Thought the Bank Had Busted.

rom the Newsdealer.

A depositor from the country who was A depositor from the country who was not aware that the Wilkes-Barre banks closed at noon on Saturday, tried to get up a scare on Market street last Saturday. When he attempted to enter he found the door locked. He peered through the glass door and saw the cashier and clerks busily at work. He rattled the door again but there was no response. Then he yelled "Let me in." But the bank officials wouldn't do it. Then he gave the door a kick. He is Then he gave the door a kick. He swore once or twice and then went down street. He stopped every passer-by and told them that the gosh darned bank up the street was busted and had closed

At first some people got badly scared and turned their footsteps hurriedly in the direction of the bank. But when they came to think over the matter (proyiding they had not already been told of yiding they had not already been told of it) they realized the true situation of affairs and went on without ever looking at the bank. The countryman would not believe what the people told him. He hung around until 4 o'clock and then bitabed no and deeps here hitched up and drove home.

Introducing Anthracite in Europe. The receivers of the Reading Company have recalled William A. Scheers, the representative of that corporation, who has been in Europe trying to introduce anthracite coal into that country. Mr. Scheers left for Europe several months ago to try to boom the anthracite trade ago to try to boom the anthracite trade liked, but as the stoves in Europe were hot built to burn anthracite coal it was hard to get the people to take it nu. In hard to get the people to take it up. In view of this the receivers deemed it ad-visable to recall him, as they thought they were not warranted at this time in

changed so as to adopt them for the use of anthracite coal. When this is done, the receivers think, it will be time to introduce their coal. The foreigners are willing to use it, provided it can be put at such a figure as to compare favorably with the hore product.

WILL GUARANTEE BETTER WORK THAN CAN BE HAD ANYWHERE ELSE IN THE REGION. 13 West Broad Street, Hazleton.

Washington, D. C., Aug. 11. President Cleveland's message has een as closely studied as any similiar ocument ever was by members of congress and it is evident that it is going to gress and it is evident that it is going to be a powerful factor in the financial legislation of the session. It apparently opposes the ideas of manylDemocrats in both house and senate, just as his celebrated tariff message of 1887 did, but honest and conscientious belief is conspicuous in every sentence of it. And the opposition of what are known as silver Democrats is more apparent than real, for they all agree with the president's recommendations for the repeal of the silver purchasing clause of the Sherman law, only differing as to what shall be substituted. The message recommends the repeal and leaves the commends the repeal and leaves the question of a substitute to the wisdom of congress, and nine-tenths of the Democrats are certain that the recommendation as to the repeal will be followed, and that other financial legisla-tion, which will be equally satisfactory to the silver Denocrats and to President Cleyeland, will be agreed upon by the Democrats in both house and senate and that the persistent efforts of the Republicans to split the Democratic party on the silyer question will fail.

It is now claimed that a careful poll of the house, made this week, shows a ma-jority of 35 in favor of the repeal of the purchasing clause of the Sherman law. The senate is more doubtful, and it is more difficult to ascertain how senat more difficult to ascertain how senators whose positions are not clearly defined will vote, but strong efforts are now being made to bring the Democratic senators together, and the indications point to success. A caucus of Democratic senators this week appointed a committee of five to consider and report a plan with that and in view. The Posa plan with that end in view. The Re a plan with time and in view. The Re-publicans, unintentionally, of course, added largely to the probability of united Democratic action in the senate by their attempts to make political capital, which were promptly and properly rebuked by Senator Gorman, out of the present finar nancial situation.

The senate committee on finance, of which Senator Vorhees is chairman, held its first meeting yesterday. The committee did not lack for business cither, as more than a score of finance bills which have been introduced in the senate have been referred to that com-mittee. A majority of this committee are bimetalists, but some of the most prom bimetalists, but some of the most prom-inent of them, including the chairman, have declared their belief in the vicious-ness of the Sherman law and their will-ingness to vote for its unconditional re-peal. The senate is naturally deliberate in all its actions, so it will not be surpris-ing if the house takes up the silver ques-tion before this committe reports a bill to the sangle. The resolution of Sangle. to the senate. The resolution of Senator Lodge, of Force bill fame, directing tor Lodge, of Force bill fame, directing the committee to report a bill for the repeal of the Sherman law and provid-that a vote should be taken thereupon on the 22d of this month was only a bit of Republican buncombe, and the adoption of the resolution would have surprised no one more than its author.

The bitterest pill in the president's message for the Republicans to swallow was the plain statement that he expected congress to obey the will of the people and proceed to reform the iniquit ous tariff as soon as the finances have been looked after. Because the trouble brought upon the country by Republi-can financial legislation have so conspicuously forced themselves upon pub
