Every commandery in the United States will be asked to adopt similar resolutions.

**BUFFALO, Oct. 20.**—Anthony Comstock, of the New York society for the suppression of vice, appeared in Commissioner Fairchild's court yesterday and asked for a warrant for the arrest of Byron B. Daggett, manager of the Daggett table company, of 215 Hudson street, on the charge of sending improper literature through the mails in the shape of circulars advertising a posture chair. They contained pictures representing persons occupying the chairs in various poses, which according to Mr. Comstock renders them unmailable. The warrant was issued and Daggett was arrested.

**CHICAGO, Oct. 20.**—Between twenty and thirty states and territories yesterday, through their executive commissioners at the fair, resolved to go on record as opposed to the entire Thacher system of awards. At a meeting in the Missouri state building the state executive commissioners appointed a committee of eleven members to investigate the whole awards system as it applies to the states and individual exhibitors. As one commissioner expressed it, it is believed the state boards will wash their hands of all responsibility of the world's fair system of awards, and will go on record as uttering a final protest against the methods adopted by Mr. Thacher and the national board.

### MONDAY, OCT. 23.

**ST. PETERSBURG, Oct. 23.**—The auditing of the accounts of the Southwest railways has shown that 50,000 pounds sterling have been embezzled. The chief cashier and two other officials have been arrested.

**NEW YORK, Oct. 23.**—The report of the official naval board ordered to inspect the workings of the new coal-burning device for ships at sea declares that the system has shown such merit as to warrant the equipment of a collier for the purpose of still further trials in moderately rough weather.

The decision is in favor of the complainants and makes a reduction of nearly 28 per cent. in the rates on agricultural implements from the Missouri river to Wichita or from 32 1/2 cents a hundred to 23 1/2 cents in carload lots.

**KANSAS CITY, Mo., Oct. 23.**—The cattle killing record of the world was broken Saturday at Armour's packing house in the West Bottoms where 3,218 cattle were slaughtered in eleven hours. There were 3,218 cattle in the Armour pens in the morning and the sentence of death before nightfall was executed on all of them. The slaughter began at 6 o'clock. The average was five per minute.

**LONDON, Oct. 23.**—The Times contains a dispatch from Sydney, Australia, stating that Sanford Fleming, who recently left Canada, is visiting the Australian colonies, with the view of submitting plans of four possible routes for the proposed Pacific cable from Australia to Canada. He proposed that the cable shall be owned by the governments interested. He estimates the cost of working the line at 200,000 annually and considers that the rate might be lowered to two shillings per word.

**PORTLAND, Me., Oct. 23.**—A case which has attracted wide attention has been decided in the United States court by Judge Webb. When United States Marshal George D. Bisbee went out of office some years ago, there was a dispute with the government about fees. Bisbee held about \$1,300 belonging to the government, which he did not turn over, claiming that the government owed him \$1,500 for fees which had been disallowed in Washington. After trying to induce Bisbee to turn over the amount, the officials in Washington ordered legal proceedings against Bisbee. They sued his official bond and attached his real estate to the value of \$25,000. The case has been pending since April 1891. Judge Webb gave a decision for the defendant, finding that the government owed Bisbee more than he owed it.

**WASHINGTON, Oct. 23.**—President and Mrs. Cleveland are living more quietly now than has ever before been possible for them in this city. Outside of working hours, the white house sees very little of the president. Mrs. Cleveland still keeps to her custom of either driving in town with him every morning or coming for him in the afternoon, when they extend their drive around the country, now so glorious in its autumn dress. Those who have seen Mrs. Cleveland lately say that she never looked so handsome. Mrs. Perkins, who went to Chicago with Postmaster General and Mrs. Bissell, returned also with them, and is staying at Woodley. The ladies are at home to their friends pretty much the same as at the white house, but very naturally no other persons would call at the country residence without a special invitation. It is quite probable that President and Mrs. Cleveland will remain in the country for another month at least, and in fact the house will be kept in readiness for them at any time during the winter. Mrs. Cleveland is just as devoted to the quiet of the country as the president, and as she is fond of walking about the woods, she can have all the outdoor exercise she wants in company with the babies, a pleasure not to be thought of by her in the streets of the city.

# RUSSIANS LEAVE PARIS

## Their Reception Throughout an Unbroken Fete.

**Lyons Feverishly Excited in Anticipation of Their Reception—Eiffel Socially Whitewashed—A Present for the Czar From Alsace-Lorraine.**

**PARIS, Oct. 25.**—The Russians went to Versailles yesterday afternoon on a special train, Admiral Avelan riding in the carriage used by Queen Victoria when she passed through France. They stopped a few minutes at St. Cloud and Sevres to receive addresses from the local authorities. At Versailles all the approaches to the railway station were filled with cheering crowds. The waiting room had been transformed into a saloon with maroon hangings, red carpet, palms and flowers.

### "Vive l'Alliance."

The Russians looked through the palace with minute interest. In response to repeated calls for them they appeared on the balcony outside the saloon where the German empire was proclaimed. They were greeted with the cry "Vive l'Alliance!" They drove to the Grand Trianon, the villa erected by Louis XIV. for Mme. de Maintenon, and saw the apartments of Marie Antoinette; then to the Petit Trianon and the Basin Neptune where they watched the fountains play.

They were back in Paris shortly before 8 o'clock. An immense crowd welcomed them at the station with enthusiasm little short of delirium with cheering and general illumination and a gala performance at the opera.

### Eiffel Socially Whitewashed.

Several journals comment upon the fact that M. Eiffel, who was found guilty of enormous frauds in connection with the Panama canal, received last evening his social whitewashing. He was at the tower bearing his name to receive the Russians, with his decoration of the Legion of Honor in full view. He shook hands with Admiral Avelan and General Loizillon, and touched glasses and drank with them repeatedly. Both officers treated him with distinction.

### Avelan and Carnot Confer in Private.

Directly after the last curtain at the opera last night the Russians took carriages for the Lyons railway station, where the people had gathered by the tens of thousands to bid them goodspeed. The boulevards were ablaze with electric light and the crowds cheered more wildly even than when the officers arrived. After luncheon at the Elysee Admiral Avelan had a long private interview with President Carnot.

### Dispatches from Lyons say that the city is feverishly excited in anticipation of the visit of the Russians.

### A Present from Alsace-Lorraine.

### THE BRAZILIAN WAR.

Latest News Indicate that the Rebels Still Command the Situation.

**NEW YORK, Oct. 25.**—A press despatch from Montevideo says that Frederick Guilherme de Lerna has been proclaimed provisional president of Brazil by Admiral Mello, in command of the insurgent fleet.

Lerna is the captain of one of the rebel warships, and the provisional government of which he is now proclaimed president was established some days ago at Desterro, which is the capital city of the state of Santa Catharina.

The despatch also declares that the bombardment of Rio has been suspended.

There are two reasons current in Rio Janeiro for this action, or rather inaction, on the part of Admiral Mello.

One is that he is awaiting the arrival of the ship Ciudad de Porto, which set out from this port recently, loaded with allies and provisions, but especially ammunition, for Mello. It is surmised that the rebel gunners have about run out of gunpowder and projectiles.

The other reason current for the suspension of the bombardment is that the foreign warships in the harbor have interfered to prevent the further shelling of the defenseless buildings of the capital.

The rebel war ship Republica, which appeared outside the harbor of Montevideo Sunday and was quarantined, signalled the Tiradentes yesterday to come outside and fight. The Tiradentes did not deign to reply, but continued to lie quietly under the friendly flag of Uruguay.

The Uruguayan officials refused practice to the Republica and would not even allow her to communicate with the shore, so that, after being supplied with water and coal, she sailed north again, flagging the Tiradentes an invitation to join the rebels, and taunting the crew with being cowards for seeking protection from a foreign power.

Admiral Mello issued another proclamation yesterday exhorting his comrades to continue their efforts, and assuring them of the ultimate downfall of "the tyrant Felixoto," whom he accuses of treachery and cowardice.

He declares that the president endeavored to assassinate him by means of an album loaded with dynamite, which was sent to Mello with the connivance of Felixoto.
