

MILLER'S CLOSE CALL

Tragedy in the Ex-Attorney General's Law Office.

INDIANAPOLIS, April 18.—Ex-Attorney General Miller's law office in this city, over which appears the sign "Miller, Winter & Elam, attorneys," was the scene at high noon of a most sensational affray in which Addison C. Harris, a prominent lawyer of this city, and Wm. H. Bruning, of New York, were wounded, while Mr. Miller miraculously escaped. The cause of the shooting, it is said, was a feud which has existed since 1885, between W. M. Copland, of Madison, Ind., and Wm. H. Bruning, of New York, who were partners in a law office in this city, and had his birth a dozen years ago when Copland began paying court to Mr. Bruning's sister.

The Bruning family was opposed to the marriage of their daughter to Copland, but in 1885, while the latter was a member of the legislature and the young woman arranged to marry against the will of the parents, Miss Bruning went west, but the family was acquainted with their intention and prevailed upon her to return home, later giving a reluctant consent to the marriage. Upon the wedding day she took her departure with the latter's parents, where they resided until the parents died.

Between the husband and brother there was, however, a bitter hatred, and when the elder Bruning died Copland's wife brought suit to set aside the will. There followed a sensational law suit between Bruning and Copland to set aside a conveyance of property alleged to have been made by her to her brother under threats to take Copland's life if she refused. These suits were filed in Madison, but as Bruning was living in New York they were removed to the federal court.

Depositions in the case were taken in Indianapolis yesterday. As the court adjourned at noon Copland approached Attorney Harris, who is employed by him, and said that he understood that the depositions would not be taken as the Harris case was not yet started. Harris suggested that they go over to the office of Miller, Winter & Elam and see them about it, that firm having been employed by Bruning. As they entered the office Harris recognized Bruning and advanced to shake hands with him. At the same moment Copland saw Bruning, and quick as a flash he drew a revolver and commenced firing at Bruning. The latter arose as the first shot was fired and evidently attempted to defend himself, but Copland followed up his fire with two more shots before anyone could recover from their astonishment and in-terference.

It was found a moment later that two shots had taken effect in Bruning, one breaking his jaw and the other taking effect in his arm. As the third shot was fired Attorney Harris grabbed Copland and attempted to hold his arm. Just at that instant another shot was fired and Mr. Harris' arm fell by his side, its bone being broken by the shot. Ex-Attorney General Miller was in the private room and appeared a second later and attempted to hold Copland, but the latter struggled desperately and throwing the ex-attorney general to the ground, he lunged into the front office, firing as he went.

Police Superintendent Powell who was passing on the street heard the firing and entered the room. With the assistance of five other men Copland was thrown to the floor and placed under arrest. In the meantime Copland fired a severe cut upon the head, but was not otherwise seriously injured.

When Miller and Winter emerged from the struggle both were covered with blood from the wounds on Copland's head. When seen at the police station Copland was greatly excited and expressed regret that Attorney Harris had been hurt. Copland was a member of the legislature in 1883 and 1885, and has an extensive acquaintance in this city. A spring lock knife with an eight inch blade was taken from his pocket at the jail. The revolver is of large calibre, of the hammerless type and a severe cut upon the head, but was not otherwise seriously injured.

Money Lying Idle. SAN FRANCISCO, Cal., April 18.—There is \$15,000,000 lying in the San Francisco commercial banks, money for which the bankers can find no use. This is said to be the largest surplus that has been known for many years, and it is still growing. The banks do not like it, as they prefer to hold good interest-bearing securities instead of gold coin, which does not pay rent for the vault in which it occupies. This money is offered for loan as low as 4 per cent. on first-class security but all collateral is scrutinized more closely than was the case a year ago, and unless it is gilt-edged the money is hardly loaned at any rate.

Rhode Island Legislature. PROVIDENCE, R. I., April 18.—The senate passed a resolution of final adjournment on Friday April 17, and the house referred it to the judiciary committee. Dr. Garvin introduced in the house an act making the first Monday of September of each year a labor day, with a penalty of \$25 for every person who engages on the day in work not necessary. It was referred to the committee on judiciary. There was a lively tilt in the house between Messrs. Allen and Wilson and Speaker Owen over an attempt of the former to revive the anti-vaccination matter, during which the speaker refused to entertain an appeal from his decision.

News from Mello. BUENOS AYRES, April 18.—The insurgent fleet consisting of the Republica, Meteora, Iris, Urano and Esperanza, under command of Admiral Mello, arrived here last evening and anchored outside the harbor. The vessels were all short of provisions. The crews of the insurgent ships will be transferred to the quarantine station on Wednesday and the authorities of the Argentine republic will turn the ships over to Senor Asia Brazil, the Brazilian minister here.

PITTSBURG, Pa., April 17.—In anticipation of the general coal strike on April 21, all the large coal companies are getting out all the product they can and shipping it to their largest customers. All the western railroads are being taxed to their utmost, and the Standard Oil company has been piling up 100 cars of coal daily in Cleveland for the past 10 days.

NEW YORK, April 14.—Leonard & Co. have lost their suit against sugar king Franz O. Matthiessen and the sugar trust on trial in the supreme court at White Plains. The jury, after being out twenty-two hours, announced their verdict. Justice Dykman had charged the jury that they must find for the full amount, \$505,000, or nothing. Several of the jurymen say this point was decisive with them. If they had had any discretion as to the amount, they would have found for the plaintiff for a reasonable amount.

WASHINGTON, April 14.—The jury in the suit of Madeline Pollard against Congressman William C. P. Breckinridge for \$50,000 for breach of promise of marriage returned a verdict this evening after being out one hour and a half for the plaintiff awarding her \$15,000. Motion for a new trial was made at once. The jury it is understood, stood eleven for the plaintiff and one for the defendant. On the matter of award two or three favored the full amount sued for, while others thought a less sum would be right, three favoring a verdict without any award. The \$15,000 was a compromise verdict. Miss Pollard's lawyers say they are satisfied with the verdict.

CUMBERLAND, Md., April 18.—Coxey's army has at last changed its title and become Coxey's navy. The change was made when the Commonwealth struck camp at the Cumberland baseball park and marched with standards aloft and each piece of the band playing a different tune down to the canal wharf, where two boats of Merten's Sons Lumber company lay in wait. The start was made about 8:30, the commissary and camp wagons groaning under the remnants of the unexpected load which had prevailed. The band, particularly the Jersey contingent, were very grim. The schooner Kate Markee from Cape Ann went ashore near Sea Bright and was pounded to pieces. The crew of eight men were drowned. Off Sea Bright the schooner Albert W. Smith was lost with all on board. Several houses in course of construction in Brooklyn were blown down and minor destructions are reported from numerous places.

MONTEVIDEO, April 16.—Admiral de Mello has surrendered to the Uruguayan authorities, with the 1,500 insurgent troops who disembarked on the frontier of Uruguay after having been driven out of the state of Rio Grande do Sul by the troops of President Peixoto. The Uruguayan government, after having been notified by Mello of his desire to surrender, sent out a battalion of infantry to receive his submission. The commanding officer, after conferring with Mello, accepted his sword and placed him and his followers formally under arrest. Mello landed his men from the Republica. The rebellion in Brazil may be said to have completely collapsed. The state of siege at Rio de Janeiro has been extended to June 15, but it is believed, in view of the surrender of Admiral de Mello and the insurgent forces, the Brazilian government will shortly be able to raise the state of siege.

NEW YORK, April 16.—Notwithstanding the manifestly depressing influence on the movement of staple goods owing to the unusually early and wintry weather of the week telegrams to Bradstreet's from many of the important distributing points contain evidences of renewed activity of influences for improvement. Increasing purchases in leading lines at Savannah, Birmingham, Mobile and Atlanta are features, and consumers at those points are buying extensively for cash. Collections south are said to show improvement very generally. Encouraging advices are received from the Jacksonville vegetable section, but strawberry shipments are light and wholesale business is fairly active, although travel is lighter. In eastern cities a heavy demand is reported for money at Buffalo. There is an increasing demand for staple merchandise at Pittsburg, and for cotton yarns, shoes, Morocco and leather at Philadelphia. Baltimore jobbers state that bills due April 1 have been discounted with considerable freedom. Boston and other eastern wool manufacturers are buying raw material to cover orders, which results in firmer prices, in some instances in advances. Eastern cotton goods are quiet, except prints, satens and ginghams. Fall trade in woollens is moderate.

UPPER LEHIGH NOTES.

The sensational story that appeared in some of the Hazleton papers on Tuesday, and from that city transmitted to the metropolitan papers yesterday, which intimated that Joshua Santee, foreman of the Upper Lehigh Company's sawmill, was murdered for his money and the mill set on fire to cover the deed, is all a pure fabrication, as Mr. Santee lived for nearly forty-eight hours after being taken out of the burning building and was conscious until a few hours before his death. Dr. H. M. Neale, of this place, who is one of the most expert medical men in the state, attended to the injured man in less than an hour after he was taken from the flames. The doctor says there was no evidence of any kind that Mr. Santee had been assaulted by thieves, and there was not the slightest trace of ether, chloroform or narcotics of any description to be found. Mr. Santee stated what money was destroyed by the fire was in paper, excepting a \$10 gold piece, some change in silver and a few coppers. After the fire a search was made and the melted coin was found, Dr. Neale having in his possession at present pieces of the copper, silver and gold.

O'Neill passed them and ran, but after a chase of about 400 yards was overtaken by young Hyer, who drew the revolver and again threatened to shoot. O'Neill turned upon him, and struck him a blow that knocked him down, gave him a severe pummeling then started for home. Last evening O'Neill was arrested, given a \$300 bail to appear at court. Much interest was taken in the case, as O'Neill says the Hyers took him for a Hungarian when they first disputed his right to the road, and as that kind of business is frequently done on that road something unusual was expected at the hearing. O'Neill has the reputation of being a quiet, peaceable young man and is known as such throughout the town.

THE NEW HOUSE RULE

Triumph of the Principle of Ex-Speaker Reed.

WASHINGTON, April 18.—In the space of two hours the majority of the house of representatives reversed the policy that had guided them in the matter of counting a quorum, and voted for the resolution reported from the committee on rules, changing the rule so as to provide for the counting of a quorum by the aid of tellers—one from each side of the house. It received the support of all but 47 of the democrats who voted and of all the republicans and was adopted by a vote 215 to 134. The republicans did not record their votes on either side of the question. Democratic opponents of the rule refused to enter into an agreement to limit debate, and Mr. Catchings (dem. Miss.), in charge of the resolution, moved the previous question. This being ordered it cut off all debate except for half an hour. When the vote was announced Mr. Reed received an ovation from his republican colleagues, and from the galleries over the triumph of the principle for which he had contended.

The unfinished business was then speedily disposed of, the order of arrest of March 23rd was discharged, and the house entered upon the consideration of the diplomatic and consular appropriation bill and discussed the measure until 4:40 o'clock when an adjournment was had.

The unanimous consent under which the senate has been considering the tariff bill for the last week has been renewed and is to continue until 5 p. m. on Tuesday of next week. When one democratic senator is to have the floor for a couple of hours to close "general debate," after which the consideration of the bill, paragraph by paragraph, is to be begun.

As was explained in the course of discussion on the proposition this agreement does not preclude senators from making speeches that will cover the whole bill. Besides that a special reservation was insisted on by Mr. Hill that he might move to proceed to the consideration of the free list section before rates are fixed on dutiable articles.

The bill itself was not taken up yesterday until near 3 o'clock, and then speeches were made on it by two democratic senators, Mr. McQuinn, of Mississippi, and Mr. Smith, of New Jersey.

Notice of an amendment to the tariff bill was given by Senator Lodge, in line with his recent remarks on the resolution as to the coinage of Mexican standard silver. It proposes in reference to all articles, the product of Great Britain, or any of her colonies, to double the rates of duty provided in the bill, and where these articles are on the free list, to impose a duty of 35 per cent. ad valorem, and to maintain these additional and discriminating duties until Great Britain shall assent to an agreement in an international agreement, together with the United States, for the coinage of silver.

I will act as referee in such a contest, with the understanding that Wm. A. Mitchell, Henry Brown, of St. Louis, Wm. B. Curtis, of New York, and a medical man act as referees. I would desire that these gentlemen and myself arrange the tests. This would render everything fair and above board, and the tests would be of popular interest, as well as of scientific value."
