Landscape Architects.

The editor of The Century believes that the Columbian fair will do more than anything else could to convince the American mind of the great need of trained landscape gardeners in this country. The necessary connection of the landscape gardener with the architect has not impressed our people heretofore.

The feature which will strike the visitor in regard to the World's fair grounds and buildings is the beauty of the whole considered as one work of art. Buildings fit the grounds, and grounds fit the buildings. This was made a most important part of the planning of the great Columbian exposition.

The lack of landscape architects who can worthily co-operate with our artistic building architects is, however, a most serious one at present. There is richly paying employment for talented young men who are willing to take up the profession of landscape gardening. There are, however, almost no schools where a course of instruction in this department can be had.

The Homestead Law.

If you want to get a free farm from the United States public lands, the first thing to do will be to find out just where you want to go. Take not the word of any honey tongued railroad agent or agent of any kind, but find out for yourself by inquiries which will suggest themselves to you.

Any citizen or expectant citizen of the United States who is 21 years old and over may acquire a homestead—any person except a married woman, that is. In respect to getting a homestead, a wife is not a person in the eyes of the law.

You must honestly begin to cultivate the soil of your 160 acres and proceed to show that you intend it bona fide for your home. It is the surest way to settle down upon your farm and stick to it. Within three months of the time you have made settlement you must go to the nearest land office and file your claim, paying the land entry fee of \$5, \$10 or \$14, according to the amount of land you have entered.

While actual residence upon the claim is desirable it is not absolutely necessary. The homesteader may meantime live elsewhere, making trips to his homestead to cultivate it. But he must not be absent from it as long as six months at a time or he will be in danger of losing it.

A Boston paper recently contained an announcement that certain gentlemen had "filed a remonstrance to the proposed widening of Chestnut Hill avenue with the Brookline selectmen!"

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

A Fish Story From Sandy Hook.

Eels are cheap on Sandy Hook peninsula just now. On last Wednesday, after a terrific gale, old Johnnie Collins, a clam digger of Navesink Highlands, went down to the beach to see if any crabs had been washed up.

Scattered among them were young fresh water perch. The perch were dead, but the eels were very much alive. He went back to the village and told what he had found, and the villagers came down to the beach with baskets and boxes and barrels. After they had filled all their receptacles the beach was still covered with eels.

People are at a loss to understand how the eels and fish came to be on the beach. Both the perch and the silver eels are fresh water fish and abound in the Shrewsbury river. Never before have they been known to be found on the seabeach.—New York Sun.

Concerning Crinolines.

Concerning crinolines the following extract from the Dundee (Scotland) Advertiser, Jan. 5, 1709, has been unearthed: "Mr. Isaac Bickerstaffe, censor of Great Britain, sitting in the court of judicature, had crinoline brought in and hoisted by a pulley to the roof of the hall, where it formed a very splendid and ample canopy over our heads and covered the whole court of judicature with a kind of silken rotunda, in its form not unlike the cupola of St. Paul's."

The young lady who wore this hoop confessed that she did not like it, and that she kept out of it as long as she could and till she began to appear little in the eyes of all her acquaintances and said she would be very glad to see an example made of it. History does not go on to relate in what manner the hoop was censured, but the young lady, for her modesty and amiability and somewhat for her good looks, received great praise."

African Slave Caravans.

The English cruisers may have checked the slave trade on the eastern coast, but the caravan route from central Africa to the shores of the Mediterranean is still the scene of all the horrors of which Livingstone wrote. Mr. C. H. Allen, secretary of the Antislavery society, last summer reported that a caravan of 10,000 camels and 4,000 slaves left Timbuctoo for Morocco, and of this number 500 to 600 died of thirst in the desert. In another caravan it is stated that out of 800 slaves 600 died, and the survivors were worth little from the privation and hardships of the journey.

Keeping the Mouths of Oysters Closed.

If the plans of Messrs. Freeman, Hirst and Thurston, three gentlemen from the City of Brotherly Love who are now in Chicago, do not miscarry, the oyster business not only of Chicago, but of the United States, will be revolutionized. By a process invented by Mr. Freeman and controlled by these gentlemen it is possible to ship oysters in the shell to any part of the country with the certainty that upon their arrival at destination they will be as fresh and delicious in flavor as on the day they were shipped.

An Eight-hour Day In England.

The 8-hour day, which is the aspiration of organized labor in this country, is to be made the subject of a practical experiment in the great iron works of Salford, near Manchester. The effort is to be made to reconcile the economic objections which have been held to be irreconcilable. That is, the workmen, who have been laboring 53 hours a week, are to endeavor to turn out an equal product by the labor of 48 hours. If by punctuality, energy and increased activity they can show this to be possible, the experiment will be a success, their wages will remain as now, and the 8-hour day will be established.—Boston Commonwealth.

An Old Settler Begins to Travel.

It is hardly in the west one would look for white people unacquainted with railroads and telegraphs, but Parson Quinn, the oldest settler in Garfield county, Washington, who went there 33 years ago, saw a railroad and took a ride on a train two weeks ago for the first time in his life. He has not been out of the state since he entered it in a prairie schooner. Two or three similar cases have been noted in the northwest within the past few months.—Chicago Herald.

When the rising generation gets hard pressed for instances of early fame thrust upon the contemporary young man it always has the governor of Massachusetts to fall back upon.

with a gun for the rest of the year. And still the game men are the only ones who do this business. It should be stopped.

Miss Laura Tyson, of this place, and David Harris, of Mahanoy City, were united in marriage last week at the latter place. They were tendered a serenade by the Mahanoy City band before coming to Jeddo on Friday evening, and will be serenaded by the Freeland P. O. S. of A. band tomorrow evening. Mr. and Mrs. Harris will take up their residence in Mahanoy City.

UPPER LEHIGH NOTES.

The friends of Andrew Keenan, who has been in Bodie, California, for the past two years, were agreeably surprised to see him among us again on Saturday. "Pep," as he is familiarly known, looks exceedingly well, and his Western tour has not hurt his health any. He is accompanied by his sister-in-law, Mrs. Henry Keenan, also of Bodie.

Paul Dash, who attended the Odd Fellows' convention at Reading last week, reports the Berks county capital a fine town.

James Welsh, Jr., of Stockton, was the guest of his parents here yesterday.

Elmer Frause, of White Haven, was a visitor to this place last week. Elmer is quite a sprinter.

Hungarians are very scarce around here, especially those who work at strippings. The strippings are for the want of men.

Quite a large number of our people attended the entertainment at Freeland on Saturday evening. All seemed well pleased with it.

The employes of this place were paid on Saturday.

Manufactured only by THE OHIO CHEMICAL CO., 51, 53 & 55 Opera Block, LIMA, OHIO. PARTICULARS FREE. THE OHIO CHEMICAL CO.—GENTLEMEN:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars, or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it. B. M. JAYLORD, Leslie, Mich. THE OHIO CHEMICAL CO.—GENTLEMEN:—Some time ago I sent for a box of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured. Truly yours, MATHEW JOHNSON, P. O. Box 45, PITTSBURGH, PA. THE OHIO CHEMICAL CO.—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have written four months before writing you, in order to know the cure was permanent. Yours truly, MRS. HELEN MORRISON, CINCINNATI, OHIO. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part. W. L. LUTEGAY. Address all Orders to THE OHIO CHEMICAL CO., 51, 53 and 55 Opera Block, LIMA, OHIO.
