The governor and serve for fleers, except the state veter-finarian, are allowed a clerk each at a salary of \$1,500. Governor Hastings is urging the speedy passage of the bill, and it is likely that it will reach him before the close of the month.

The forestry bill has also passed the bouse and is well advanced in the senate. This is one of the most important measures introduced this session and will, if it becomes a law, tend to protect the forests of the state from destruction by fire. The bill provides for speed fire wardens in remote and thinly peopled forest districts, who are to be residents of such districts, their compensation to be fixed by the forestry commission and paid by the state. The supervisors of roads of the respective townships, by virtue of their office, are district fire wardens. In case of fire they are to go to the ground at once and hire such help as they may deem necessary. Anyone destring to burn brush or other combustible matter in or near forest land must first apply for permission from the fire warden. Violators of this provision may be arrested and taken before a magistrate without a warrant. The bill defines the world "forest" to include scrub brush, sprouts, briers and all woody growths apt to feed or spread fire.
