A VANISHED PEOPLE.

How Did They Transport Mammoth Rocks to Build a Mysterious Cavern?

On the shores of Brittany there is a mysterious relic of forgotten ages which escapes the notice of most travelers, says the Million.

Far out in the Morbihan sea—across which legend tells us Arthur sailed with his knights in pursuit of the dragon—rises a little island. It can be reached in a boat from the coast only in a calm sea. A Breton shepherd has a solitary hut upon it and feeds a few sheep.

Crossing the grassy slope off which the breeze the traveler finds himself at the foot of a hill, in the face of which has been excavated a great tunnel or cave, floored, walled and roofed by huge flat rocks.

Some archaeologists say that this cavern was the work of the worshippers of the serpent god or Iou—a race that has passed into oblivion.

The unlearned traveler knows only that the mysterious cavern antedates all history; that the rocks of which it is built came from the main land, a distance of more than one hundred miles inland. No rocks like them make any part of the geological formation of the island.

Even with our modern engineering knowledge and machinery it would require vast labor and skill to bring these enormous blocks of stone and place them so securely as to defy the wear and friction of ages.

How were they brought here by men who had, perhaps, few mechanical appliances—noting but the strength of their bodies and their faith in a strange god?

The race who built the temple are dust. Even their names ages ago perished from the earth. Their religion is vanished. These stones are the monuments of their indomitable resolution. That defies the flight of years

LEARNED BY ACCIDENT.

The Art of Lithography First Learned by a Theater Attache in Munich.

One of the greatest discoveries ever made was the result of the purest accident. It was in the year 1796. The citizens of Munich had just witnessed the first triumphant performance of Mozart's opera, "Don Juan," and the theater was deserted by all save one man, Alois Sennefelder, who, after making a round of inspection in the building, to see that no sparks had ignited anything combustible, retired to his room to stamp the tickets of admission for the day following. When he entered his apartments he had three things in his hand—a polished whetstone, which he had purchased for sharpening razors; a ticket stamp, still moistened with printing ink, and a check on the treasurer of the theater for his weekly salary. As he placed the latter upon the table, a gust of wind swept it high up in his room, and then deposited it in a basin filled with water. Sennefelder tried the wet paper as well as he could and then weighted it down with the whetstone, upon which he had before carelessly placed the printing stamp. When he returned to his room the following morning he was astonished at seeing the letters printed with remarkable accuracy upon the dampened paper. A thought came to him. He wondered whether, by some such means, he could not simplify his work of continually copying the songs of the chorus. He went out and purchased a large stone, commenced making experiments, and, as we all know, discovered the art of printing from stone—lithography.

Of One Who Suffered Years and Tried Many Physicians Both of Philadelphia and New York

WITHOUT GETTING RELIEF.

AND IS NOW CURED BY DR. RIEGEL.

I have been a sufferer for a number of years with catarrh in its worst forms. Had constant headaches, matter dropping in the throat, dizziness, nose stopped up, difficulty in breathing and no doubt would soon have been a consumptive, had I not met Dr. Riegel.

Before that time I had tried every well-known remedy and doctored with many physicians, not only of Hazleton but of New York and Philadelphia, but could get no relief anywhere. As soon as Dr. Riegel began treating me I felt relieved and continued to improve until now I feel like a new man, and knowing that there are many others suffering as much as I did I write this for publication, so that others may avail themselves of Dr. Riegel's treatment before it is too late. He can cure you if you take it in time.

I am willing to answer any letters of inquiry from persons wishing to consult him.

TOBACCO HABIT EASILY CURED.

A FEW Testimonials from persons who have been cured by the use of Hill's Tablets.

THE OHIO CHEMICAL CO.
DEAR SIR—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.
B. H. JAYLOR, Leslie, Mich.

THE OHIO CHEMICAL CO.—GENTLEMEN—Some time ago I sent for five worth of your Tablets for Tobacco Habit. I received them all right, and although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.
Truly yours, **MATHEW JOHNSON, P. O. Box 45, Pittsburgh, Pa.**

THE OHIO CHEMICAL CO.—GENTLEMEN—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have written four months before writing you, in order to know the cure was permanent. Yours truly,
HIS. HELEN MORRISON, Cincinnati, Ohio.

THE OHIO CHEMICAL CO.—GENTLEMEN—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part.
