. Mayberry
Descriptive—"The Watermelon Club".....Farrar
Waltz—"District Camp".....A. P. Mayberry
Baritone Solo—"Tramp, Tramp".....Bartholomew
Overture—"New York by Electric Light".....
Tuba Solo—"Hoezohub".....V. Moskan
Solo—"The Watermelon Club".....Catozzi
Descriptive—"The Watermelon Club".....
Cornet Solo—"Chit Air Variet".....D. Dagnelies
March—"Chit Air Variet".....R. B. Hall

The Way Cyclones Turn.

The question is often asked, Why do cyclones, "whirlwinds" and tornadoes all persist in the polar whirl from right to left? Astronomical speculators have supposed that all the planets once existed as rings of thinly scattered matter around the sun, and that these rings were annular segregations from a vague, irregularly scattered mass that turned one way in spiral courses, thus determining the direction in which the rings revolved, and all the rest from this took the same course.

"But," you say, "why did the nebula revolve at all?" It grew from chaos, and chaos presumably possessed an inherent motion from right to left. This being the case, from that time to this, sun, moon, stars, planets, cyclones and tornadoes have adhered to the original habit.—St. Louis Republic.

A Wall Paper of Postage Stamps.

The little village of Berstedt, near Bognor, possesses a unique curiosity in the form of an inn room papered with postage stamps. The apartment is fancifully decorated with many descriptions of used stamps, and even the partitions of the room is similarly papered. Some five years were occupied in making the collection, which numbers some thousands of stamps. The room being completed in 1887 it was naturally given the name of the "Jubilee Stamproom." Indeed some members of the royal family interested in the collection are said to have added to it a number of stamps on their own account.—New York Recorder.

Are Scott and Dickens Obsolete?

Who reads Scott and Dickens now? To that question what is the true answer? The implied answer of course is that no one reads them or that their readers are getting yearly fewer. It may be said at once, and it may be said flatly, that it is not the case. They are not only still read by many people, but they are read by more people today than they ever were before. This fact is substantiated by the copies of their works that are sold; indeed it stares us in the face at every railway book store.

Scott and Dickens, if measured by the number of their readers, are growing in popularity, not declining. I should certainly say that, so far as my own observation can inform me, no two writers are more universally familiar at this moment than Scott and Dickens. The old have read them; the young are reading them, nor need any one doubt the fact because they are not discussed like novelties.—W. H. Mallock in Forum.

A Famous Expression.

"There's many a slip twixt the cup and the lip" is a very old saying, and was first uttered to the king of Samos, an island in the Grecian archipelago. This king, Ancrus, by name, planted a vineyard and treated the slaves who cultivated it so badly that one of them told him he would never live to taste the wine made from it. When the wine was ready and a cup of it poured out for the king he sent for the slave who had prophesied his death, and asked him what he thought of his prophecy now.

The slave replied, "There's many a slip twixt the cup and the lip," and just as he had spoken the words Ancrus received warning that a wild boar had broken into his vineyard and was ruining it. Putting down the wine untasted, he rushed out to attack the boar and was killed.—Harper's Young People.

Athletics and Corsets.

Miss Homans, the head of the Normal School of Gymnastics in Boston, gives in a recent interview these statistics concerning the influence of athletics upon dress. "Two years ago," she says, "out of a class of thirty-seven there were but two of the young women at the end of the school year who continued to wear corsets, and no one continued to wear French heels. Last year out of a class of seventy-one seven-eighths gave up wearing corsets."
