This is to certify that I was treated by Dr. Riegel for catarrh and completely cured in less than four months' time.

For five years I suffered untold misery. My symptoms were dizziness, headache, difficulty in breathing, purulent matter, dripping in the throat, and I felt weak and tired all the time. The least exertion was fatiguing and paintly, and I would get so meiancholy that I wanted to die and end my misery. I consulted dozens of physicians, but none did me any good till I met Dr. Riegel. After the first three treatments I felt very much better and now (in less than four months' time) I am completely cured and never felt better in my life.

I will be pleased to answer any letters of inquiry from persons wishing to consult Dr. Riegel, if a stamp is enclosed. Respectfully,

Editor Sunday Leader,—Dear Sir.—I wish to announce through the clums of your paper something which may be of benefit to many of its readers.

About six years ago I was attacked with that dreadful disease, chronic nasa catarrh, and latter on it ran into bronchitis, and still latter I had slight the time, constant dropping into my throat of the vilest of matter and had also a cough. My hearing was affected. In fact I felt indisposed to do any thing. I tried all means to get rid of this dreadful malady but all to no avail. He believes that anything that will not stand the scrutiny of everyone is not the best that can be offered to them and lacks effectiveness, therefore he submits himself to the severest test any physician can be subjected to and awaits the verdict of the people without the least fear of people without the least fear of failure.

If any of the following questions apply to you, you had better answer them at once.
