

NEW YORKS WINNERS.

Four Games End the Temple Cup Series.

New York, Oct. 9.—The New Yorks have won the Temple cup and will receive 65 per cent. or about \$22,000 after all expenses have been paid. The champion Baltimore were never in the game at the Polo grounds, and were badly thrashed. It was the New York's fourth consecutive victory, and 11,000 persons went wild with delight. Meekin pitched a magnificent game from the start to finish and but for errors by Fuller and Davis the champions would have been shut out. Hawke began pitching for Baltimore but after four innings, in which he was pounded hard, he gave way to Kid Gleason, who was very easy to find. In all, Ward's men rolled up twenty safe hits, Doyle, Van Halten, Fuller and Farrell leading in the slaughter. Farrell caught superbly. Fuller also played good ball, barring a bad error in the first inning. In the sixth inning Van Halten and Jennings collided at second base; Van's nose was badly bruised and Jennings was cut over the left eye. They had to give way to Murphy and Bonner, respectively, while physicians dressed their wounds. The Baltimore scored two runs in the first inning on Kelly's base on balls. Fuller's fumble of Keeler's grounder, Brothers' out and McGraw's single, Burke scored a run for New York on his base on balls, a steal, Hawke's error and a wild pitch. In the third the visitors got another run on Davis' two errors, Brodie's out and Reltz's single. The New Yorks also made a run on hits by Meekin, Tiernan and Doyle. After the champions had been blanked in the fourth, Ward's men rolled up three runs and took the lead. Van Halten, Fuller, Farrell and Meekin made single, Burke sent a long fly to Brodie, and Fuller and Farrell worked in a double steal. Gleason took Hawke's place in the fifth inning and the New Yorks clinched the game. Davis got a base on balls, and took second on a wild pitch. He scored on Doyle's double, but Ward forced Doyle at third. Van Halten got four balls and Fuller's single scored Ward. Van came in on Farrell's hit, while both Fuller and Farrell counted on Meekin's baser to centre. In the sixth Doyle made another run on his single and steal, an error by McGraw and Ward's out. The home team piled up five more runs in the seventh. With one out, Farrell singled and Meekin fled to Brodie. Burke made a telling hit, sending Farrell to third and stealing second himself. Tiernan got a base on balls and Davis received another, forcing in Farrell. Doyle put a single in centre, bringing in both Burke and Tiernan. Ward's hit scored Davis, and Doyle ran in, too, on McGraw's failure to stop Brodie's throw to third. In the fifth, sixth, seventh and eighth innings the visitors were helpless before Meekin, and when the New Yorks had been retired in their half of the eighth, the game was called on account of darkness. The score stood 16 to 3.

NEWS OF THE WEEK.

Cardinal Gibbons preached against woman suffrage Sunday.

Western jobbers have abandoned the effort to control the price of sugar to retailers. The czar has Bright's disease, complicated with diabetes, one of his physicians says. James H. Crossman, one of the owners of the Temescal tin mine, took his own life in San Francisco. Governor Greechale and the other state officers were renominated by the Massachusetts republicans. Admiral Mello, who fought the Aquidaban to fame, says he expects to be again in a warship before long. United States Senator McPherson, of New Jersey, declines to be a candidate for re-election on account of ill health. Seventy Japanese vessels, warships and troopships, have been spotted in the gulf of Pechili, sailing towards China's capital. Three men, including an alleged murderer and an alleged bank swindler, sawed out of jail at Bel Air, Md., Saturday. Though the cholera seems to hold its own in Europe, it is believed that the season is too far advanced to let it reach America this year. Stephen C. Wierster, formerly prominent as a merchant and politician at Kingston, N. Y., ended his life Saturday by cutting his throat. A newspaper announcement at Frankfort, Ky., that Secretary of the Treasury Carlisle is a candidate for the senate is doubted at Washington. Three young women were ordained to the diaconate and two men to the priesthood of the Episcopal church at New York Sunday. Bishop Potter officiated. The police at Providence, R. I., have unearthed more damaging evidence against Lawrence A. Keegan, charged with the murder of Mrs. Emily Chambers at Situate. Representative William L. Wilson is accepting a dinner from the London chamber of commerce he did nothing to be ashamed of. The free delivery service has been extended by the postoffice department from Plainfield N. J., to Netherwood, N. J., and the post office at the latter place abolished. Secretary Carlisle has decided to refer to the attorney-general for his opinion the question as to when the several sections of the wool schedule of the new tariff go into effect. Glazer, Frame & Co., cigar manufacturers, at Reading, Pa., have restored the wages of all their cigar-makers, who were reduced a few months ago about \$1 per thousand. Gen. James W. Negley, who won fame in the civil war, was arrested and held in \$1,000 bail on the charge of fraud in the negotiation of \$500,000 worth of King Locomotive works bonds. Albert Harris, of Harris Bros., of 865 Broadway, New York city, well-known shoe manufacturers, shot and killed himself in the front parlor of his home, No. 193 East 72d street, Saturday. The governments of the United States and Ecuador have selected the British resident minister at Quito as the arbitrator of the claim of the American citizen, Julio Santos, against the Ecuadorian government for illegal arrest and imprisonment. The faculty of Yale have announced the award of the Hugh Chamberlain Greek prize. It was given to the student passing the best examinations in the Greek required for admission to college. Robert Ernest Hume of Ahmednagar, India, is the successful man this year. Chief Hazen of the United States secret service received a telegram announcing the arrest at Bay City, Mich., of Hamilton Block, who is said to have made four very dangerous counterfeit bills. Block was the leader of the gang which a few months ago broke jail at Milwaukee. The cruiser Minneapolis, although she has been declared ready to go into commission this week by Chief Naval Constructor Hiebhorn, will not be available for some time on account of lack of men, congress having refused to provide appropriations for the increase of the men in the navy. United States Consul Leonard B. Smith at Curacao, Dutch West Indies, informs the state department that the government has increased the tax on all imports to 2 per cent., being an increase of 3-4 of 1 per cent. The object is to raise more revenue to supply an anticipated deficit for the next year. If ex-postmaster-General John Wamamaker can be induced to become a candidate for the presidency of the Reading Railroad company, there will probably be three tickets in the field at the annual meeting in January next. President Harris will be a candidate for re-election and Isaac L. Rice has already announced that he will head a ticket. Senator Hill and Congressman Lockwood were officially notified of their nomination for governor and lieutenant-governor respectively, and made short speeches of acceptance. Supreme Court Justice Charles F. Brown, of Newburgh, was chosen by the democratic state committee as a candidate for judge of the court of appeals, vice Gaynor, resigned. An army band, composed of Lieutenant Colonel F. W. Parker, ordnance department; Major H. C. Hasbrouck, Fourth Artillery, and Major E. L. Davis, Corps of Engineers, has been appointed to meet in New York, October 11, to determine which of the various types of disappearing cartridges for sea and coast fortifications that have been on trial is best adapted for the service. Dr. Kohl, of Berlin, who is editing Bismarck's speeches, is about to start a "Bismarck annual." The first volume will appear in November and will contain certain letters that passed between Prince Bismarck and the old Emperor William, King Victor Emanuel, Prince Gortchakoff and others, besides a selection of letters in which Prince Bismarck is threatened with violence.

JOY AT NEW BEDFORD.

Spinners and Mill Owners Reach an Agreement.

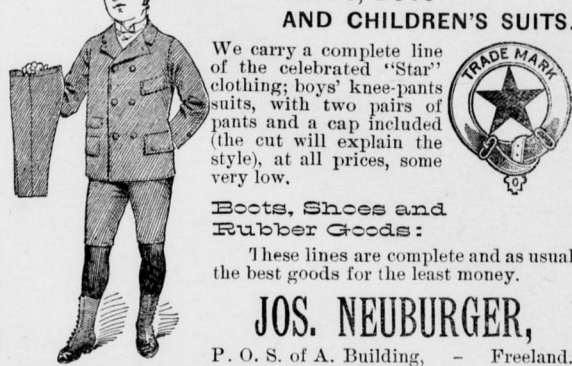

New Bedford, Mass., Oct. 9.—The biggest strike that New Bedford ever had is practically ended. The strike has lasted eight weeks, and during that time much more suffering has been endured by the idle operatives than will be ever known. The mills will start their machinery on Friday morning and the operatives will flock into the gates in a happy frame of mind. During the past week they have suffered from lack of food and warmth. The committee appointed by the spinners on Friday last, consisting of Messrs. Ross, Rowan, Smith, Robinson, Hancock, Perrin and Barnes, met the mill treasurers at A. C. Pierce's office on North Water street. The conference began at 3 o'clock and lasted until 5:30. When the spinners' representatives came from the meeting the following was handed the reporter for the United Press by President Rowan, of the spinners' union: "The spinners, in conference with the mill treasurers, mutually agreed that the spinners of this city go back to work on a reduction of 5 per cent. in wages, with the understanding that whatever final settlement is made at Fall River shall also apply here." Immediately after the meeting of the two bodies the spinners proceeded to Spiners hall, where the conference committee of the various labor organizations were in waiting to hear the result of the conference. The meeting was immediately called to order by Chairman Connolly. The proceedings of the conference with the manufacturers was gone over and after quite a discussion the representatives of the various unions retired and discussed the advisability of accepting the agreement. In a few moments the representatives reconvened and practically agreed to go to work. The spinners' committee agreed that if the mill treasurers would not agree to take all the operatives back under the agreement that they would not go in themselves, but it is said there will be no trouble on that score as this was the understanding at the conference with the manufacturers. The operatives about town are feeling very jubilant. It is learned that the places of the operatives who have left the city on account of strike will be kept for one week after the mills resume operations. This was a condition imposed on the mill treasurers by the spinners' committee. Many operatives who have left the city will no doubt take the opportunity to return. One of the manufacturers was seen after the meeting and said that the agreement contained all the particulars of the conference. He said the meeting was very harmonious and the representatives of the spinners and the mill men. For his part, he said, he was glad the matter was settled. He was asked if the weavers were going to work with the rest of the unions and he replied: "The weavers should have less fault to find than any of the other unions for they have been out for twenty days. Their cut will amount to only about 1 per cent. on an average." "Will they be furnished with particulars, if they ask for them?" was asked. "Why they have about all they want now," was the answer, and the mill manager would say no more.

THIRTEEN WERE DROWNED.

Terrible Disaster in a Storm Near St. Kitts.

New York, Oct. 9.—The following dispatch has been received from St. Kitts, under date of Oct. 1: A terrible disaster occurred in the harbor of Barreterre within a stone's throw of the shore, by which thirteen persons were drowned in the height of the storm of Sept. 29. One of the traders between St. Kitts and Nevis, in which were twenty-two passengers and crew, foundered. Heroic efforts to rescue the struggling passengers were made in spite of the furious wind and sea, and those rescued from the inflated craft, as well as from other boats in distress, exceed largely the number drowned. Those drowned lived in Nevis, with one exception.

No Meddling with Letters.

Washington, Oct. 9.—The statement that the letters of officials of the United States cruiser Charleston had been opened by the Japanese officials and that all communications passing through the mails are carefully scrutinized, is denied at the legation. A similar story was circulated in San Francisco six weeks ago when the present minister passed through that city, and was then authoritatively denied by him. There is a provision in the new constitution of Japan which expressly prevents any interference with private letters, except in the most extreme cases.

Cardinal Gibbons Going to Rome.

Baltimore, Oct. 9.—Cardinal Gibbons left for Philadelphia to attend a meeting of archbishops of the country, which is to be held at the archiepiscopal residence of Archbishop Ryan, beginning to-morrow morning. This will be the first meeting of the archbishops since the famous assembly last year at the residence of Archbishop Pechan of Chicago. Cardinal Gibbons will visit Rome and the pope shortly, and it is thought that the meeting is to obtain the views of the distinguished prelates on the various questions affecting American catholicity.

Affairs in Madagascar.

Paris, Oct. 9.—The Matin publishes a letter from Deputy Deloncle in reference to affairs in Madagascar, in which he declares that Great Britain has loyally observed the conditions of the Madagascar convention of 1855. M. Deloncle expresses his conviction that England will not alter her policy in regard to Madagascar. The Figaro opposes the nomination of Major War on the ground that the expenditure involved would be very heavy and the advantages extremely doubtful.

Warden Durston Better.

Sing Sing, N. Y., Oct. 9.—Warden Durston, who has been in the hospital since his illness was pronounced critical by his physician, is feeling considerably better. Much hope is now entertained for his ultimate recovery. His illness is now of three weeks' standing. Affairs at the prison are being conducted by Principal Keeper Connaughton.

Nominated for Congress.

Hartford, Conn., Oct. 9.—The democratic congressional convention of the First district renominated the Hon. Lewis Sperry, of South Windsor.

TOO GOOD JOBS TO LOSE.

New York Police Officers Want to Get Back on the Force.

New York, Oct. 9.—Ex-Police Captain Michael Dolan, who was discharged from the force and is seeking through certiorari proceedings a vindication in the supreme court, are anxious to have their cases disposed of as quickly as possible, in the hope that the accusations that have been made against them may be proved unjustifiable, and the courts may restore them to their respective positions on the force. No returns in either of their cases to the writs of certiorari have been made, and only last week the time within which the commissioners were to file their returns was twenty-two days, so that it would be the last of this month before the returns would be filed in any event should that extension stand. The ex-captain and twenty men applied to Justice Lawrence in the superior court to vacate the order extending the time of the commission twenty days, from Sept. 27, within which to file the returns to the writs and their motion was granted.

CHARITY FREELY TESTED.

Financial Aid for the Fall River Strikers.

Fall River, Mass., Oct. 9.—The eighth week of the strike is on. The city is still orderly and the charity of all who can give is being tested freely. The letter carriers have contributed 2,500 loaves of bread for the poor and the United Friends' Social club gave away 500 dinners last evening. The free soup distributions are going on and more than 2,000 persons are being fed daily in this way. Secretaries Ross, of New Bedford, and Howard, of this city, left in the Fall River line boat last evening for New York. They will be accompanied by Samuel Gompers and arrange for regular support for members of the National Mule Spinners' association. The weavers executive committee will meet to arrange for the distribution of \$4,000 among 3,000 members.

Anarchist French Feigns Insanity.

Barcelona, Oct. 9.—Salvador French, the anarchist, lying under sentence of death for exploding a bomb in the Liceo theatre last winter, has lately been feigning insanity. Yesterday he charged the priest chaplain with trying to poison him. He showed his jailers a liquid which he said the priest had given him. Upon examination the liquid was found to be the yolk of an egg.

Anti-Semitic Germans.

Berlin, Oct. 9.—The several anti-Semitic groups of the empire have decided, through their delegate in conference at Eisenach, to combine under the name of the German Social Reform party. The extreme tendencies of the conference were shown by the heartiness with which it received ex-Director Alwardt, the most unscrupulous and blatant Jew-baiter in Germany.

Ferdinand Ward's Son.

Thompson, Conn., Oct. 9.—In the case of Ferdinand Ward's son, whose father lately attempted to kidnap him, the court decided that Connecticut is young Ward's legal home. The case will probably be appealed.

ABOUT THE WEATHER.

On the west coast of North America and Europe the heaviest rainfalls are in winter; in the interior of the United States and Europe, in summer.

The winter of 1812 and 1813 was one of the most severe ever known in Russia, a fact which partially explains the terrors of the retreat from Moscow. In northern Europe Nordenskiold found fresh fallen snow impregnated with a dust of carbon and iron, such as could only have come from meteors. In 1771 an unprecedented drought prevailed throughout India. Scarcely any rain fell for a year, and hundreds of thousands died of famine, whole districts being depopulated. In 1858 the winter in North Europe was so cold that Charles X. of Sweden crossed the Little Belt from Holstein to Denmark with his whole army, including cavalry, artillery and baggage train.

IN A NUTSHELL.

RUBES are manufactured. AGATE is successfully imitated. The snail's mouth is in its foot. CAMPHOR grows on trees in Japan. The first alphabet had but sixteen letters. NEW BRUNSWICK has a small leper colony. THE title rabbi means master or teacher. DRAMAS in India are played in the open air. THE smallest known microbe is that of influenza. FOSSIL bisons have been unearthed in Kentucky. IN geologic time the horse was no larger than a fox.

AGRICULTURAL NOTES.

AN exchange reports that grass weed which is invading the country from the north is likely to prove almost as damaging as the Russian thistle. If the grain stocks are allowed to stand very long in the fields which were sowed to clover last spring they are liable to kill the plants they cover and thus create bare spots in the fields. A PLOWING match is announced as one of the features of the Iowa state fair this year. This method will be adopted for determining the relative merits of the implements placed upon exhibition.
