The scare report that was sent out last week about the collieries at this place going to be idle for the month of April must have been intended as an April-fool joke. The mines and the strippings are making about the same time this month as they have been since New Year, and such a thing as shutting down for an entire month is not likely to

The fishing season was to be opened in grand style on Monday by our fishermen, but the elements interfered with their plans. Judging from the way the snow is piled in banks, we believe fishing will be much better in May than it will be at any time during the remainder of this month.

A business man doesn't keep his store open one day in the week, or one week in the month, or three months in the year. If he advertises that way that is the impression people will get. People are very forgetful. They have to think pretfy hard to remember the vice presidential candidate two campaigns back, and yet he was pretfy well advertised at the time.
