

TAX RIOTS IN SICILY

City Buildings Stormed and Burned By the Mob.

The Arrests of a Socialist Who Was Urging Revolt Causes an Attack on the Police—Crispi Urges More Equitable Assessment of the Taxes.

PALESTRO, Dec. 27.—During the anti-tax riot at Terrasini, near this city, the town offices were set on fire and completely destroyed.

A riot was caused in Valguarnera by a police commissary arresting a socialist preaching revolt. A thousand men and women stormed the gendarmes' barracks in an attempt to rescue the prisoner, but were repulsed. The mob afterwards set fire to the town hall, the postoffice, the magistrates' office, and the residences of the mayor, police commissary and several citizens, all of which were badly damaged or destroyed.

Premier Crispi has sent a circular to the prefects in Sicily requesting them to urge the mayors to confer and devise means for a more equitable assessment of taxes and see that the taxes upon the necessities of life are levied without undue severity.

Prior to the riot in Lecara di Freddi on Saturday the local workmen's unions sent a telegram to Premier Crispi begging him to intervene against the exorbitant duties. The premier, in reply, expressed sympathy with the people's legitimate demands, pointed out the necessity of preventing violence, and urged the people to ignore agitators. The unions telegraphed back to Crispi that they had posted his message throughout the town and that they confided in him.

PITTSBURGH, Dec. 26.—The club house and all the stables of the Pittsburg Driving Park association at Homewood were destroyed by fire shortly after midnight. Every building on the place was burned.

PARIS, Dec. 27.—The physicians attending Auguste Vaillant, who threw the bomb in the chamber of deputies, reported to-day that the wound in his thigh had been cicatrized. His resistance has increased daily until he now refuses to talk of his crime, although he reads all the newspapers print concerning him and his former associates.

HAZLETON, Pa., Dec. 27.—A riotous conflict followed the wedding of Thomas Robb, a Pole from Fern Glen, to a girl at Hazleton, near this city. The Poles celebrated the wedding and a lot of jealous Austrians set out to kill them. Dynamite was used to blow up the house where the Poles were celebrating, but not until the latter had been warned away. In a fight which followed Robb, the groom, was fatally shot in the head and others were seriously wounded. All of the principals in the fight will be arrested.

DANBURY, Conn., Dec. 27.—As the first of January draws near, it becomes more apparent that the twenty last factories in the lockout will not be opened on that date. When, two weeks ago, it was thought possible that the shops might open in a short time, it seemed quite certain that they would open by January 1. But now it seems equally certain that the manufacturers will not attempt to start until about February 1. This information comes from the manufacturers through the New York offices where all of their goods are handled. It is on account of the stagnation that prevails, especially in the hatting trade.

NEWCASTLE, Pa., Dec. 27.—Sampson Getholtz, a Slippery Rock township farmer, thought to surprise his family by sliding down the old-fashioned chimney and impersonating Santa Claus. He made the passage all right until he reached the center of the chimney, where he stuck fast. Getholtz yelled for aid. Members of the family did not recognize his smothered voice and ran from the house terrified. Neighbors were summoned and after much difficulty Getholtz made himself known. The chimney was torn down level with the roof, a rope was lowered, and by the united efforts of three men Getholtz was pulled out.

SYRACUSE, N. Y., Dec. 27.—Justice P. B. McLennan handed down the most important decision in an action brought to recover \$1,150 placed in French and auction pools, at Saratoga on the first of August, 1892. Thomas D. Heilly against Milton C. Gray was his title, and it came up in the form of a writ of mandamus. The principal question decided was as to whether or not the pools were lotteries and therefore unconstitutional. The court decides that they are lotteries, and says that the Ives pool bill has little to do with the case. The bill legalized betting for thirty days on the track, which the constitution does not prohibit, but it could not legalize lotteries. The case came from Herkimer county.

INDIANAPOLIS, Dec. 27.—Governor Matthews is in correspondence with officials of Lake county concerning an effort being made to capture pugilist Costello in Canada and bring him into Indiana for execution.

NEW YORK, Dec. 27.—Before Judge

Truax, in the supreme court chambers here, an application was made to compel Mrs. Elsie Bethune, the legal guardian of "Blind Tom," the pianist and musical prodigy, to show cause why she should not be punished for contempt of court.

"Blind Tom" is well known all over the country. At the time of the emancipation of the slaves he was owned by John G. Bethune, of Virginia. The family, aware of the negro's genius, decided to retain him, notwithstanding the fifteenth amendment. The supreme court of Virginia, on account of "Blind Tom's" infirmity, decided that he was to remain the property of the Bethunes forever. This decision caused widespread gossip and not a little harsh criticism. Col. Daniel P. Holland, a Washington lawyer, endeavored to get the negro out of the hands of the Bethune family, but before that could be accomplished Mrs. Elsie Bethune succeeded in being appointed "Blind Tom's" guardian. Col. Holland died, and as his bill for legal services on behalf of the musical genius was not paid, Mrs. Irene Ackerman, of Washington, brought suit against Mrs. Bethune for the fee, amounting to \$3,300.

Mrs. Ackerman won the suit, and the court ordered the money to be paid out of the money earned by "Blind Tom." In that action Mrs. Bethune swore that she had no money resulting from her ward's earnings. Mrs. Irene Ackerman claims that Mrs. Bethune has \$35,000 and real estate, including from "Blind Tom's" musical productions; hence the contempt proceedings.

Judge Truax reserved his decision.

TOPEKA, Kan., Dec. 27.—J. C. Wilson, receiver of the Atchison, Topeka and Santa Fe railway, opened his office in the directors room of the company's building in this city yesterday. His first order was to Edward Wilder, treasurer of the company, to at once make out checks for the November wages of all employees, the money to be drawn from the fund that has accumulated for the payment of interest on bonds due Jan. 1. Checks for the payment of the men on the Chicago division were forwarded last night and all employees of the system will be paid in full by Saturday.

Receiver Wilson has been in consultation with General Marshall Frey all day getting information regarding the floating debt of the company and the condition of its business. He will make a report at the first meeting of the receivers to be held in New York in a few days.

PARIS, Dec. 27.—Written threats to destroy various public buildings in this city and elsewhere continue to be made, ostensibly by anarchists. The latest buildings threatened are the stations of the Eastern railway. Every precaution has been taken to prevent the threat being put into execution. Among the measures adopted is an examination of the luggage of passengers, it being feared that the anarchists will attempt to smuggle a trunk or valise containing an infernal machine into the stations. The officials of the company at Paris, three and a half miles northeast of Paris, have taken stringent precautions to guard the station there. Paris is a manufacturing town, and it is supposed that some of the anarchist workmen there are the authors of the threatening letters received.

TOPEKA, Kan., Dec. 27.—Reports of depredations committed by tramps continue to come in from all parts of the state. Along the eastern and southern borders the tramps are thick, and generally travel in gangs of a half dozen. They are crowding into the larger towns of the state, where they say they will have the protection of the police under the governor's order. Every day a number of tramps call at Gov. Levellings' office and beg for money with which to buy something to eat. The governor has found this such a burden that he is compelled to refuse further aid to them.

WASHINGTON, Dec. 27.—President Cleveland's Secretary, Greenhalgh, and Secretary Carlisle have left Washington for a few days' recreation. The president and his party, according to the best information obtainable, embarked on one of the light house tenders, accompanied by Captain Robley Evans, of the light-house board. They steamed down the Potomac to Chesapeake bay, and it is expected, will be absent from the city a couple of days. Duck shooting is suggested as the chief object of the trip.

PARIS, Dec. 27.—A pamphlet written by Colonel de Polignac attracts considerable attention. The writer proposes that France should ally herself with the Moors in order to extend her influence in northern Africa. Colonel de Polignac declares that if an alliance should be established France could compel the Moors to live at peace with the Spaniards. Then, he says, an alliance could be formed between France and Spain. France would thus become mistress of the western Mediterranean, while Spain would be able to place sufficient artillery along the bay of Algiers to render Gibraltar untenable by the British.

LONDON, Dec. 27.—A despatch to the Central News says that quantities of war material are being shipped from the Italian arsenals to Massowah on the Red sea to be used in the operations against the dervishes. PARIS, Dec. 27.—It having been reported that a British colony was to be founded at Tripoli, on the gulf of Lyons, the Figaro makes a strong protest against the formation of a British colony there. It shows its objection principally on the fact that the colony could easily become the centre of a system of espionage on the French Mediterranean defenses.

CANAJOHARIE, N. Y., Dec. 27.—The ice in the Mohawk river broke up and gorged near Fort Plain, causing the water to back up and cover the New York Central railroad tracks several inches. At St. Johnsville it is necessary to use boats to reach the river bridge. The mercury has fallen to 19 above zero, which will no doubt check the flood. The ice men had just commenced their harvest.

POTTSVILLE, Pa., Dec. 27.—After very hard and incessant labor the body of Jerry Leary, the miner who was entombed in the East Rock Ridge colliery, at Mahanoy Plains, Friday night, has been found. Although buried under tons of coal, the body was not mutilated. Leary's death was caused by a broken neck. He was a widower, and leaves several children.

CHICAGO, Dec. 27.—Comptroller Wethell has made arrangements with the five banks in which city money is deposited to provide \$400,000 for the purpose of meeting the pay-rolls of the city departments for this year and the satisfaction of claims which must be met before the first of the year. NEW YORK, Dec. 27.—Contrary to general expectations, Corbett and Mitchell will not fight by daylight. This information was conveyed to the general representative of the Duval athletic club, of Jacksonville, in a letter from J. E. T. Bowden, the general manager of the club. Mr. Bowden says the principals and club favored the daylight plan, but letters received from many sporting men suggested that the contest be fought at night, and so the former plan has been abandoned.

BOSTON, Dec. 27.—A conference was held at the state house yesterday on the subject of relieving the unemployed in the cities and towns of the state between Gov. Russell, Dr. Park of the Medford asylum trustees, Clerk Wells of the board of charity and lunacy, and Dr. Samuel W. Abbott of the state board of health. The conference was private.

Gov. Russell urged the gentlemen to look about and see what could be done. If there were buildings begun or in process of construction, measures should be taken to push them to completion. The state, he thought, was affected in these times as well as the city. If legislation were necessary he would do what he could and assign the matter at the close of his term to his successor, in whose hands the project of relief would suffer nothing.

PHILADELPHIA, Dec. 27.—General Master Workman Forester, of the Knights of Labor, has issued an official statement in which he outlines the course he will pursue. He says the order must put its principles into the statutes of the country, and make them a part of the practice of society.

He continues: "Everywhere is starvation and death, while corporate greed and avaricious money-lords apply the arrogant lash with relentless fury, and congress, like a wooden god, looks down in silent contempt on the miseries of the most patriotic and industrious people the world ever knew. With these conditions confronting the people everywhere, if we cannot permeate society with a healthy public opinion on the subject of labor and force, the adoption of our principles, we deserve defeat."

The general master workman further says that he feels warranted in asserting that civil liberty in this country will die in the next seven years unless the Knights of Labor or some like organization comes to the rescue. He then shows that, according to the eleventh census, the increase of wealth is about \$750,000,000 per year, while the interest charges exceed \$1,500,000 per annum.

"Do not mistake it for tariff delusions," he concludes, "or the lack of public confidence. It is the jingle of shackles that is always heard by a nation that forces the transaction of business on debt and credit and robs labor of the fruits of its toil to pay the interest."
