FREELAND, PA., JULY 23, 1894.

WASHINGTON LETTER.

Washington, D. C., July 20, 1894.

Political ingratitude is so common in Washington that it seldom attracts more notice than a passing notice, but the apostasy of Representative Denson, of Alabama, who has written a letter announcing his withdrawal from the Democrats and his intention to act with the Populists hereafter, is such a glaring case and his object so plain to all that it is receiving more attention than it really deserves.

Said an Alabama Democrat: "The reason given by Denson for leaving the Democratic party—his inability to support President Cleveland and his financial policy—is absolutely ridiculous when the fact is remembered that he owes his seat in the house to President Cleveland, who, during his first administration, appointed him United States district attorney for the northern and middle districts of Alabama, thus giving him the prominence which enabled him to get nominated and elected to congress two years ago. Now President Cleveland, as all the world knows, has not changed the financial ideas he held during his first term. It is Denson who has changed, and the reason, while obvious, is not flattering to him. The third party has been strong in his district for several years—he only beat his Populist opponent by 1,800 votes in a total of more than 20,000—and Denson believes it will carry the district this year and is willing to be elected to congress as a Populist rather than to chance being defeated as a Democrat. Such men can be spared by the Democratic party."

Representative Bland, of Missouri, proposes to put the newly-found friendship for silver which so many Republicans are professing to the test, by getting a bill for the free coinage of silver reported from the house coinage committee, if he can manage to get a quorum of the committee who are favorable to the bill together soon. Owing to the absence of the members and the nearness of the close of the session the chances are against Mr. Bland succeeding. Another thing that adds to the chances against him is that a considerable number of members of the house, many of them Democrats, are strongly opposed to any further agitation of the silver question at this time, and still more opposed to the taking of a record vote on the Bland bill.

Representative Bailey, of Texas, was made happy this week when the house, by a vote of 127 to 81, passed his voluntary bankruptcy bill. He has maintained ever since the Torrey bankruptcy bill was defeated that a majority of the house favored a national bankruptcy law, and that it was only because the Torrey bill put it in the power of creditors to force a man into bankruptcy when he considered himself solvent that it was defeated. The vote on Mr. Bailey's bill, which makes a man judge of his own solvency, indicates that his judgment was correct.

The senate committee on territories decided at its meeting this week that although the Utah bill first became a law, Arizona and New Mexico should be admitted to the union at the same time, and directed that bills therefore should be ready by its next meeting.

Representative Springer, of Illinois, was this week given a hearing by a subcommittee of the house committee on labor, on his bill providing for compulsory arbitration of all disputes between employer and employes, by a national board of arbitrators. Mr. Springer claims that his bill covers every possible contingency that may arise, and that if it be enacted into a law a long step has been taken towards the solving of the problem which has been so troublesome of late. A number of bills dealing with the same subject are being considered by the subcommittee.

He must be a queer sort of a Democrat who can get any satisfaction out of the present tariff situation. The report of a general disagreement as the result of nearly two weeks' work on the part of the house and senate conferees certainly does not look encouraging, although some of the gloom is lifted by the knowledge that while the disagreement is for reasons satisfactory to the con-

ferrees reported to be general, it is in fact only over some half a dozen of the senate amendments, including sugar, coal and iron ore, the house conferees insisting that they should go on the free list, as in the Wilson bill, and the senate conferees that they shall remain as passed by the senate. It is not clear just at this time what the outcome is to be, but I cannot believe that the Democrats in congress will be willing to carry the disagreement to the extent of allowing the McKinley law to remain in force, as is now being jubilantly predicted by the Republicans. It would be better, if the conferees after another attempt fail to reach an agreement, to call in some prominent Democrats from the outside and let them arbitrate. The Democratic party has promised the country a tariff law and it will be suicidal for the Democrats in congress to fail to keep that promise.

POLITICAL PICKUPS.

The mention of District Attorney Garman's name in connection with the congressional nomination has been favorably received in every part of the county. With Garman for congress, Rhone for judge, O'Boyle for district attorney, Weigand or McClure for prothonotary, Beidelman for clerk of the courts, and a good man for jury commissioner, the Democrats could make a winning fight next fall. Wilkes-Barre, Nanticoke, Pittston, Hazleton and Shicklesville would be represented, and the full vote could be polled. Every section would do its best to give the old party a sweeping victory.

John Lavin, of Ashley, has announced himself an independent Democratic candidate for representative in the sixth legislative district. He alleges that S. S. Staples, who was nominated, did not win fairly.

Congressman Hines will not worry himself with the affairs of the nation in this hot weather. Instead of staying at Washington and working for the success of the tariff reform bill he is airing himself at his summer residence at Lake Ida, formerly known as Sock's Pond. Billy don't care who makes the laws if he is allowed to draw \$5,000 a year and sell official appointments.

Should Receive the Support of All.

From the Hazleton Standard. The nomination was perhaps not entirely satisfactory to all, but since a majority of the voters of the district through their delegates expressed their desire to have McNelis nominated it is hoped the nominee will receive the support of all Democrats at the election in November. The convention was harmonious throughout, and to be successful at the polls in November the friendly feeling manifested at the convention must be continued until after the polls close and the ballots are counted.

What More Could He Expect?

From the Wilkes-Barre Newsleader. The Democratic national and state administrations were endorsed by the fourth district Democrats, but no mention was made of the candidacy of Hines for congressman, and he was practically ignored.

Free from Mud-Slinging.

From the Hazleton Plain Speaker. Mr. McNelis won in a fair contest, entirely free from mud-slinging and recriminations that have marred many a campaign in the past and deserves the entire support of his party.

They Have Never Been Estranged.

From the Wilkes-Barre Newsleader. Editor Buckley, of the FREELAND TRIBUNE, and his party ought to become reconciled.

Watch the Vote Next November.

From the Wilkes-Barre Record. The fourth district Democratic convention ignored our friend Hines. Too bad, too bad. Can it be that William's power is waning down there, and that the action of the legislative convention is but a forecast of what awaits him at the polls?

Democrats Must Hustle.

From the Hazleton Plain Speaker. Mr. McNelis is a man too well-known to need any introduction to our readers, and as chairman of the district committee showed himself well fitted to fill the position for which he has been nominated a candidate. This will be, however, a bad year for Democrats, but by united and increasing effort there is every probability that Mr. McNelis will be elected. It now becomes the duty of every Democrat to get out and hustle and for the good of the party leave no stone unturned to elect John J. McNelis as representative from this fourth district. In years past a feeling almost reaching a feud has existed between the Democrats of this end of the district and those of Foster. If the Democrats expect to win, this foolish feeling must be put aside. Only the vote of the entire party can carry the election and every Democrat will see that factional differences are obliterated and fought in the coming struggle.

Recognized a Fraternal Soul.

He was a commercial traveler of the more flashy type and had just finished telling a startling story to his newly-made acquaintance in the car. "That reminds me of one of Munchausen's yarns," remarked the victim for want of something better to say. "Munchausen—who is he?" "Why, don't you know about him? He is the most colossal example of mendacity that civilization has produced."

A brief painful silence ensued, which was broken by the traveler in a tone that was almost timid. She said she could not find any worm holes in any of 'em. She said they weren't old enough. "Hum! Could Ride as She Paid.

A local bargain-hunter who does sharp figuring was going to the west-bound train the other day with her daughter, a little girl. "How much will it be?" she asked the hackman. "Half a dollar," said he. "Well," said she, "I haven't any baggage, no trunk, you see, and my daughter is very small; couldn't you consider her as equal to a trunk, and take us both for one fare?" "Yes," said the obliging hackman. "I will take her as a trunk, provided she will ride upon the baggage rack." They paid fifty cents for the ride.—Lewiston Journal.

"Do you think Algernon and Ethel will get along nicely when they are married?" said one lady to another. "I am sure of it," was the reply. "I took care to find out shortly after they were engaged."

Washburn's Circus.

From the Lowell, Mass., Times. Two exhibitions were given yesterday by Washburn's new united show—one in the afternoon and the tent was filled to repletion in the evening. The riding, aerial, parallel bar, tumbling, and other acting was executed in first-class style by first-class acrobats. For obtaining an idea of life in the wild west, the exhibition by the cowboys is remarkable, and introduces many exciting scenes. The tricks performed by the animals are also exhibited in adjoining tents. Order is preserved as there is no time wasted between the acts, one act being followed immediately by another. One who spends his money on this circus will never regret it. It is a show well worth the price paid.

The First Big Show of the Season.

From the Newport R. I. News. Last evening's performance of Washburn's show drew a crowd that filled every seat in the tent, and many were obliged to stand. The performance given was in every way a first-class one. Among the best performances given was the contortion act by Lowell, which was as good, if not better, than anything seen here in a long time. The slack rope performance was an exceedingly pleasing exhibition, as was the single trapeze work by Mlle Mendoza and the double trapeze performance by Mlle Mendoza and Maynard. The Vernon brothers did the swinging trapeze, jumping and catching act from the top of the tent as perfectly as it had ever been done in this city, and added to it some new features.

The closing performance, the wild west, took the place of the stereotyped circus riding, and in the opinion of many was a great improvement, the whole being exceedingly well done. The usual trick of picking up handkerchiefs, losing, rasing ponies, and pony against man, were all well carried out. The many fakirs who hang out on other like shows were absent. The single side show contained many interesting features and seemed to greatly please all who attended.

Mansfield State Normal School.

Prospective teachers receive material aid from the state, reducing expenses for board, tuition, light, steam heat, and washing (42 weeks), in the junior year, to \$168, and in the senior year, to \$118. Four large buildings, all heated by steam; fine athletic grounds; healthful location; ample accommodations; thorough discipline. Fall term opens August 29, 1894. For catalogue and information address Samuel H. Abro, A. M., Ph. D., Principal, Mansfield, Pa.

Trouble Ahead.

The electric cars have not yet reached town, though the wires and track are all in position. The delay is caused by some trouble at the two points where the crossings are to be put in over the Valley tracks. It seems that the two companies cannot come to terms, and the railroad is determined that the crossings referred to will not go in until a settlement is reached.

On Saturday and last nights the railroad company evidently expected that an attempt would be made to put them in, so they run engine 110 and a caboose across the line and were prepared to resist any forcible effort on the part of the trolley company.

The trolley wire was completed yesterday at 6 p. m. to McDonald's store, Centre and South streets, a number of workmen having been engaged upon it all day.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. PICKED UP BY THE WAY.

THINGS SEEN AND HEARD IN THE TOWN AND VICINITY.

Matters of a Local Nature Written Up and Placed Before the Readers of the "Tribune" by the Sauterer—Something Here May Interest You.

The discussion brought about by the widening of Johnson street has caused the residents of Pine street to become very uneasy, and several of them are preparing to appear before the council for information concerning the delay in not opening that street. They say the treatment that they are receiving is extremely unjust and that their privileges are absolutely nothing when compared with other taxpayers and citizens of the borough. Twice viewers have been appointed by the court to adjust all claims that the street might be opened, but each time when the matter was returned to court that was the last heard of it, and now a third attempt will be made to bring this question before the authorities and see if some relief cannot be obtained.

It is a fact that cannot be denied with any consistency, that the residents of that portion of town are placed in a peculiar position, and matters are so complicated that it is difficult to see a way out of it and at the same time please all parties concerned. Hemmed in as they are on all sides, with the exception of the alley in the rear of the lots, it is anything but a pleasant place to reside while it remains in the condition it is at present, and that they are getting restless again is not surprising. No one who has seen the place will dispute their right to agitate the matter to a final settlement, though they are themselves not fully satisfied with portions of the decision as given by the last viewers.

The two plots of ground that prevent the opening of that street are owned by Mr. Cunningham and Mr. Birkbeck. It is understood that the decision given by the viewers on the former's property was acceptable, but upon Mr. Birkbeck's property the amount allowed was considered by him insufficient and it is said he refuses to part with it until he receives a fair consideration. Then the residents were assessed something more than \$50 each to compensate Messrs. Cunningham and Birkbeck for the ground taken for the street. This was not satisfactory to them, and they say it is an injustice to compel them to buy a street. Thus the matter stands, and until it is settled these residents will be isolated from the rest of the community.
