FOR THE RIGHT OF WAY

BOTH COMPANIES APPEAR BEFORE FREELAND COUNCIL.

A Spirited Fight Is Going On to Captur Streets Unless It Will Benefit the Town.

The special meeting of the borough council to consider the applications for the right of way through the streets from the two electric railway companies was held on Monday evening. After accepting the applications the member decided to allow the representatives of the different companies the privilege of making verbal explanations, in addition to their applications, in order that the matter would be thoroughly understood. Harry E. Sweeney, of Drifton, for the Union Passenger Company, said the men whom he represents had much experience in building street railways. He would guarantee that work would be commenced as soon as possible after the council grants the right of way. It was true the company had no charter yet, as they did not feel disposed to spend money in that way until they were sure they would get permission to build the road through Freeland. They would not ask for two years to complete it, but would pash it ahead at once and do all they could to bring trade to Freeland, not to take it away. He repeated the statement made at a former meeting that the company would also operate an electric light plant here.

Alvin Markie, of Hazleton, represented the Hazleton and North Side Company, and said they intended to build a road from Piessant Hill to Upper Lehigh. The company was chartered last September under an act of 1889, which gives them the right of way through Hazle and Foster townships and on Centre. Walnut, Pine and Johnson streets in Freeland. He said the council could grant to another company the privileges asked, but that company could not get a charter from the state to operate it.

Mr. Markie further stated that the road would not come under control of any railroad company while he was interested in it. The North Side Company, he said, was owned solely by himself. Others were named as members of it in the charter, but the entire capital was furnished by him, and he would have it in operation within the time specified (two years) in the application, and would give bonds to that effect. He would al

Writer Makes a Few Remarks About the Power of Supervisors.

The Fower of Supervisors.

Freeland, Pa., Jan. 18, 1893.

EDITOR TRIBUKE.—Will you, or any learned lawyer of Freeland or Hazleton, inform and acquaint the citizens of the law that invests the supervisors with power to grant the right of way to any company or corporation to build any kind of a railway through the streets, independant of even consulting the wishes and desire of the citizens of the towns through which the road is to go? If there is no law granting them the power, truly they have overstepped their mark, and should be called to account for the act.

[An act approved May 14, 1889, by Governor Beaver, gives to the "local

mark, and should be called to account for the act. CITZEN.
[An act approyed May 14, 1889, by Governor Beaver, gives to the "local authorities" of cities, boroughs and townships the privilege of giving such consent. Supervisors are the "local authorities" of townships, consequently their actions cannot be disputed. Citizens or taxpayers need not be consulted by them in such matters. In their districts they possess the same power as borough or city councils do in boroughs or cities. It is a poor law to say the least, but is only one of the many hundreds that are passed and approved at every session giving corporations unlimited power as soon as the consent of one or two men is obtained.

Better Mail Facilities.

Since Monday all mail for Wilkes-Barre and the north, heretofore sent on the 9.45 train, has been sent on the 11.53, reaching Wilkes-Barre and all points north at the same hour as formerly and giving our citizens two hours and a half more time in which to get off their mail for these points.

Returning it will arrive here at 3 o'clock, via Highland, instead of 5:29 by way of Penn Haven. This also gives a better service to the people of Freeland, Highland, Drifton, Jeddo and Sandy Run.—Standard.

On Saturday evening the Highland road was the scene of another cowardly robbery. The victim this time was Arthur Ross, a quiet and peaceable citizen, who in company with his wife were returning to their home from Freeland about 9.30 o'clock. When they had reached the railroad bridge which cross set the highway a short distance out of second process.
