

FREELAND TRIBUNE.

PUBLISHED EVERY MONDAY AND THURSDAY.

THOS. A. BUCKLEY, EDITOR AND PROPRIETOR.

OFFICE: MAIN STREET ABOVE CENTER.

SUBSCRIPTION RATES. One Year... \$1.50 Six Months... 75 Four Months... 50 Two Months... 25

Subscribers are requested to observe the date following the name on the labels of their papers. By referring to this they can tell at a glance how they stand on the books in this office.

What has Congressman Hines ever done to deserve a re-nomination from the Democratic party?

If Cox should get control. From the Weatherly Herald.

There is one railroad coal operator in the Lehigh Valley that is not in politics, so far as his men are concerned, and that is that sound, sensible, brainy man, Hon. Eckley B. Cox, of Drifton.

Of such trickery and treachery Mr. Cox has never been accused and the offices he has filled in his life were filled as a benefit of the people and in the interest of them.

What Part Gets Drunk? From the Lansford Leader.

What part of the human machine is it that gets drunk, the mind or the body? It is a common thing to see a man with a sober mind and a drunken body.

In another man it is the mind that gets drunk, while the body retains all its powers of locomotion. That body makes a show of itself; it has no control over its mouth, it squares off with its arms, it intrudes where it is not wanted.

A Love Letter in Butter. A few days ago a Pittsburg citizen cut into a pound of butter which he had purchased at a grocery store whose proprietor does not advertise, and found therein a small tin box, which contained paper bearing the following and written in a neat feminine hand:

"I am a girl eighteen years, good looking and an excellent housekeeper. Should this be found by some unmarried Christian gentleman, will he write to the following address, etc."

The finder, being a bachelor, decided to unravel the affair, and succeeded, only to destroy the romance. The girl who had written the note had died many years ago, leaving an aged husband and a grown family.

The President of Lehigh. From the Bethlehem Times.

When the Lehigh university men return in September they will probably be under the rule of a new president of the university. Dr. Coppee, who is now acting president, said that in all probability a new president will be announced in the summer.

Referred to His Benchmen. From the Shickelmy Echo.

In double leaded pica italic the FREELAND TRIBUNE asks: "What has Congressman Hines ever done to deserve a re-nomination from the Democratic party?"

See McDonald's \$2.98 chenille curtains.

WASHINGTON LETTER.

Washington, D. C., June 29, 1894.

President Cleveland has decided to remain in Washington until the conference committee disposes of the tariff bill. So says Private Secretary Thurston, who ought to know if anybody does.

It is well known that there are hundreds of employes of the government who are credited to Democratic congressional districts without the consent or knowledge of any Democrat residing in the district and that many of them have never been within 500 miles of places which are given upon the department books as their homes.

President Cleveland's nomination of Charles DeKay, literary editor of the New York Times, to be consul general at Berlin, was disappointing to a considerable number of Democrats in both senate and house who had endorsed working Democrats for the place.

The Democrats of the house redeemed the last of their pledges to the territories by passing, this week, the bill for the admission of New Mexico as a state.

Coxey says he expects the Democratic congressional convention in his district to endorse his candidacy for congress.

The president has approved the bill making the first Monday of September of each year a national holiday, to be known as Labor Day.

The new Nicaragua canal bill has been approved by the committee and favorably reported to the house. It provides for the issue of \$70,000,000 in 3 per cent bonds to be used by the United States in the purchase of 70,000 shares of stock out of the 83,000 to be issued.

Patents were issued last week to D. McCarthy, Miners Mills, for a car-axle lubricator; W. M. Cummings and T. F. Jordan, Olyphant, adjustable lock cover for books, and F. A. Pocock, Scranton, traction device for canals.

PRETTY SHOE POCKET.

Made of Dark Red Denim and Pretty Ornamented.

Because a thing is useful is no reason why it should not also be pleasant to look at. The handsome, dark red denim which is found in all art stores at present makes an attractive and extremely serviceable shoe bag.

ORNAMENTED SHOE POCKET.

The top, join with a seam on the sides and bind the seam at the bottom with white braid stitched on with red silk and adorned with fancy stitches done in white linen.

THE MARKETING CARD.

It Renders Household Duties Lighter to Mistress and Maid. Have you ever added to your kitchen furnishings a "marketing card"?

A Boston cooking-school originated the idea of the card. It consists of a light wood frame provided with slips of wood, upon which are marked the names of different householding stores.

Slots are arranged into which the wooden slips can be moved, showing up plainly against the light background. This plan is most successful in maintaining a well-filled larder.

The latest in Umbrellas. In women's umbrellas black is fast disappearing, giving place to colors, and changeable ones at that.

Strawberry Shortcake. Make the dough as usual. Instead of rolling out and placing on flat tins to bake, roll and then cut out with a large-size biscuit cutter or coffee cup.

Recipe for Nesselrode Pudding. One quart of milk and cream (mixed), one-half pound of sugar, the yolks of four eggs, one ounce each of powdered sweet almonds, preserved cherries and preserved currants, and one pound of preserved peaches.

Hot Water for Bruises. There is nothing better, after all, for a bruise than hot water, as hot as can be borne. If it is assiduously applied, more being used so soon as the first has cooled at all, there is little likelihood of any permanent discoloration following the hurt.

PICKED AND SORTED.

Eighty-five per cent. of the English barristers have nothing to do.

A SINGLE nerve, the pneumogastric, supplies the heart, lungs, stomach and bowels.

THE eight-hour day is to become universal in all British governmental establishments.

There are more than twelve hundred ordained priests of the Anglican church without parishes.

The huge guns of modern navies can be fired only about seventy-five times when they are worn out.

In Paris when a local shopkeeper advertises to sell at cost he must keep his word or the government will compel him to tell why.

An ordinary piano contains a mile of wire string and noise enough can be made on it to affect a whole neighborhood with nervous prostration.

RUDYARD KIPPLING'S "The Man Who Would Be a King" is pronounced by a London bookseller "the most remarkable short story in the English language."

THE Alps have no more devoted lover in any land than her majesty Queen Margherita of Italy. King Humbert is also an enthusiastic lover of Alpine sport.

SEA snakes can always be recognized by the flattened, or-like tails with which they steer their way through the waves. They appear to be invariably poisonous.

An advertisement in the London Telegraph recently for a governess for two little girls at one hundred and twenty-five dollars a year brought one hundred and sixty-two replies in two days.

THE Florida state board of health has plans and specifications made for a disinfecting station at Fernandina, to cost \$10,000.

HENRY IRVING recently made a speech ridiculing pugilism. The rumors of J. J. Corbett's historic success seem to be confirmed.

DR. JOHN CONTEE FAIRFAX, of Maryland, is the only English peer who is an American citizen. He has never taken his seat in the house of lords.

CONAN DOYLE and Stanley J. Weyman are doing a great work in proving that contemporary novelists can gain popularity outside of the rotten and riotous realm of erotic and neurotic fiction.

SIR GEORGE WILLIAMS, who founded the Young Men's Christian association, is a retail storekeeper. He is president of fully thirty religious and philanthropic societies and a director in as many more.

Mrs. VANCE, widow of the late senator from North Carolina, is preparing for the press an elaborate biography of her husband. His career contained many romantic and dramatic incidents, and the book is likely to prove very interesting.

READERS of "Hooster Schoolmaster" will remember Phillips, the champion speller of the Indiana school described therein. Phillips still lives in Vevey, Ind., Dr. Eggleston's old home, and will soon be seventy-three years old.

BROTHER JOSEPH, who is voluntarily spending his life at Molokai and devoting it to the lepers in that settlement, is Ira P. Dutton, a native of Vermont, who adjudicated war claims in the border states after the civil war for the federal government.

GEN. HENRY B. CLEAVES, who has been renominated for another term as governor of Maine, entered the army as a private when he was twenty-two years old, and worked for some time in a cash and blind factory after the war before taking up the study of law, in which he has accumulated a large practice.

A. W. TERRELL, United States minister to Turkey, is having two silver and gold-mounted saddles made at San Antonio, Tex. He will present them to the sultan of Turkey and that ruler's favorite son.

The additions to be made to the faculty of Stanford university, California, for the next college year will include Nathan Abbott, who is to be the permanent head of the law department; William Stuart Symington, assistant professor of Roman languages; Frederick L. O. Roehrig, lecturer of oriental philology; and Vernon L. Kellogg, associate professor of entomology.

THE twentieth century begins January 1, 1901.

The smallest bird in the world is the golden-crested wren.

The best remedy for the presence of ants is cayenne, sprinkled freely in their haunts.

The brain of an ant is larger in proportion to its size than that of any other known creature.

UNITED STATES mail wagons have the right of way against ambulances and fire department apparatus.

The wages of female servants in Prussia range from \$14.28 to \$71.40 per year; of males, \$23.80 to \$95.20.

MANY scientists now believe that the atmosphere is not less than one hundred miles deep, and may be two hundred.

On many railroads of Germany the station agents are permitted to keep bees, which thus form a small source of income.

The laborers in every occupation are paid from two to five times as much in the United States as in any country in Europe.

PICKED UP BY THE WAY.

THINGS SEEN AND HEARD IN THE TOWN AND VICINITY.

Matters of a Local Nature Written Up and Placed Before the Readers of the "Tribune" by the Saunterer—Something Here May Interest You.

It seems to be a source of much amusement to some of the locomotive engineers who run into Freeland to destroy cattle that may happen to get in the way of their engines whenever a good opportunity occurs.

There are times when heavy trains are running on grade that it is impossible for engineers to slow up for cows and avoid killing them, but seldom, if ever, are any of these trains run on the Freeland branch.

After many months of waiting it appears that the Points and Birvanton are about to be admitted to the borough. The change cannot possibly be of any disadvantage to the residents of the Points, but it may be the cause of improving their sanitary surroundings and preventing the disease that lurks in the alleys from getting a start.

There are a few spots in the borough that also might be improved. They do not happen to be quite so prominently located as those in the Points, but their power to breed disease is just as great, and attention cannot be given them any too soon.

Speaking of annexation, I see no reason why a movement should not be started now to bring in South Hebron, Alwintown and Cox Addition. The Points was always the worst opponent among the outlying sections, and since it has surrendered, the job ought to be completed this year by taking into the fold all that is really a part of the town.
