Advertising gives character and standing to a firm. Go into any community as entire stranger, pick up the papers published there, look for their largest advertisers and you can invariably depend upon the fact that you have found the most reliable and desirable firms in that community.

CANDIDATES NAMED.

Prohibitionists Are First to Nominate a County Ticket.

The Prohibitionists of this county met at Wilkes-Barre on Friday and nominated the following persons for the coming election:

Treasurer—Harry E. Coward, West Pittston.
Register—Robert E. Byle, Plymouth.
Commissioners—Edward Garis, Sandy Run; James E. Jenkins, Plymouth.
Auditors—H. F. Myers, Dorrance; I. H. Hale, Jackson.

Open air meetings will be held throughout the county during the summer months, and the candidates and their friends will make a hard fight to secure as many converts to their cause as possible.

Mr. Garis, one of the nominees for commissioner, is known in this part of the county as an active and earnest worker for prohibition, and he will likely receive many complimentary votes from his friends.

The state convention will be held at Harrisburg on Wednesday.

A Charity Ball.

Hazleton's aristocracy will hold a \$5-a-ticket ball on June 16 for the benefit of the miners' hospital at that place. Probably they think the state is not capable of supporting the poor unfortunates who have to go to that institution, or perhaps some of them want to pose before the public as charitable people. If they have anything to give the hospital let them present it in proper form, as other benevolent persons are doing, and not have it coming as the proceeds of a charity ball.

The ball, however, is to be a genuine bon-ton affair, with real patronesses and a committee whose members part their names in the middle. The common folks must not apply for admission; they will be given, when they get to the hospital, what is left after paying the expenses of the "dance."

Employees May Go to Roan.

Rumor has it that as soon as the dwelling houses now being erected at Roan are finished the employees of the D. S. & S. will be requested to occupy them. Although this has not yet been given out officially the men expect it, owing to remarks dropped by some officials.

They do not feel any way pleased over the change, as many have just commenced to settle down nicely and are loath to leave Drifton and this place. Freeland's business men will also feel the effects of their removal, if the rumor is correct.

Teachers' Examinations.

County Superintendent Harrison has selected the following places and dates to examine applicants for teachers' certificates:

Freeland, Monday, June 12, for Freeland, Foster and West Hazleton.

White Haven, Friday, July 12, for White Haven, Denison and Bear Creek.

Drums, Friday, August 4, for Butler and Sugarloaf.

Examinations will begin at 9 a. m. Applicants will enter the class in the districts where they apply for schools. Directors and patrons are invited to be present.

Slavonian Convention.

The National Slavonian Evangelical Society will hold its first annual convention in Zeman's hall, Freeland, this week. The convention opens today, and will continue in session during tomorrow and Wednesday. Delegates are expected to be present from Minnesota, Ohio, Illinois, Connecticut, New York, Pennsylvania and other states.

The local branch of the organization has completed all arrangements for the gathering, and as this will be the first convention some very important business will be transacted.

Stabbed the Officer.

An Italian named Gregory tried to kill Policemen Thomas Deegan at Pottsville. Gregory and a fellow-countryman were creating a nuisance and when Deegan tried to arrest them they resisted. Gregory drew a dirk six inches long and made several lunges at the officer.

One of them took effect in his head and an ugly wound was inflicted. The would-be murderer then fled and the officer gave pursuit. Gregory was finally caught and committed to jail.

BASE BALL.

A long and poorly-played game took place at Freeland park yesterday between Silver Brook and the Tigers.

The visitors came prepared to do their utmost to win the contest, and a few innings showed that the result would be in their favor, as they played steady and with a determination to secure a victory.

The local team put up a rather reckless game at the start, and allowed Silver Brook to score five runs in the first two innings. They played a fair uphill game after, but were unable to pass them at any time. Both were tied once at seven, and that was the nearest the Tigers got to winning the game, which ended 12 to 7 in favor of Silver Brook.

Boner and Boyle, of the Fearnots, were the battery for the home club.

The Cuban Giants play at Jeunesville on Wednesday afternoon. Neilson and Williams will be the battery for the colored team and Keener and Fairhurst for Jeunesville.

P. J. Boyle, of the Tigers, received a severe cut on the face while sliding into second base yesterday.

The Tigers expect to have Beaver Meadow as their opponents on the 11th.

Hazleton on Saturday won from Pottsville, 9 to 8, and yesterday from Shenandoah, 14 to 2.

Before the game yesterday a little excitement took place at the park. During the morning some parties who claim to be the directors of the Freeland club placed a lock on the park gate so as to prevent any playing there that afternoon, and as the parties who wished to use the grounds were refused the key or admission upon any conditions the gate was pushed in and the crowd admitted.

Inasmuch as no one has yet authority to lock up that park public sentiment was with the persons who opened it, and although there were rumors of trouble it is not likely anything serious will result.

HICKS' FORECAST.

June Weather as Predicted by the Famous St. Louis Professor.

Warmer weather will center in a progressive way, about the 6th and 7th, reaching a high temperature, and resulting in reactionary storms on and touching those dates. A cool spurt will follow about the 7th to 9th. About the 10th it will grow steadily warmer, resulting in many active storms from the 11th to the 14th.

The temperature and storms are apt to reach a crisis about the new moon. Renewed activity of volcanoes and earthquake disturbances may naturally be expected, though not necessarily dangerous. Our friends will remember the tendency of storms to whirl suddenly back from the east, from about the 10th to 25th of June.

Showery conditions are liable during all that period, and unexpectedly taking the starch from the collars of careless and unsheltered people. Storms will pass eastward about 17th to 19th. From the 11th to 25th inclusive we will start in for shorter days and longer nights. Look out for heavy electrical storms about the 23d, 24th and 25th.

The month will close with very cool weather advancing from the west, which will prevail in most parts in the opening days of July.

Keep Your Eyes Open.

A slick swindler is now operating in Northumberland county and he may come this way. His victims are chiefly hotel men. He has a new name for every town he strikes and works the following game: He will go to a hotel and claim that he has a carload of Western horses coming and then gets the notices printed, engages an auctioneer, secures stabling for his horses and makes arrangements for their sale.

Then on a pretext of lacking a little cash to pay the freight he will borrow all the money he can from the hotel men and horsemen, afterwards skipping to parts unknown, leaving printer, hotel etc., in the lurch. He is nearly six feet tall, wears glasses which cover one defective eye, has a short, dark beard, and is a good talker with a German accent.

Rewarded for His Heroism.

One day, eight years ago, G. G. Wilson, who lived in the upper part of this county, was standing on the Pennsylvania Railroad track in Harrisburg. He was very deaf. A locomotive was pushing down some cars on the track, and Wilson did not hear the danger signals the engineer sounded. In another second he would have been run down by the cars.

Herman Carson, of Harrisburg, was standing near and at the risk of his life seized Wilson and threw him out of the way of the impending danger. Wilson was a wealthy man. He gave Carson \$200 on the spot. He died a few days ago and willed Carson \$25,000.

Beats the World's Record.

A Scranton locomotive has beaten the world's record for speed. Engine No. 141, which was manufactured by the Dickson Company, covered the mile between Olyphant and Throop, on the Ontario and Western Railroad, in the extraordinary short space of time of 25 seconds, which means a speed of 144 miles an hour.

The officer of the New York, Ontario and Western are very much pleased over the performance of this new style of engine—the mogul. The boiler is a straight topped one, with the dome set well back, coming up through the cab far enough back not to interfere with the view of the engineer.

Resolutions of Condolence.

At a special meeting of Division 6, A. O. U. I., B. of E., of Freeland, held on June 3, 1893, the following resolutions were adopted:

Whereas, Our late friend and member of this society, Tague Ward, by the dispensation of an inscrutable Providence, has departed from amongst us, and

Whereas, The regard in which he was held by us prompts us to give expression to the feeling which his death is well calculated to excite,

Resolved, That our minds are filled with deep sorrow at the loss of our valued friend, whom we have for a long time been intimately connected with in various relations of life.

Resolved, That his scrupulous honesty and the correct principles which governed his actions made him a good citizen and a useful member of this society, and that his loss in this respect is deeply felt.

Resolved, That we sympathize most deeply with his stricken family, now overwhelmed with grief at the loss of a devoted husband and father, upon whose thoughtful care they have always safely relied, and whose study it was to do all in his power to make them comfortable and happy.

Resolved, That a copy of these resolutions, duly attested, be sent to the family of the deceased, and published in the TRIBUNE, and spread upon the minutes of this society.

FROM SUBURBAN POINTS.

LETTERS FROM THE PEOPLE OF NEIGHBORING TOWNS.

A Column of Notes From Our Correspondents in Drifton, Upper Lehigh and Jeddo—All That Has Occurred in These Places During the Last Few Days.

DRIFTON ITEMS.

Tague Ward, one of our esteemed citizens, died at his residence here of pneumonia on Thursday night at 12 o'clock, after an illness of but six days. The deceased was 34 years of age and leaves a wife and four children. The funeral took place yesterday afternoon at 2 o'clock, and was attended by St. Patrick's Beneficial Society and Division 6, A. O. U. I., of which he was a member.

Superintendent Kudlick and family left for a two weeks tour to the World's fair.

John Kovansky, a laborer in No. 2 slope, had a hand badly cut by an axe while at work on Thursday night.

A large addition is being built to the residence of Eckley B. Cox. It will be used partly as a library.

Thomas Brogan is lying very ill at his residence in No. 2.

Coal was hoisted out of No. 2 slope on Thursday for the first time since the fire. Today it will resume operations with full force again.

John Boyle will leave here this week for New York city, where he has secured employment.

Mrs. Brinton Cox and family leave today for a European tour.

The Smiths of Freeland and the Hustlers of this place played here yesterday, and the latter club won by a score of 17 to 6.

The people of town who are interested in base ball must not think the Fearnots are out of the game. After the picnic on the 17th inst. there will be lots of playing here.

Patrick Boyle and wife, and daughter Mary, of Constable Hook, N. J., were here yesterday.

A gang of men are at work boring on the hillsides, between No. 1 breaker and the Lehigh Valley depot, with a view of locating the large body of coal which is to be stripped in that vicinity. It is said that the work of stripping will be commenced in about six or eight weeks.

UPPER LEHIGH NOTES.

Four Poland iron policemen were arrested by a coal and iron policeman on Friday evening for stealing coal from No. 6 boiler house. BIRD.

JEDDO NEWS.

At last the base ball club members have decided to get the game going. Although they have many drawbacks to contend with, it will require only a few weeks before they are ready for action. The ground upon which the Scotch games of past years were held has been selected for the ball field and the boys will commence work immediately on it so as to have it in condition for July 4.

William Kishbach removed his family to Freeland last week.

Peter Gallagher, of Beaver Meadow, was here last week.

Patrick Mulhearn, of Silver Brook, moved his family to this place last week.

Since No. 2 Oakdale shut down quite a number of men are on the "night shift" here. Those who have been of-

fered employment under the company at the other collieries are slow about accepting it. But still, they are much better off than some others who have been suspended indefinitely and must go and find work elsewhere.

Dr. Kalb is off on a trip to the World's fair. He will remain there two weeks.

No. 1 Oakdale colliery is working twelve hours a day since N. 2 suspended work.

A. A. Ferry, at one time a resident of town, is visiting friends here. "Kid" looks well, so say the fair sex.
