CLEVELAND'S REASONS

For Not Signing the Tariff Measure.

The Bill Not Consistent With Democratic Ideas of Tariff Reform—Livery of the Party Stolen and Worn in Service of Republican Protection—The People the Sufferers.

Washington, Aug. 28.—President Cleveland has written the following letter to Representative Catchings, of Mississippi, in which he sets forth his views of the new tarriff law, and gives his reason for not approving the bill:

My Dear Sir—Since the conversation I had with you and Mr. Clarke, of Alabama, a few days ago, in regard to my action on the tariff bill now before me, I have given the subject further and more serious consideration. The result is I am more settled than ever in the determination to allow the bill to become a law without my signature.

When the formation of legislation which it is hoped would embody democrate ideas of tariff reform was lately entered upon by the congress, nothing was further from my anticipation than a result which I could not promptly and enthusiastically endorse.

It is therefore with a feeling of the utmost disappointment that I submit to a denial of this privilege.

I do not claim to be better than the masses of my party, nor do I wish to avoid any responsibility which, on account of the passage of this law, I ought to bear as a member of the democratic organization. Neither will I permit myself to be separated from my party to such an extent as might be implied by my veto of tariff legislation, which though disappointing is still chargeable to democratic effort. But there are provisions in this bill which are not in line with honest tariff reform, and it contains inconsistencies and crudities which ought not to appear in tariff laws of any kind. Besides, there were, as you and I well know, incidents accompanying the passage of the bill through the congress which made every sincere tariff reformer unhappy while influences surrounded it in its latter stages and interfered with its final construction, which ought not to be recognized or tolerated in democratic tariff reform counsels.

And yet, notwithstanding all its vicissitudes and all the bad treatment it received at the hands of pretended friends, it presents a vast improvement to existing conditions. It will certainly lighten many tariff burdens that now rest heavily upon the people. It is not only a barrier against the return of mad protection, but it furnishes a vantage ground from which must be waged further aggressive operations against protected monopoly and governmental favoritism.

I take my place with the rank and file of the democratic party who believe in tariff reform and will know what it is to refuse to accept the results embodied in this bill as the close of the war, who are not blinded to the fact that the livery of democratic tariff reform has been stolen and worn in the service of republican protection, and who have marked the places where the deadly blight of treason has blasted the counsels of the brave in their hour of might.

The trusts and combinations—the communism of pelf—whose machinations have prevented us from reaching the success we deserved, should not be forgotten or forgiven. We shall recover from our astonishment at their exhibition of power, and if then the question is forced upon us whether they shall submit to the free legislative will of the peoples' representatives or shall dictate the laws which the people must obey, we shall accept and settle that issue as one involving the integrity and safety of American institutions.

I cannot be mistaken as to the necessity of free raw materials as the foundation of logical and sensible tariff reform. The extent to which this is recognized in the legislation already secured is one of its encouraging and redeeming features, but it is vexatious to recall that while free coal and iron ore have been denied us, a recent letter of the secretary of the treasury discloses the fact that both might have been made free by the annual surrender of only about seven hundred thousand dollars of unnecessary revenue.

I am sure that there is a common habit of underestimating the importance of free raw materials in tariff legislation, and of regarding them as only related to concessions to be made to our manufacturers. The truth is their influence is so far-reaching that if disregarded a complete and beneficent scheme of tariff cannot be successfully inaugurated.

When we give to our manufacturers free raw materials we unshackle American enterprise and ingenuity and these will open the doors of foreign markets to the reception of our wares and give opportunity for the continuous and remunerative employment of American labor.

With materials cheapened by their freedom from tariff charges the cost of their product must be correspondingly cheapened. Thereupon justice and fairness to the consumer would demand that the manufacturers be obliged to submit to such a readjustment and modification of the tariff upon their finished goods as would secure to the people the benefit of the reduced cost of their manufacture and shield the consumer against the exaction of inordinate profits.

It will thus be seen that free raw materials and a just and fearless regulation and reduction of the tariff to meet the changed conditions, would carry to every humble home in the land the blessings of increased comfort and cheaper living.

The millions of our countrymen who have fought bravely and well for tariff reform should be exhorted to continue the struggle, boldly challenging to open warfare and constantly guarding against the treachery and half-heartedness in their camp.

Tariff reform will not be settled until it is honestly and fairly settled in the interest and to the benefit of a patient and long suffering people.

Yours, very truly,
GROVER CLEVELAND.

He wanted the facts to present at the meeting of the board, which will probably be called together in Boston next Monday to consider the New Bedford strike.

He was one of the pioneers of the furniture industry in the west.

Newark, N. J., Aug. 22.—There is weeping and wailing in the Italian colony over the sudden disappearance of Giovani de Fuscio, who conducted a "Banca Italiana" at No. 24 Boyden street. De Fuscio was supposed to be wealthy and the owner of a valuable row of brick houses of Boyden street, where his bank was located. The aggregate amount of which he absconded with is not obtainable, owing to the excitement among the depositors.

The cause is not known.

assessor in Hanover township he was elected a member of the Pennsylvania legislature in 1878 and again in 1879, 1882 and 1883. He was elected a state senator in 1887 and as congressman in 1892.

Daniel LaPorte Rhone, the candidate for orphans' court judge, is the present incumbent of that place and is serving his second term. Mr. Rhone was born at Cambria, January 19, 1838. He attended the public schools of Huntington and also the Dickinson seminary, Williamsport, and Wyoming seminary. He was admitted to the bar April 1, 1861. At the breaking ont of the war Mr. Rhone entered Company C, Eighth Pennsylvania volunteers, and served in the commissary department during the service of his regiment. Mr. Rhone was elected district attorney in 1867. He was a member of the constitutional convention from the thirteenth district in 1872, but resigned. In 1874 he was elected judge of the orphans' court and in 1884 was again honored with the place, this time without opposition.

Peter Aloysius O'Boyle, the candidate for district attorney, is a native of Ireland having been born in Killfine parish, County Mayo, November 10, 1861. In 1865 his parents came to Amorica and settled at Pittston, where he has since made his home. Mr. O'Boyle received his education in the public schools of Pittston, and was a law student in the office of Alexander Farnham. He was admitted to the bar in 1885. During the past term Mr. O'Boyle has been assistant district attorney and has been a thorough, painstaking officer. He is a clever lawyer and an eloquent speaker.

Jacob Schappert, of Nanticoke, the candidate for prothonotary, is a native of Newtown, this county, and is about 35 years of age. Several years ago he established a paying grocery business in Nanticoke. He would make an excellent public officer.

John H. Rice, the candidate for clerk of the courts, is well-known. He was born at New Philadephia, June 24, 1856, and at an early age entered the employ of the Lehigh Valley Railroad Company as a tool carrier. He gradually worked himself up until he became one of the best known and able engineers in the service of that company. Mr. Rice was chairman of the grievence committee of the employes of the Lehigh Valley, and during the last strike naturally took a prominent part, for which he was marked, and when the trouble was over lost his position.

RESOLUTIONS.

The following are the resolutions adopted by the convention:

Resolved, That the Democrats of Luzerne county heartily endorse the administration of Grover Cleveland and his efforts to secure su h legislation to relieve the country from the oppressive influence and disastrous effects of the Republican legislation of the past thirty years.

Resolved, That we also endorse the able and honest administration of the affairs of the state of Pennsylvania by her favorite son, Robert E. Pattison, who, by rigid economy, faithful enforcement of the law, has given our grand old state good financial credit; has demonstrated that in Pennsylvania the government is one of law and not of anarchy, and has given us an administration free from scandal—clean, pure and able.

Resolved, That we charge the Republican party with the political crime of false pretense, by its representatives in congress, in that whilst having obstructed all efforts to relieve the stringency of the times by honest legislation, they brazenly charge the Democratic party with cowardice and hypocrisy, for having failed to keep its pledges made to the people of the United States in the platform accepted at the national convention held in Chicago in 1892. We charge that the Republican party has shown itself to be incompetent and hypocritical in that with thirty years of absolute power held by large majorities in both branches of congress their laws have produced the direst results; thus demonstrating their incompetence. Their admission that the silver bill was bad legislation convicts them, against every effort to relieve the country of the oppressive burdens of their vicious legislation. They have presented a solid front in congress, thus demonstrating their dangerous tendencies.

Their fight for trusts and favored interests convicted them.

By imputing the late hard times to the Democratic management they demonstrate their hypocrisy. It is the old cry of stop thief of the criminal and as a means to direct attention from the evil results of their bad laws, and this is sufficient to prove them ignominiously guilty.

Resolved, That we commend the ticket nominated this day to all well thinking citizens as being composed of men who have always fought in the front ranks of the party, who have always stood for the administration of government in favor of the masses instead of the classes; the party of patriotism and virtue to which the United States as a nation is everything and individuals, as such, are not protected in such a manner as to demoralize the whole.

Resolved, That the Democratic party is the only party that can be trusted to emancipate the people of the United States from the enforced and unwilling slavery into which they have been plunged by Republican misrule, and that the only method to regain the full liberty due to American citizens is to give to the Democratic party the same absolute power by large and untrammelled majority to emancipate, as the Republican party had to enslave. Then and not until then will the power of monopolies and trusts be impotent and harmless.

We, therefore, conjure every Democrat here today to go home from this hall, and to bend every effort to the interest of our great and glorious cause, by using every honest effort to give to our grand old party the majorities necessary to show their approval and to show the might of eternal justice.
