and light the county country country and the country c

plated by the commissioners.

One of the bills now before the Pennsylvania legislature, if it becomes a law, would compel every borough and city to purchase the existing water works in their towns before they could erect plants of their own. That a bill of this character should be introduced need occasion no surprise, but that it should be considered at length by our lawmakers is nothing to their credit. The very principle involved ought to condemn legislation of that kind, and the bill should be killed without delay. To prevent towns from engaging in a business which by right belongs to them alone, and which previous laws authorize them to enter, to prevent them from doing this unless they buy up the plants of all private competitors is simply ridiculous. A little thinking upon the subject will show the danger of allowing a corporation measure like that one to pass.

snow the danger of allowing a corporation measure like that one to pass.

It will not be positively known until the fifty-third congress dies by limitation, tonight, whether failure of one or more appropriation bills will force the calling of an early extra session. There is little doubt that the appropriation bills can be put through by hard work, but there are several pending amendments—among them that of repealing all laws for the issue of bonds—either of which may delay the appropriation bills. The Republicans, who have been flippantly criticising congress for the past few months, are not as well pleased at the prospects of an extra session as they might be. They don't relish the idea of having control of the legislative department of the government just now, for the results brought on by the visclous legislation of the fifty-first congress have placed the country in a bad condition. It is only right, however, that they be given the task of remedying their own blunders.

NOTES OF THE RAIL.

The name of the Baltimore & Lehigh has been changed to the York & Southern.

The Wagner company has reduced the price of berths on its cars between Indianapolis and St. Louis to \$1.00.

A no scheme is on foot to dispossess the Missouri, Kansas & Texas of nearly 1,000,000 acres of land held as right-of-way through the Choctaw nation.

The Southern railway has just given an order for 20 locomotives, and in pursuance to its stated policy to enceurage local industries part of the order goes to a Richmond concern.

It is stated on the highest authority that a movement has been started among the southern lines for the arming of passenger train crews with firearms to repel attacks of train robbers. It is said that the pay of locomotive engineers is sometimes so much above that of minor administrative officers technically their superiors that the amount is not permitted to appear upon the pay roll.

Fix passenger trains have the splendid record of the Empire State express in the matter of always being on time. An examination has shown that it was not late a single day from June 3 to October 13 inclusive, a period of 4 months and 12 days.

the Macedonian King Secured Pos-session of Bucephalus.

How the Macedonian King Secured Possession of Bucephalus.

Of course every child who goes to school has heard of Alexander the Great. And one can hardly think of him without thinking also of his horse, Bucephalus. Perhaps no horse in the world is so well known, and no other horse's name is so familiar.

Plutarch, who has told us so many interesting things about people, says that he received his name because his head resembled that of an ox or because he had the mark of an ox's head on his flank or because he had a black mark on his head shaped like an ox's head on his head shaped like an ox's head, the rest of his body being white. This shows that in Plutarch's time people cared a great deal to hear about Bucephalus.

Alexander obtained him in this way: When he was at home with his father, Phillip, king of Macedon, a Thessalian

The map of its system which the Pennsylvania legislature and for mo other apparent purpose than to carry out the promises made by legislators to their friends to get them "something under this administration. Governor Hastings, notwithstanding the pressure brought to bear upon him, does not appear to be in sympathy with this uncalled for additional expense to which the state will be put, as was evideneed by his vetoes of the bills creating unnecessary judgeships in some counties. If he will act as manly as Pattison did in killing viscious legislation, the people will have no occasion to regret electing him.

Those reformers who were anticipated in a ninvestigation of Philadelphia's municipal affairs by a legislative committee can brace themselves for a disappointment. It is seldom Republicans and the sappointment. It is addom Republicans appointed to the unique railroad position of historian of the Pennsylvania lines.

FA_HION FADS.

CUT-AWAY jackets of velvet are minch liked by young girls.

A DRESS of cloth with a narrow molrepanel down the front is among the new importations.

CAPES of molre are trimmed with fure collars and lined with bright silk. One of the handsomest of these garments was recently made to order and lined with very stiff brocade.

ERMINE, from becoming popular, has become a fad, and every woman velokas money to buy it wants ermine in some form or snother. The only disticulty is its scarcity and extravagantly high price. Really fine ermine is almost impossible to obtain, and the most fabulous prices are paid for it.—N. Y. Ledger.

ONLY four of the survivors of Napleson's great army are still alive: Jean Jacques Sabatier, 102; Victor Baillod and Jean Bousset, 101, and Joseph Rose, 100.

ENGINEER IN CHIEF MELYILLE says that in the Olympia, Minneapolis, Cobumbia and New York, we have four cruisers that for speed beat anything in the world.

ALEMINIUM is now used irstead of steel for the nails and heel plates of the German soldiers' boots. The results expected are quicker and better marching, with less fatigue to the men.

FIFTEEN years after they were lost in the disaster at Isandhiwana, in Zululand, the colors of the Twenty-fourth regiment, the South Wales Borderers, have been recovered. They came some way into the hands of a French nobleman, who has just transferred them to the British military attache at Paris.
