FREELAND, PA., AUGUST 24, 1893.

SPECIAL CORRESPONDENCE.

Foster Township, August 19. EDITOR TRIBUNE.—My attention has been called to an article in your paper under date of August 10, from your correspondent under the non de plume, Saunterer, purporting to give the gist of an interview with a citizen of Foster township on the financial statement of Foster township school district, as published by authority of the board, and asserting that the statement, upon examination, shows a shortage in the accounts of Treasurer Hanlon of \$270.

As the article in question glances with misrepresentations and makes a display of perversion and ignorance of facts and figures that is really damnable, tending to invite suspicion and criticism alike on those members of the board who passed upon the statement as well as the treasurer, I deem it my duty as a member of the board to call the attention of Saunterer and his cowardly citizen to their unpardonable error and at the same time place the board right in the eyes of the people.

A means of public scrutiny is the chief object for which these statements are published annually, and we must therefore recognize the right of every citizen to not only criticize them but to insist that they shall be correct in every particular, and so plain that he who runs may read.

Had it been that the statement had shown such shortage, there are scores of good citizens of Foster township who would have promptly brought the board to a sense of their duty, and would not fear to air their inefficiency through the press over their own signatures, but when a cowardly citizen harbors for weeks a suspicion that there is something wrong, then attempts to criticize from behind the cloak of a correspondent writing under a non de plume, neither the man nor his criticisms are worthy of attention.

I will say, furthermore, that had the treasurer presented to the board for their approval a statement showing such a shortage there are members of the board, if I am not mistaken in the men, and I think I am not, who could be depended upon to apply the proper remedy to have it corrected.

I have in my possession a copy of each of the papers in which the statement was published, and there is no expense item of this amount missing, as he assumes, and I deny that there is such a shortage and I challenge Saunterer to prove his assertion.

It is a fact, however, that in publishing the statement a typographical error crept in, which showed the amount paid out in teachers' salaries to be only \$1,148.75 instead of \$1,418.75.

Surely the board or its officers are not to blame for this error, but even with these figures the difference would not be \$270, but about ten thousand dollars. The editor of the Tribune, promptly corrected it, and I refer the gentlemen to that paper of July 27th and 31st for a correct statement.

This citizen gives a still further exhibition of his cowardice when he says that there are other parts that are not clear to him, and he is one of the men who wants to know the reason why. What are the parts my fellow citizen? Point them out to me over your own signature. Almost any journal will give you space in a matter so important. Let us hear from you soon. While I am not writing under authority of the board, I nevertheless recognize the fact that a school board's business is public business. Let us hear, I ask again, what parts are not clear to you, and I have the data in my possession and confidence in my ability to make them as clear as the unclouded sun at noonday.

THOMAS MCHUGH, Secretary of Board.
