

Weak Nerves

Indicate as surely as any physical symptom shows anything, that the organs and tissues of the body are not satisfied with their nourishment.

They draw their sustenance from the blood, and if the blood is thin, impure or insufficient, they are in a state of revolt. Their complaints are made to the brain, the king of the body, through the nervous system, and the result of the general dissatisfaction is what we call Nervousness.

This is a concise, reasonable explanation of the whole matter.

The cure for Nervousness, then, is simple. Purify and enrich your blood by taking Hood's Sarsaparilla, and the nerves, tissues and organs will have the healthful nourishment they crave. Nervousness and Weakness will then give way to strength and health.

That this is not theory but fact is proven by the voluntary statements of thousands cured by Hood's Sarsaparilla. Read the next column.

Hood's Sarsaparilla Is the Only True Blood Purifier

500 AERMOTORS
We do not attribute this fairly good record entirely to our aermotors, but to the superiority of the goods which we make. Hood's Sarsaparilla, etc., we have done on the spot, and tested four out of every ten, and we found that we sold. Since we commenced the sale of the AERMOTORS.

400 AERMOTORS
In our annual territory is represented the history of the Aermotor and the Aermotor Company from the beginning to the present hour. That history is one of unbroken triumph.

\$7.50 a \$15
The Aermotor ad. will be pumps. We shall offer for three years free pump. All orders should have to be sent at that price. All Aermotor men will have it. The work following will appear in our advertisement of advanced size tanks at 25 cents per gallon. They neither shrink, leak, rust nor make water like lead. Aermotor Co., Chicago.

WE GIVE AWAY

AN OLD-TIME REMEDY IN A MODERN FORM.

Ripans Tabules
THE LATEST, MOST EFFECTIVE DYSPEPSIA CURE.

Ripans Tabules
A single one gives prompt relief. Ripans Tabules, price 50 cents a box. At druggists or by mail.

PISO'S CURE FOR CONSUMPTION
Cures Where All Else Fails. BEST COUGH SYRUP. TASTES GOOD. USE IN TIME. SOLD BY DRUGGISTS. 25 CTS.

"With pleasure I will state that Hood's Sarsaparilla has helped me wonderfully. For several months I could not lie down to sleep on account of heart trouble and also

Prostration of the Nerves.

For three years I had been doctoring, but could not get cured. I received relief for a while, but not permanent. Soon after beginning to take Hood's Sarsaparilla there was a change for the better. In a short time I was feeling splendidly. I now rest well and am able to do work of whatever kind. If I had not tried Hood's Sarsaparilla I do not know what would have become of me. I keep it in my house all the time, and other members of the family take it, and all say there is

Nothing Like Hood's

Sarsaparilla. I have highly recommended it and one of my neighbors has commenced taking it. I recommend Hood's Sarsaparilla at every opportunity." Mrs. S. BRADDOCK, 404 Erie Ave., Williamsport, Pennsylvania. Be sure to get

Length of the Day.
The division of the mean day into 24 hours of 60 minutes each originated with the Egyptians. Why divided into 24 instead of some other number of hours it is impossible to say. The Chinese and a few other Oriental nations, reckon but 12 hours to the day and night—evidently making the whole to correspond with the apparent passage of the sun over one of the zodiacal signs.

A War Map
Showing the location of battles in Kentucky, Tennessee, Alabama and Georgia has been published by the Louisville & Nashville R. R., and will be sent free upon application by postal to E. G. Johnson, General Advertising Agent, Louisville, Ky.

The Swiss Government made a profit of about \$1,000,000 last year by its monopoly of spirits.

WE GIVE AWAY

Absolutely free of cost, for a LIMITED TIME ONLY.

The People's Common Sense Medical Adviser, by R. V. Pierce, M. D., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute. The Largest Manufacturers of PURE, HIGH GRADE COCOAS AND CHOCOLATES. On this Continent, have received the HIGHEST AWARDS from the great Industrial and Food EXPOSITIONS in Europe and America.

PISO'S CURE FOR CONSUMPTION
"We think PISO'S CURE for CONSUMPTION is the only medicine for coughs."
—JENNIE PINCKARD, Springfield, Ill., Oct. 1, '94

SONGS.
Strike me a note of sweet degrees—
Of sweet degrees—
Like those in Jewry hearts of old;
My love, if thou wouldst wholly please,
Hold in thy hand a harp of gold,
And touch the strings with fingers light,
And yet with strength as David might—
As David might.

THE REUNION.

HE stage rattled into the village one pleasant July day and drew up at the store. The G. A. R. man, the only passenger, climbed out of the lumbering vehicle, dragging after him his nondescript traveling bag. He limped up the steps in the wake of the driver, who was helping the storekeeper with the mail pouch, and once on the porch stopped and nodded a gruff greeting to the three men who were seated on the bench kicking their heels together—the Chronic Loafers, the School Teacher and the Miller. The trio gazed at the new arrival solemnly; at his broad-brimmed black slouch hat, which, though drawn down over his left temple, did not hide the end of a band of courtplaster; at his blue coat, two of its brass buttons missing; at his trousers, several rents in which had been clumsily sewed together.

"From your appearance one would judge that you had come home from a battle instead of a reunion at Gettysburg," the School Teacher remarked.

"He'd never come out of no battle lookin' like that," the Chronic Loafers cried.

"I've come home 'fore my 'scursion ticket expired," said the G. A. R. man, removing his hat and disclosing the great patch of plaster that adorned his forehead. "Gettysburg was a sight hotter fer me yesterday 'an in '63. But I've got to the end of my story."

"So that same old yarn you've been tellin' at every camp fire since the war is finished at last. That's a bleedin'!"

The veteran seated himself comfortably upon his upturned satchel and began:

"Per the benefit of the Teacher, who I ain't never seen at our camp fires, I'll repeat my experience at the battle of Gettysburg, and then tell yer all 'bout my second fight there. I served as a corporal in the 295th Pennsylvania Volunteers, an' was honorably discharged in '64."

"For which you draws a pension," the Chronic Loafers ventured.

"That ain't so. I got the malarial an' several other complaints that I got down on the Peninsula that hinders the workin' steady. But that ain't here nor there. Our retrenchment was allus known as the Bloody Pennsylvania Retachment, fer we'd been in the front in every fight in the Wilderness and had some very desperate engagements. Whenever there was any chortlin' to be done, we done it; if there was a flyin' hope we was in it; if there was a breastwork to be took, we took it; an' by the end of two years seekin' fightin' was pretty bad out up. When we come ter the fight at Gettysburg it was decided as they wasn't none of us left we'd better be put to guardin' baggage wagons. That was a kinder work didn't need many men, but took fighters in case the enemy give the boys in front a slip and sneaked in on our rear."

in'ter meet the enemy at any moment made it mighty unpleasant, and what with the stories them wounded fellows give us we didn't rest very easy. At 10 o'clock I went out on the picket line an' seemed I hadn't been there more'n an hour when I made out a dark figure of a man comin' through the fields very slow like. Me an' the fellows with me watched sharp. Sudden he stopped and sank down in a heap. Then he picked himself up and came staggerin' on. He couldn't hev been more'n an fifty yards away when he threw up his hands and pitched fer'd on his face. Me an' 'mother feller run out an' picked him up an' carried him inter the fire. But et wasn't no use; he was dead.

"There was a bullet wound in his shoulder and his clothes was soaked with blood that hed ben drippin', drippin' as he walked tell he fell the last time. I opened his coat and in his pocket found a letter, stamped and directed appert to his wife—that was all to tell who he was. So I went back to the line thinkin' no more of et an' never nothin' that the man's coat 'n' 'd fit two of him."

"Mornin' come, and the firin' begin over toward Gettysburg, an' we could see the smoke risin' agin an' hear the big guns roarin' tell the ground beneath our feet seemed to swing up an' down. I tell you us that was a grand sight. We was awful excited, fer et seemed like the first two days hed gone agin us, an' more stragglers an' the wounded come limpin' back more an' more, all with bad news."

"I was gittin' nervous, an' thinkin' an' thinkin' an' wishin' I was where the fun was. Then I coniced maybe I wasn't so bad off, fer I might a be'n killed like the poor feller I seen the night before. I remembered the letter an' got et out. I didn't tend ter the safe ter go mailin' letters without knowin' just what was in 'em, so I read et. Et was wrote on a piece of newspaper with a pencil, an' in an awful bad hand-write. But when I got through it I sot plumb down an' cried like a child."

"Et was from John Parker to his wife Mary, livin' out in Western Pennsylvania. He begins he mentionin' how he was on the eve of a big fight, an' tended ter do his duty, even if et come to fallin' at his post. Et was hard, he said, but he know'd she'd rather hev no husband an' a coward. He was allus thinkin' of her an' the baby he'd never seen, but felt satisfaction in knowin' they was well fixed."

"Et was sorrowful, he continyerd, that she was like ter be a widdy so young, an' he wasn't goin' ter be mean about et. He allers know'd, he said, how she'd hed a hankerin' after young Silas Quincy 'fore she tuk him. If he fell he tho'd she'd better merry Silas, when she'd recovered from the 'fects of his goin'." He ended up with a lot of last goodbys and talk about duty to his country.

"I set right down an' wrote that poor woman a few lines, tellin' her how I found the letter in her dead husband's pocket. I was goin' ter quit there, but decided et would be nice to add somethin' consolin' fer the poor thing, so I told how we found him on the field of battle, face to the enemy, an' how his last words was for her an' the baby. That day we won the fight, an' the very first chance I mailed Mrs. Parker her husband's letter. Et seemed 'bout the plum blamsted saddest thing I ever hed ter do with."

"I've allus be'n curious 'bout that widdy, too," the Chronic Loafers remarked.

The School Teacher cleared his throat and began:

"Don't begin no poetry jest yit, Teacher," said the veteran. "Wait till you hear the sekal of the story. I never heard no more of Widdy Parker tell last night, an' then et come most sudden. Our retrenchment hed a reunion this year on the field, you know, an' last Monday I went back to Gettysburg for the first time since I was honorably discharged."

"The boys was all there—what's left of 'em—an' we jest had a splendid time visitin' the monyments an' talkin' in my old tents back in '63. There was over the days back in '63. There was near tuk down before Petersburg be the yeller janders. There was the Colonel, growed old an' near blind, an' our Captain, an' a hundred odd others."

"Last night we was a lot of us settin' in the hotel tellin' stories. Et come my turn an' I told about the dead soldier's letter. They was a big feller in a uniform leamin' agin the bar watchin' us quiet like, an' when I begin he pricked up his ears a little, an' as I got furdier an' furdier he begin ter get more an' more interested, I noticed. By an' by I seen him becomin' red an' uneasy, an' final, when I finished, he walks 'cross the room ter where we was an' stands there starin' at me, never sayin' nothin'."

was gittin' to the rear with orders as lively as a cricket and throwed off that coat because et was warm runnin'."

"When I seen what I'd done I jump; fer'd, grabbed his arm I was so excited, an' yells: 'An' did she marry Silas Quincy?'"

"Et wasn't your fault she didn't," he said deliberatly like, rollin' up his sleeves. 'Fer I got home two days after that letter an' stopped the weddin' party on their way to church.'"

"Sights!" cried the Chronic Loafers.—New York Sun.

Atmospheric Fuel.
The possibility of carrying about with him the means of counteracting a tendency to become chilled, and a stock of available fuel with which to keep warm, does not seem to be recognized by the average individual. But that one may by proper breathing keep up a comfortable temperature or throw off chilliness in almost any degree is a fact well established by abundant experiments. Almost every person may be exposed to the cold at times when there is no opportunity to prepare for it, and when there is no chance to secure extra clothing. In such cases it is only necessary to keep up deep and rapid breathing. Fill the lungs as full as possible at every inspiration. If the air is very cold, it is well to hold a handkerchief lightly before the nostrils, in order that the sudden ingress of a large quantity of cold air will not injure the lungs. The air should be drawn in with some force, and exhaled at once in the same way. Do not retain the air, but get rid of it as soon as possible. Two seconds is long enough for filling and emptying the lungs. Breathe fast, almost like panting after violent exercise, but with the utmost caution, stopping the instant any distress or uneasiness is felt. Wait a moment, then begin again, a little more slowly. Be steadfast in the effort to fill the lungs as full as possible without straining. Within a few moments the blood will begin to grow warm, the extremities will feel the glow, and soon the entire surface will beat a comfortable temperature. If one wakens in the night with a "creepy," cold feeling, this is an excellent thing to do, and will restore the circulation, and often produce a desire to sleep.

There is another advantage in deep breathing that is far too little appreciated. One of the most eminent medical authorities declares that one can by full, rapid and free breathing eliminate almost all disease germs and tendencies from the system.

Rapid breathing furnishes fuel by means of which all waste matter of the system is consumed. The blood is purified, the tissues are supplied with necessary material, and the entire body rapidly returns to healthy conditions.—New York Ledger.

Will Sustain 945,766,300 Persons.
Have you any idea of the number of persons that the United States would sustain without overcrowding the population or even going beyond the limit of density now shown by the State of Rhode Island? The last census of the pygmy State just gives it a population of 80,000. The area of the State in square miles is only 1250. Thus we find that there is an average of 318 persons on every square mile of her territory. We can best illustrate the sustaining capacity of the whole of the United States and of the other States by making some comparisons. The State of Texas has an area of 267,780 square miles, and were it equally as densely populated as "Little Rhody" would comfortably sustain a population of 83,523,623 inhabitants—a greater number of persons than the whole country is expected to have in the year 1900. Scatter people all over the whole land from the Atlantic to the Pacific and from the Gulf to the British possessions as thickly as they are now in Rhode Island, and we would have 945,666,300 inhabitants, instead of an insignificant 62,000,000. In other words, if the United States could be peopled to their utmost sustaining capacity, we could take care of nearly two-thirds of the present population of the globe.—St. Louis Republic.

He Knew the Boy.
This story is told of Rudyard Kipling, as illustrating very clearly the characteristics of the vigorous English boy who was afterwards to achieve such widespread fame with his pen. When a boy of twelve, he went on a voyage with his father, who, becoming desperately sea-sick, retired to his berth, leaving young Rudyard to his own devices. Presently the poor father heard a tremendous commotion away dashed the boatswain three steps at a time, shouting excitedly, "Mr. Kipling, your boy has crawled out on the yard-arm; if he ever lets go he'll drown, sure." "Yes," said Mr. Kipling, falling back on his pillow with a sigh of relief, "but he won't let go."—Household Words.

Water Running Up Hill.
"One of the few instances of a stream running up hill can be found in White County, Georgia," said T. R. Faulkner, at the St. Nicholas. "Near the top of a mountain is a spring, evidently a 'siphon,' and the water rushes from it with sufficient force to carry it up the side of a very steep hill for nearly half a mile. Reaching the crest the flow flows on to the east, and eventually finds its way into the Atlantic Ocean. Of course, it is of the same nature as a geyser, but the spectacle of a stream of water flowing up a steep incline can probably be found nowhere else in the country, and appears even more remarkable than the geyser of the Yellowstone."—Cincinnati Tribune.

A YOUNG GIRL'S TRIALS.
NERVOUS TROUBLES END IN ST. VITUS' DANCE.
Physicians Powerless—The Story Told by the Child's Mother.
(From the Reporter, Somerset, Ky.)
Among the foot hills of the Cumberland Mountains, near the town of Flat Rock, is the happy home of James McPherson. Four months ago the daughter of the family, a happy girl of sixteen, was stricken with St. Vitus' dance. The leading physicians were consulted, but without avail. She grew pale and thin under the terrible nervous strain and was fast losing her mental powers. In fact the thought of placing her in an asylum was seriously considered. Her case has been so widely talked about that the report of her cure was like moderating a miracle of old. To a reporter who visited the home the mother said:

"Yes, the reports of my daughter's sickness and cure are true as you hear them. Her affliction grew into St. Vitus' dance from an aggravated form of weakness and nervous trouble peculiar to her sex. Every source of help was followed to the end, but it seemed that physicians and medicine were powerless. Day by day she grew worse until we despaired of her life. At times she almost went into convulsions. She got so that we had to watch her to keep her from wandering away, and you can imagine the care she was."

"About this time, when our misery was greatest and all hope had fled, I read of another case, almost similar, that had been cured by a medicine known as Dr. Williams' Pink Pills. Almost in desperation I secured some of the pills and from that day on the wonderful work of restoration commenced; the nervousness left, her cheeks grew bright with the color of health, she gained flesh and grew strong both mentally and physically until to-day she is the very picture of good health and happiness."

"It is no wonder that I speak in glowing terms of Pink Pills to every ailing person I meet. They saved my daughter's life and I am grateful."

The foregoing is but one of many wonderful cures that have been credited to Dr. Williams' Pink Pills for Pale People. In many cases the reported cures have been investigated by the leading newspapers and verified in every possible manner. Their fame has spread to the far ends of civilization and there is hardly a drug store in this country or abroad where they cannot be found.

Dr. Williams' Pink Pills for Pale People are now given to the public as an unfailing blood builder and nerve restorer, curing all forms of weakness arising from a watery condition of the blood or shattered nerves. The pills are sold by all dealers, or will be sent post paid on receipt of price (50 cents a box, or six boxes for \$2.50—they are never sold in bulk or by the 100) by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

Mottled bricks gain in favor.
The Skill and Knowledge
Essential to the production of the most perfect and popular laxative remedy known have enabled the California Fig Syrup Co. to achieve a great success in the reputation of its remedy, Syrup of Figs, as it is conceded to be the universal laxative. For sale by all druggists.

Ripsum-Tree Gum.
Amber is the gum which exuded from trees in geologic times and has become hardened and fossilized by the lapse of ages.—Jeweler's Age.

Rips for a Harvest.
"It's the worst season for damps I ever saw," said a traveler on a train. "Yes," answered a man of big words, "it's the super-saturation of the atmosphere from fogs and vapors; these cause too much moisture and sickness follows." "Maybe 'tis, but as I said, it is the worst season for wet and for such complaints as rheumatism, neuralgia, faco-ache, headache, toothache and the like." "Well, you've struck a combination I can break," said a third party. "How?" "With St. Jacobs Oil. It's the worst season, St. Jacobs Oil is the best thing to use for the troubles which it brings. It will cure in no time anything in the shape of pain or ache."

Windsor Castle has been used as a royal residence for 784 years.
Deafness Cannot be Cured
by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running ear, or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Bulwer-Lytton's favorite author was Horace. He always carried a small edition in his pocket. P. U. 14
Are You Colder When Traveling?
Sea-sickness is as trying to many people as sea-sickness. It comes from a derangement of the stomach. One of Ripans' Tablets is an infallible cure for it, and of them should be in every traveler's outfit.

An old proverb says a serene autumn makes a windy winter.
Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.
A fine Arctic owl, snowy white, has been added to the London Zoo.
Dr. Kilmer's Swamp-Root cures all Kidney and Bladder troubles. Pamphlet and consultation free. Laboratory Binghamton, N. Y.

The price of a wife in Zululand 30 years ago was six cows and their calves.
If afflicted with sore eyes use Dr. Isaac Thompson's Eye-water. Druggists sell at 25c per bottle.
He Knows Too Much.
"Mr. Smarte," said the head of the firm, "I happened to overhear your criticisms, this morning, of the manner in which business is carried on here. You appear to be laboring under a mistaken idea. As a matter of fact, we are not running this house to make money. Not at all. We carry on this business simply as a school for the instruction of young men. But as you seem to know so much more about business than we do, it would be only wasting your time to keep you here. The cashier will settle with you. What is our loss is your gain."—Boston Transcript.

Webster's International Dictionary
Invaluable in Office, School, or Home. New from cover to cover.

It is the Standard of the U. S. Supreme Court, of the U. S. Government Printing Office, and of nearly all of the Schoolbooks. It is warmly commended by every State Superintendent of Schools.

A College President writes: "For ease with which the eye finds the word sought, for accuracy of definition, for effective methods in indicating pronunciation, for terse yet comprehensive statements of facts, and for practical use as a working dictionary, 'Webster's International' excels any other single volume."
