issue of importance that will tend to excite the interest of the voters, and it is evident that the party which can make the best door to door canvass will come out ahead in the fourth district will come out fourth district.

that employs him.

SAUNTERER.

With the exception of Tommy Smith, of Milnesville, the candidates on both tickets are practically unknown to the majority of the voters in this end of the county, and it is reasonable to suppose that it is on this account that there is no activity or enthusiasm displayed. I have inquired carefully and sought the opinions of the men politically inclined of the surrounding towns, only to find that they are unconcerned as to which party will win in the coming election. This I find to be the prevailing opinion of several of both parties, although many appear to have a preference for Mr. Smith, and this is no doubt owing to his popularity as a laboring man and the good disposition he has shown toward the people of the district who had occasion to do business at the commissioner's office durhad occasion to do business at the commissioner's office dur-ing his last term.

one thing which I have noticed of late, and which is very conspicuous, that the failure of the Democrats to put a man from the fourth district on their ticket has caused a large number of anti-new county Democrats to change their opinions. Many of these voters who deemed it best to change their views are from the mining towns and live in company houses, therefore, they say that the increase in taxes which the new county would possibly make would be of but little consequence to them and they would prefer it rather than be whipped into line by a few men at the county seat. However, I believe these men will support their ticket, yet I am confident that the mistake made by the Democrats in not having a man from their district on their ticket will. crats in not having aman from this district on their ticket will, in connection with some other mistakes now being made by the leaders, materially aid in bringing about the new county in 1895.

It is surprising to learn how low some men will stoop at times to obtain a few paltry cents. In my rambles last week I heard of a case, which, in itself, may seem insignificant, but it nevertheles shows up very accurately the principles that control one of the officials of a coal company which has its office not far from Freeland. Among the laborers emhas its office not far from Free-land. Among the laborers employed by the street commissioner in the borough last summer was a certain elderly gentleman who is no longer able to work in the mines, and after being thrown idle by the suspension of work here he applied for a job last week at a breaker recently erected about a mile and a half from town. He was given work by the ticket boss, who is a thorough gentleman, but before starting his "note" had to be approved by another higher official.

who sees all things! An humble and aged laborer denied the privilege of working in a coal breaker because he did not possess 50 cents with which to bribe the company's \$100-amonth superintendent.

Men of that class are danger Thave heard but very little of the political situation since the tickets of both parties have been placed before the people for their inspection. In fact, the death-like silence maintained by the candidates is such an unusual thing that I am inclined to believe it will cause a large falling off in the vote in this end of the county. The gloom which hangs over the voters in this vicinity appears to be of such density that either party will find it hard work to put life into the campaign. There is no question of popularity nor is there any issue of importance that will treat the selling of jobs about the mines was a common practice, but it was then confined wholly to such applicants who were not familiar with our language and customs. I did not think that a superintendent at this late day would try to sell a job in the breaker to an old resident, and if 50 cents is this man's lowest price he must realize quite a sum on the side every ous to any community, yet they somehow manage to keep to such applicants who were not familiar with our language and customs. I did not think that a superintendent at this late day would try to sell a job in the breaker to an old resident, and if 50 conts is this man's the breaker to an old resident, and if 50 cents is this man's lowest price he must realize quite a sum on the side every month. Now I do wonder if this dealer in jobs carries on his private business with or without the consent of the firm that employs him.

SAUNTERER.

This order was not the result of any assumption of power by a single individ-ual, as were the rulings of Tom Reed when he was speaker; it was authorized by a Democratic caucus, as such things always should be. The Republicans are

the fact that it is simply impossible to force a vote under the present rules of the senate, rules which have not been materially changed for more than eighty

It is expected that the attempt to reach a vote by means of a continuous session of the senate will be made in a few days (the daily sittings have already been lengthened), and if that fails the bill will either have to be abandoned or bill will either have to be abandoned or a compromise reached by concessions on both sides be adopted. President Cleve-land is still confident that the bill can be passed and for that reason declines to consider anything in the shape of a

IS NOW CURED BY DR. RIEGEL.

I have been a sufferer for a number of years with catarrh in its worst forms. Had constant headaches, matter dropping in the throat, dizziness, nose stopped up, difficulty in breathing and no doubt would soon have been a consumptive, had I not met Dr. Riegel

Before that time I had tried every well-known remedy and doctored with many physicians, not only of Hazleton but of New York and Philadelphia, but but of New York and Philadelphia, but could get no relief anywhere. As soon as Dr. Riegel began treating me I felt relieved and continued to improve until now I feel like a new man, and knowing that there are many others suffering as much as I did I write this for publication, so that others may avail themselves proposed to put an effectual quietue is too late. He can cure you if you take it in time.
