SWISS IN TENNESSEE.

There is a Swiss colony in Grundy county, Tenn., which seems like a part of a foreign country, so perfectly have they kept up their native habits and customs...

HONEY bees proved more than a match for two hundred men at a public sale the other day.

Whether a woman is poor or rich, it behooves her to acquire methodical business habits, keeping her little accounts accurately, and knowing to a cent just what she does with her money.

Some one of those many persons who are always fooling with the English language, trying to make it what it is not, started the silly idea that in the term "Welsh rabbit" the word "rabbit" was a corruption of "rare bit"...

One cannot help wondering what is going to become of the poor horse. People used to pity him when he pulled street cars, but now that a cable or an electric wire propels them one important occupation is gone.

SAMUEL SWANEY, of Washington township, Indiana, has an unusual claim to notoriety. A correspondent says Swaney was in Muncie the other day and exhibited his third set of natural teeth.

THAT high wages, at least within limits, make good work, is shown by the experience of contractors in dealing with skilled laborers.

The headquarters for fancy dress trimmings is McDonald's.

MEDICINE CABINET.

How a Nice One May Be Made at Small Expense.

It is a convenience to have a place in the house devoted solely to medicine bottles and boxes.

Get a carpenter to make a long box of pine, of whitewood, or walnut if you choose. Have it about eight inches wide and six deep; the length must depend somewhat on the place where it is to be set up.

A MEDICINE CABINET.

dull blue or golden brown, with a simple border outlined in gold thread, will be very pretty and cheap.

The cabinet is set on two stout fancy black or gilded iron brackets. It should not be set too high on the wall, as that would prevent an easy look at the bottles.

PIN MONEY POINTERS.

How a Woman May Acquire Methodical Business Habits.

Whether a woman is poor or rich, it behooves her to acquire methodical business habits, keeping her little accounts accurately, and knowing to a cent just what she does with her money.

In black and white one notes how much more easily the money can be spent, how quickly it goes, and just what foolish little nothings have lured it from our pockets.

Unless the accounts are kept accurately and cash made to balance every evening, you had better not attempt any bookkeeping at all.

If anything is worth doing at all, it is worth doing well, and there is nothing so productive of future good as the habit of looking carefully out for the pennies when school-days are the only trials, and the allowance of fifty cents a week goes for candies and pickles.

It is a pity that girls who are disposed to be witty at the expense of others do not know how unattractive they make themselves, and how often they offend against good taste.

He cannot be an unhappy man who has the love and smile of a woman to accompany him in every department of life.

MINES AND RAILROADS.

A new time table will go into effect on the Lehigh Valley on May 13.

Station agents and telegraph operators on the Lehigh Valley will not be required to wear uniforms in the future.

Anthracite coal production for this year up to yesterday aggregated 7,924,761 tons as against 10,802,115 tons in 1893, a decrease of 2,877,354 tons.

At the close of last year the Pennsylvania Railroad had 1,999 locomotives, 1,762 cars in passenger and 40,363 in freight service.

The jurisdiction of O. E. Esser, superintendent of the northern division of the Lehigh Valley, will next month be extended to include the Harvey's Lake and State Line and Sullivan branches.

A fire started in the Reading Company's Preston mine at Ashland on Thursday, and up to Saturday evening the men had not got control of the flames.

The Lehigh Valley is again examining the employes of that road for their sight and hearing. The examination is confined to engineers, firemen and switchmen, and those who have to do directly with the running of trains.

The telegraphers of Mauch Chunk, who were left idle by the late strike, were paid a month's benefits, \$35, on Thursday.

Authorities say that the strike in the soft coal regions has not yet improved the demand for hard coal, although it is bound to do so should the strike continue for any length of time.

Three advances in anthracite prices will be made between now and fall. They will consist of 25 cents each and will be made June 1, August 1 and either September 1 or October 1.

Rumors are afloat to the effect that a strike of the drivers and miners of the Susquehanna Coal Company at Nanticoke will take place on May 1.

The general sales agents of the anthracite coal companies met in New York on Thursday and decided to make no reduction in prices, either for the east or west.

The number of bituminous miners on strike is as follows: Alabama, 8,100; Tennessee and Kentucky, 6,000; Indiana, 5,000; Ohio, 26,000; West Virginia, 950; Illinois, 28,000; Iowa, 13,000; Indian Territory, 2,000; Missouri, 4,500; Pennsylvania, 65,000; Colorado, 1,500; Michigan, 300; total, 168,000.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable.

For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable.

WASHINGTON LETTER.

Washington, April 27, 1894.

At last there is harmony among the Democratic senators on the tariff and the party presents a united front to the enemy.

There is one consolation for the party. The tariff bill as it will be amended will be a decided improvement upon the McKinley law, and it will receive the vote of every Democratic senator.

The great speech made by Senator Mills, of Texas (many think the greatest of his life), in closing the general debate on the tariff bill, will probably be the last long tariff speech made on the Democratic side of the senate.

The local authorities have made all of their arrangements to receive Coxey's army which will arrive in Washington early next week.

Among the Republicans there are some who would not mind encouraging opposition to Mr. Jeffrey's nomination, but his opponents do not seem to be able to concentrate their strength upon any certain Republican.

The closeness of the vote for several elections past in the fourth district will make the result very doubtful. This uncertainty is also increased when it is considered that at least one-fifth of the voters here at present are not identified with any party, but vote according to the wishes of some English-speaking person who has control over them.

Parties supplied with ice cream, cakes, etc., by Laubach at reasonable rates.

Matters of a Local Nature Written Up and Placed Before the Readers of the "Tribune" by the Saunterer—Something Here May Interest You.

Though there is not much to be heard in legislative matters, I understand that the candidates on the Democratic side are feeling their way through the district.

Of his opponents, it is said that Anthony Reilly, of Hazleton, will be the candidate presented for the consideration of the convention by the Democracy of Hazleton and the South Side part of the district.
