

# CASTORIA

for Infants and Children.

**MOTHERS, Do You Know** that Paragoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

- Do You Know** that opium and morphine are stupefying narcotic poisons?
- Do You Know** that in most countries druggists are not permitted to sell narcotics without labeling them poisons?
- Do You Know** that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?
- Do You Know** that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?
- Do You Know** that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?
- Do You Know** that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?
- Do You Know** that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?
- Do You Know** that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?
- Do You Know** that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Chas. H. Pitcher* is on every wrapper.

Children Cry for Pitcher's Castoria.

## Insecure Insurance.

Cheap insurance is often the dearest that can be secured. Primarily insurance should insure, and when it fails in this it is worse than none at all. A man who considers he has policies which will indemnify him in case of a fire may find that they are worth only at the rate of one-half cent a pound, or whatever old paper may sell for in the open market. There are some of the companies writing business in the west which come under this category, says the Chicago Tribune. They are for the most part the undergrowth "wildcat" companies which have a habitat in Virginia and West Virginia and the Mutuals and Lloyds which have sprung up like mushrooms in the last few years. Not all Lloyds and Mutuals are to be classed in this category, no more than are all the companies chartered in the Virginias. There are some of these companies which are as good financially as the old-line stock companies, even though their capital is smaller, for the reason they take fewer risks. But many of the mushroom growth are good only so long as premium receipts exceed the losses by fire and the expenses. Once there is a heavy fire and the companies begin hoisting the flag of surrender, but the policyholders are left without anything to show for their fancied security.

## MIRABEAU L. TOWNS, a Brooklyn lawyer, who once lived in Atlanta, received a legacy of one hundred and fifty thousand dollars the other day from an eccentric Irishman who had taken a fancy to the lawyer's rhymes.

About ten years ago the Irishman called on Mr. Towns and requested him to take the case of an old woman who wanted damages for being bitten by a dog and drenched with water from a hose. But the condition was that Mr. Towns should utilize his poetic gifts by making an argument in rhyme. The proposition was accepted, and the jury gave the woman a verdict for seventy-five dollars. The Irishman gave him another case, which he also won, after making his argument in rhyme. This strange admirer of Mr. Towns' poetry is dead, and has made the rhymist one of his four heirs, each of whom will get one hundred and fifty thousand dollars. There is not a similar case on record. Certainly no American ever received such a rich reward for a few jingling verses.

## ACCORDING to a recent dispatch they are having a squabble in Spain over the rumor that the queen regent, Christina, has had the little King Alfonso made a freemason. It is charged that the rumor was caused by the pretender, Don Carlos, with a view to prejudicing the Catholics against the boy monarch, and the queen has ordered a prosecution of the papers that circulated the report. One would suppose that every one would know that Alfonso could not be received into the masonic order at the age of eight.

DISCIPLES of Henry George have well under way a plan to establish a single tax colony in Alabama. For the present the occupations of the colonists will include truck farming, fruit growing, canning and pail and tub manufacture. In order that these things may be done in an intellectual manner a high-grade school will be built at once.

ARRANGEMENTS are making to have each state in the union represented by eight representative women at the great Atlanta exposition, the appointments to be made by the several governors.

FORT GARLAND, Col., is believed to be the driest spot in the United States. The rainfall there is only six inches a year.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

## PICKED UP BY THE WAY.

The nudacity of a gang of tramps who amused themselves frightening the good housewives of Freeland last week beat all previous records. Their operations were confined to the outskirts of the town, and with the coolness of an iceberg they invaded the kitchens and when an insolent demand for victuals had not the desired effect, a volley of oaths and profanity was hurled at the offending housekeeper, who through fear would produce the most palatable morsel in the house for their inspection and approval. The gang was composed chiefly of veterans, none of whom were less than 50 years of age.

The systematic way they "worked" the town demonstrated long experience at the business and entitles them to a place at the head of the profession. In one hour on Thursday afternoon they called upon at least a dozen dwellings at Brivanton and Ridge street, and at many more in other parts of town. That evening they enjoyed the comfort of an empty freight car on the siding at the Valley station. Grim, gray and filthy, they were a disgusting sight to gaze upon and if work is abundant in their sight, soap must have been doubly so, for they were the toughest-looking specimens of the tramp that has drifted into Freeland in many a year.

Our townsman, R. F. Davis, has his eye upon the position of sergeant-at-arms, of the state legislature for the next session and should he succeed in getting there it is safe to say the duties devolving upon him will not be abused. Mr. Davis has always been a red-hot Republican and if there are any honors to be derived from the recent victories of that party, he is certainly deserving of a share. However, he is not losing any sleep over the position, though he will accept it if proffered to him, and should the party let his modest claim pass by unnoticed it will be a blunder of a serious nature.

Representative Jeffrey will espouse the candidacy of Mr. Davis, and while there will be many more aspirants for the position, there is every reason to believe that Mr. Jeffrey, backed by the Luzerne delegation, he will be listened to. Going as he will from a Democratic district three times in succession Mr. Jeffrey cannot be ignored very well, and if he does it will be something without a precedent in the policy of the Republican party. In fact it will be a total disregard for party service, and though flushed with victory as it is, the party cannot afford to turn down such workers as Mr. Davis.

In the last three campaigns which have taken place in this district for legislative honors, it has not escaped observation that Mr. Jeffrey had gathered the younger element of the party about him and the swiftness of their gait compared the "old stagers" to take up the rear. Among the new element none were more prominent or more active for Republican principles in general than Mr. Davis, and if aggressiveness is to be rewarded, it is reasonable to predict that Mr. Davis will, for the next three months, be dealing out discipline and good order instead of flour and feed. Saunterer.

## NEW MINERS' UNION.

A dispatch to the Philadelphia Press from Pittsburgh says that when the United Mine Workers of America hold their annual convention next February, a new district will be presented. It will be known as district No. 1 and is composed of anthracite miners from Luzerne, Lackawanna and Schuylkill counties. Never since the last great anthracite strike took place and the back of the Eastern Miners' Union was broken have the anthracite men been as far on the road to reorganization as they are now. In three counties named sixty local unions composed of miners and mine workers have been established. The anthracite mines of Pennsylvania employ, when running full, about 118,000 men. One-third of these are said to be members of the union.

The authority for these statements is Cameron Miller, national organizer for the miners. He said today: "We have received advices from the east that the anthracite men will soon be in line with the national organization. Since last September the eastern miners have been restless. We received so many requests for an organizer that a regular canvass was instituted and now there are sixty local unions east of the Allegheny mountains. The next national strike of miners will find the anthracite men in line with the bituminous diggers. John Elm has been elected district president of the anthracite district, with headquarters at Mahanoy City."

The above statements may be true, but it is a certain fact that the miners of the Lehigh region are not yet organized, and considerable difficulty would be encountered in getting the majority of them into a labor organization.

## COLUMBIA DESK CALENDAR.

For ten years the desk calendar issued by the Pope Manufacturing Company has been a unique place among business helpers. Each daily leaf during that time has taught its quiet lesson of the value of better roads and outdoor exercise, and especially the benefits of bicycling. The calendar for 1895, which is just issued, is even brighter than its predecessors in appearance, as clever artists have added daily silhouettes and sketches to the usual wise and witty contributions that have heretofore given this popular calendar its charm. It can be had for five two-cent stamps from the Pope Manufacturing Company, Hartsville, S. C., or from any Columbia bicycle agency.
