FREELAND, PA., JUNE 12, 1893.

Overdoing Things.

No one of the recent commercial failures has a stronger lesson for men of unbounded enterprise than that of Erastus Wiman of New York city. For a number of years past Mr. Wiman was special representative of a prosperous commercial agency, and the connection gave him an income of \$25,000 a year, enough to satisfy ordinary ambition, and to earn which it would seem that 800 and odd working days are none too long. Nevertheless, Mr. Wiman for five or six years has been interested in a variety of enterprises, each of which was enough to tax one man's capacity for administrative work. One of them was a rapid transit steamboat and railway line from New York city across the bay and threading Staten Island, lines aggregating over 20 miles.

After making good progress a couple of years Mr. Wiman retired before the system was half complete, leaving the control and management to others. A second scheme was to thread the island with electrical railways, motive power to be furnished by a lighting and motor plant which has been under construction over a year. Another enterprise has been the erection of homes for the middle classes, to be sold on instalments, with a life insurance policy to secure the payment and to secure the family of the purchaser in case of death. As a preparation for this enterprise Mr. Wiman secured the title to about 1,000 acres of farm land accessible and suitable for the purpose. Incidentally he has advocated and devised plans to carry out a building and loan association with the insurance feature attached to the loans. A racing association on the beach at Staten Island is another project to which Mr. Wiman has given some attention.

All of these projects are feasible and in line with public needs, and Mr. Wiman's intimate business associates declare that if he had devoted himself to any one of them exclusively he might have made a fortune for himself and created a public benefit as well. But aside from inability to attend to so many irons at once Mr. Wiman had insufficient capital at the start, although he was fortunate in possessing good credit. With ineptive enterprises resting upon foundations liable to be shaken in every financial flurry, the final outcome might have been looked for. And along with Mr. Wiman tumble the schemes. All of them feasible and reputable in themselves, they must carry the stigma of having broken an enterprising man and wait a long time for new investors.

Meanwhile the people who stand in need of the improvements must be the chief sufferers. Does that sort of a mania for doing things pay?

Of Interest to Whist Players.

The whist players of America are greatly interested because of the presence on this side of the water of Henry Jones, the Englishman who writes on this page game of cards over the signature of Cavendish. Mr. Jones is here for the purpose of taking part in the whist congress that is to be held in Chicago, and he is in great demand wherever he goes. Whist players and newspaper men beseech him for interviews, the first class for the purpose of having knotty points of play settled by his autocratic tips, and the second for copy that may be sold for shekels. The players are delighted because the great British expert says the "American lead" has been adopted by progressive English players, and the reporters occasionally secure enough of his time to enable the making of a salable story.

It should be understood by the public that the whist congress is in no sense a part of or held under the auspices of the officers of the World's fair. It is an annual gathering of whist players, who decided to meet in Chicago this year possibly because the fair is held there, but its arrangements are entirely in their hands and have been made independently of the Columbian exposition's commissioners.

FROM SUBURBAN POINTS.

LETTERS FROM THE PEOPLE OF NEIGHBORING TOWNS.

Drifton's Usual Budget of News and Notes Put Up in Readable Shape—Fire at Jeddo on Saturday and a Narrow Escape of Ninety Kegs of Powder.

Special and regular correspondence from the surrounding towns is solicited by the TRIBUNE. Communications or items intended for publication must be accompanied by the name of the writer.

DRIFTON ITEMS.

Every person of town who takes any interest in base ball and wishes to see Drifton's reputation upheld on the diamond should attend the Fearnots picnic here next Saturday evening. The boys did nobly last year and give ample promise of doing equally as good on the field this year. It requires money to give the public free base ball, and those who enjoy a game such as the Fearnots put up ought to show their appreciation by turning out at the picnic. There will be something there to amuse all, and those who wish to dance will be given lots of opportunities to enjoy DePiero's music.

James McCarty attended the wedding of D. J. Ferry and Miss Mary Bony at Hazleton on Wednesday.

Miss Grace O'Donnell, of Philadelphia, is visiting relatives in town.

The public schools at No. 1 closed their terms on Thursday.

E. B. Ely, sales agent for Coxie Bros. & Co., was in town last week.

Mrs. J. J. McNelis, of No. 2, was seriously ill last week.

John McDermott, of Newark, N. J., visited his parents here yesterday.

The crews on the D, S. & S. are being laid off on their turn. It seems as if there is a little power to spare on the line at present. When the winter sets in, however, there will be plenty of work for all.

The bicycle craze has struck town with full force and many new wheels have been purchased this spring. Where it will end is hard to tell, as many persons who propose buying them would be liable to fall out of a wagon.

The slaughter house and the stream leading from it would stand a little investigation from a sanitary committee during this warm weather. The foul stench which arises from the stream, between the slaughter house and No. 1 shop, especially in the evening, is beyond description. The air is filthy and sickening in that vicinity and is enough to create a plague.

JEDDO NEWS.

On Friday evening the locie house, blacksmith shop and carpenter shop at the stripping were burned to the ground. The fire is supposed to have originated from the spark of a locie and in a few minutes the flames made such headway that they were beyond control. In a department in one of the buildings the powder was kept, and fortunately that morning the ninety kegs which it contained were removed, or else the destruction might have been greater.

Peter O'Donnell, who had his eye burned sometime ago, is undergoing treatment at a Philadelphia hospital.

ABOUT NARCOTICS.
Their Uses and Abuses—Timely Words of Warning—Read and Reflect.
More money is spent yearly in the United States for whiskey, tobacco and opium than would be required to pay off the national debt. These deadly evils are working sad inroads upon the minds and constitutions of the best men of this favored land, wrecking homes, breaking hearts, ruining and sending men and women into untimely graves and insane asylums.

Many remedies for the cure of these habits have been put on the market, all of which have proven sorry failures, for the reason that they expect more of the patient than he is able to stand, compelling him to exercise his will power in abstaining from the use of stimulants while he is taking the medicine. The absurdity of such treatment shows on its face, for were the sufferer able to give up his habits he would have no need of medicine.

Hill's chloride of gold tablets is the only genuine remedy made. It is a positive guaranteed cure for the use of liquor, opium or tobacco in any form. It requires no will power, but allows the patient to continue his habits until he drops them of his own volition and without the least struggle. The medicine is pleasant and contains no harmful drugs. Where desired wives or mothers can give it in tea or coffee without its presence being detected, while the usual good results will speedily follow.

These tablets have been on the market for years, and thousands of testimonials have been furnished, telling of their wonderful cures and the lives that have been blessed through their use. Ask your local druggist for Hill's tablets, or write to the Ohio Chemical Co., sole manufacturers, Lima, Ohio.

Tobacco Habit Easily Cured.
A FEW Testimonials from persons who have been cured by the use of Hill's Tablets

THE OHIO CHEMICAL CO.
DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.
B. M. JAYLORD, Leslie, Mich.
DORIS FERRY, N. Y.

THE OHIO CHEMICAL CO.—GENTLEMEN—Some time ago I sent for 400 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured. Truly yours, HATHEN JOHNSON, P. O. Box 45, Freeport, Pa.

THE OHIO CHEMICAL CO.—GENTLEMEN—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking and will not touch liquor of any kind. I have written four months before writing you, in order to know the cause was permanent. Yours truly,
MRS. HELEN MORRISON, CINCINNATI, OHIO.
I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part.
