HIGHLAND DOTS.

If rumor is correct the No. 3 stripping will be greatly improved in the near fu-ture so as to conduct the work on a larger scale. A new steam shovel, that will be much larger than the present one, will be brought here and an engine nearly twice the size of the one there now will be put in for hoisting both the coal and clay.

Mrs. Daniel McGinniss, of Duryea, returned home on Monday after spending a few days here among relatives.

The collieries at this place are now working nearly full time.

Miss Annie Canty returned from eyening. visit to Alden friends on Saturday. . The passenger stations at this place

could be greatly improved by having them closed up and heated.

Rev. J. W. Bischoff, of Upper Lehigh, drove through town on Sunday. A great many of the fences were blown own by the storm last week, but no

other damage was done.

Thos. J. Boyle has a young son lying very ill.

On Tuesday a jury appointed on the land case between G. B. Markle & Co. and farmers in Sandy valley was investigating in this section

The new road which is being built to connect No. 1 and No. 2 breakers will not be completed for several months

Some of our neighbors' cows have Some of our neighbors' cows have come home several mornings this week without milk and it is supposed that a gang of tramps who have been camping in this vicinity were helping themselves.

DRIFTON ITEMS.

On Sunday night several tramps effected an entrance through a window into the school house at No. 1 and held the fort until nearly morning. Of course, suspicion is directed toward the boys and young men who spend their even-ings around these buildings and as long as they continue to do so they can ex-pect nothing else. Plenty of warning has been given them to stay away and if they find themselves in the clutches of the law at some time they need not be surprised. Though in this instance ey appear to be innocent.

William Iles, formerly mine foreman at Oneida, has been transferred to No. 2 slope at this place. He took charge on Tuesday.

Henry Hartig moved his family from reeland to this place on Monday.

Mrs. Thomas Carr, who was so seri-ously ill last week, is slowly recovering. Christ Miller, it is said, will be trans-ferred to Oneida in a few weeks, where he will hold the position of assistant

Engine No. 11 and two coal cars were badly damaged near Ebervale on Mon-day by being thrown from the track which was undergoing repairs.

The crews temporarily stationed at Hazleton are anxious to get back to Freeland. A town where the people go to bed with the chickens is not to our boys' taste.

James Farrell, of Freeland, one of the firemen on the road, injured his foot a few days ago, and yesterday he went to the hospital to have the swelling reduced. The new passenger engine No. 17, which arrived here last week, is of the

newest pattern for speed and is probably the fastest locomotive in this section. The special to the concert at Hazleton was well patronized on Saturday evenaway happy.
