What has Congressman Hines ever done to deserve a renomination from the Democratic party?

OUR SEVENTH YEAR.

With today's issue the TRIBUNE commences its seventh year, having completed four years as a weekly and two as a semi-weekly newspaper.

We gratefully acknowledge the aid which the local public has given the paper since its start, and we guarantee that the TRIBUNE will never fail in its duty to its friends.

It is a fact long since recognized, but of late frequently emphasized, that under every test, supreme or ordinary, the honorable senator from New York, David Bennett Hill, proves his right to be denied a place among American statesmen.

The movement which promises so much for the protection of boys—the anti-cigarette crusade—originated in the public schools of New York and is becoming national in its scope.

J. C. Weigand, the present efficient probonotary, announces that he will not be a candidate for renomination.

All right, stick to the above until the convention, and let us have a new set of candidates. But the ticket must be new clean through.

There is said to be a movement under way among a number of Democrats in this county to allow the present congressman to be nominated without opposition, and then "knife" him on election day.

Wall paper, 6 cents per double roll, at A. A. Bachman's. Paper hanging done at short notice.

PICKED UP BY THE WAY.

THINGS SEEN AND HEARD IN THE TOWN AND VICINITY.

Matters of a Local Nature Written Up and Placed Before the Readers of the "Tribune" by the Sauterer—Something Here May Interest You.

Hazleton council is looking about for a better water supply for that place, and the city engineer has been directed to make a survey to the Nescopeck and ascertain the practicability of procuring water from there.

The selection of E. P. Kisner as postmaster of our neighboring city was generally approved of when it was made, but since the surprise has worn off there are several who do not appear to be so elated over the result as was at first supposed.

Hines was known to have no particular love for Kisner, for the latter has been credited by the congressman with having helped to roll up the majority of 634 votes that Morgan B. Williams defeated him by in 1884.

The defeat he then sustained was a bitter blow to him, and though he recovered from it and afterward reached the goal, it was understood that he would repay his enemies with interest at the first opportunity.

For the first time in several years the Fourth of July has failed to arouse Freeland's patriotism to the extent of having a local observance of this great holiday.

SAUTERER.

PLEASURE CALENDAR.

July 3.—First annual picnic of the Star base ball club, at Freeland Public park.

TURPIE OF INDIANA.

One of the Democratic Leaders in the United States Senate.

One of the most popular members of the United States senate is David Turpie, of Indiana, although his ready tongue has frequently caused him and the democratic party, which he represents, considerable trouble and annoyance.

David Turpie, of Indianapolis, studied law and was admitted to practice at Logansport, Ind., in 1849; was appointed

SENATOR DAVID TURPIE, INDIANA.

by Gov. Wright, whom he succeeded in the senate, judge of the court of common pleas in 1854, and was judge of the circuit court in 1859, both of which offices he resigned; in 1853, and also in 1858, he was a member of the legislature of Indiana; in 1863 was elected a senator in congress for the unexpired term of Jesse D. Bright, and immediately succeeding Joseph A. Wright, who served by appointment of the governor; was elected a member of the house of representatives of the grand assembly of Indiana, served as speaker of that body, 1874-75; in 1878 was appointed one of the three commissioners to revise the laws of Indiana, serving as such three years; in August, 1880, was appointed United States district attorney for the state of Indiana, and served as such until March 3, 1887; was elected to the United States senate as a democrat, February 2, 1887, and took his seat March 4, 1887; was a delegate at large to the national democratic convention at St. Louis in June, 1888. His present term of service will expire March 3, 1890.

THE EUROPEAN WAR.

What the Famous Ex-Editor of La Lanterne Says About It.

Henri Rochefort, the celebrated French journalist, who, since the Boulanger trials of 1890 in Paris, has been living in exile in London, has been talking to an interviewer on the relations between France and Russia and the outlook for war in Europe.

HENRI ROCHEFORT.

limit, which is approved, as a matter of course, by our chamber, composed mainly of agriculturists, or their near relatives, who are anxious to see the price of wheat go up.

When the keeper of the snake-house at the Philadelphia zoo counted the slimy reptiles in the cage reserved for the indigo species, he was astonished to find one missing.

Negro Babies Not Black. At birth a negro child is of a reddish, nut-brown color, which turns to a slaty-gray in the first week of the child's existence, and the black color is not developed for a period varying from one to three years.

SCIENTIFIC NOTES.

ELECTRIC PINNOS, which play themselves, the keys being depressed as though by some unseen hand, are now being manufactured.

M. Wilks says that a temperature of one hundred and fifty-seven degrees below zero was registered at Verkhoyansk, Eastern Siberia, in February, 1892. This is the lowest temperature ever registered on the face of the earth.

We are told by Prof. Oliver Dodge, the celebrated physicist, that at the absolute zero of temperature (three hundred and seventy-three degrees C. or four hundred and fifty-nine degrees Fahrenheit) the molecules of a perfect gas would lie so inert that they could be swept together in piles on the floor.

It costs about forty-seven hundred and fifty dollars per shot to fire one of Krupp's one hundred and thirty-ton steel guns. The gun cost one hundred and ninety-five thousand dollars, and it can only be fired, at the most, sixty times.

A HANOVERIAN botanist named Welmer, it is reported, has discovered a microbe in the atmosphere, pure cultures of which will convert sugar into an acid identical with that of the lemon. This discovery is expected to revolutionize the citric acid industry and injure the lemon growers.

STATISTICAL.

THE receipts from internal revenue for the past 10 months of the present fiscal year aggregate \$119,140,347, a decrease of \$13,341,775 as compared with the corresponding 10 months of 1893.

Of the \$20,305,985 worth of textile machinery exported by Great Britain in the year 1893 only \$2,443,320 was sent to the United States, pointing to how well builders of machinery in this country supply the wants of domestic manufacturers of textiles.—Bradstreet's.

THE foreign trade of Japan, according to a Japanese statistical review, increased last year over the year preceding by 15,000,000 "ryen," about \$15,000,000. The entire export was valued at about \$80,000,000. The chief buyer of Japanese stuffs is the United States, \$33,750,000 of the \$80,000,000 having been paid by this country.

THE exports of iron and steel from Great Britain for the four months to April 30 show a decided decrease. This year the total amount was 772,325 tons, valued at \$5,773,901, while in the corresponding period of last year it was 801,533 tons, valued at \$5,881,840; the diminution in quantity being 10.4 per cent., and in value 16.1 per cent.

SOME GREAT COMPOSERS.

FREDERICK THE GREAT left over one hundred songs of his own composition. BENNETT was fond of stout, but would not drink the bottled variety.

HUMMEL worked best arrayed in a full dress suit. He said his ideas then flowed more easily.

CLEMENTI frequently rewrote his piano-forte sonatas four or five times before allowing them to be published.

HALEY liked smoking, and always composed best with a long pipe in his mouth, the bowl resting on the floor.

PICINI was a very quiet, peaceable man, and was greatly annoyed by the difficulty with Gluck, which was forced upon him.

WEBER was very temperate in his habits, but insisted on drinking three glasses of wine and no more every day with his dinner.

CLEMENTI's music manuscript was so perfect it looked almost like print. He took especial pains with the appearance of all his work.

SPENTINI declared that with him nature was the best inspiration. His choicest compositions were conceived in the fields and woods.

SULLIVAN does not write more than one or two songs a year. He receives hundreds of poems for music, but generally does not read them.

TAXES AND TAXATION.

THE house tax in Greece brings \$400,000 a year. THE tithes in England amount to \$4,050,000 a year.

RUSSIA raises \$1,500,000 a year by the sale of passports. IN the time of Queen Anne soap was taxed \$28 per ton.

A TAX on dogs was levied in Rome during the reign of Nero. IN 1888 the people of Great Britain paid taxes on 492,200 carriages.

IN Portugal the tobacco tax brings \$900,000, the land tax \$700,000. IN parts of Peru taxes are paid in cocoa leaves and Peruvian bark.

THE soap duty in Holland brings \$750,000 a year to the government. CHARLES II. farmed all the customs for an annual payment of \$300,000.

A HEALTH tax was formerly assessed in many of the German states. THE rate of taxation has nearly quadrupled in France since 1830.

MALE servants are taxed in Great Britain and several other countries.

SCHOOL ENTERTAINMENT.

Commencement Exercises of the Pupils of St. Ann's Parochial School on Tuesday Evening.

The basement of St. Ann's Catholic church was crowded to the doors on Tuesday evening by the hundreds who wished to witness the commencement exercises of the pupils of St. Ann's school.

Presentation of Medals for Music By Rev. M. J. Fallihee. To Master F. O'Donnell for regular attendance and Miss C. Brennan for application.

Closing... St. Patrick's Cornet Band The pupils and others who participated in the above performed their parts most creditably, showing that their instructors have spared neither time nor labor in developing the talents of the little ones.

Their drills, marches and songs were rendered in an entertaining manner, and the work of the music pupils was of the very best. The programme was thoroughly enjoyed by all, notwithstanding the discomfort caused by heat and the crowded hall.

The school, which has just closed a ten months' term, had over 400 pupils the past year, and their work on Tuesday evening gave ample proof of the excellent education they are receiving from their teachers. The method of teaching, and the admirable system by which the schools are graded, advances the pupils quickly, as is shown by those who graduate easily every year from the normal schools with only one year's studies in those institutions after leaving the parochial school.

How's This! We offer One Hundred Dollar Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O. We the undersigned have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.

WERT & TRUAX, Wholesale Druggists, Toledo, O. WARDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.
