BUSINESS IS BOOMING. ENCOURAGING REPORTS RECEIVED FROM ALL QUARTERS.

ward Throughout the Country.

New York, June 26.—Dunn's resume of the condition of trade for the month just closing will say as follows: He who sees a setback in business at this time must be gazing through a telescope pointed by mistake at some other country. From all parts of the United States, the best advices obtainable tell of a rising tide of trade and industry, which threatens here and there to mount too far and too fast. The volume of all business is by no means equal to that of 1892 as yet, though in some imporant branches larger than in that or any other year. Daily payments through clearing houses in June are 26.9 per cent. larger than last year, though 8.6 per cent. smaller than in 1892, the last of full business at this season. A rise of more than a quarter in a single year is the more significant because, in spite of recent advances, the prices of commodities as a whole average a fraction of one per cent. lower than a year ago.

Causes of the Risc.

Two influences of tremendous power contribute to the rise, encouraging crop news and confident replenishing of stocks which have been for two years depleted to the utmost. When business payments have so long been 15,000 millions yearly less than before, it is not strange that the increase should be at the rate of 11,000 millions a year when faith in the futures inspires general replenishment of stocks. Excepting too heavy rains in Texas, crop reports this week have been highly encouraging. Future in jury to cotton cannot be predicted, but as yet nothing indicates a yield below 7,500,000 buse, which would not be supposed to threaten famine if the commercial and mill stocks were remembered, now exceeding by 2,500,000 bales a full consumption until September 1. Causes of the Rise.

The rush for supplies in Iron and steel resembles a "bear panie" in the stock market. Because prices are mounting everybody hurries to buy, so that they mount higher. Bessemer iron has sociation has advanced common to \$1.15, the Wire Nail association puts up the price to \$1.50 per keg, the steel rail makers have raised the price to \$24, eastern and southern furnaces have both raised prices again 50 cents per ton, and structural beams are 1.35, and angles 1.25. It is undeniable that works in operation are crowded with orders, and others which have been idle for years are preparing to resume.

Woolens and Cottona.
Sales of wool at the chief markets, 8,113,700 pounds domestic and 3,844,400 foreign, are larger than in any previous year for the same week, and in three weeks of June have been 19,516,065 pounds, of which 10,631,700 were foreign, against 16,933,000 in 1992, 0 which 7,764,800 were foreign. Orders for men's woolens are a little better, and the Washington mills have opened their Clay worsteds at an advance of about 2½ per cent. though some lower grades are reduced in price. Advances continue in cotton goods, and are sustained by unusual demand and scarcity at a time when the mills are generally anxious to clear off old stocks.

Boot and Shoe Trade Booming.

when the mills are generally anxious to clear off old stocks.

Boot and Shoe Trade Booming.

Shipments of boots and shoes for the week have been the largest ever known in any week, 101,425 cases, and for three weeks of June have been 11 per cent. larger than in any previous year. Many shops are stopping, though most have orders to August or September. Evidences of better employment of money in the interior multiply, but funds continue to gravitate hither, and one large loan for an Olneyville mill, with good New York endorsement, was placed for forty-five days at 1½ per cent. per anmun, although commercial loans are more freely offered and taken.

A Quick Ride to Harrisburg

A Quick Ride to Harrisburg.

Engine 17 is the crack locomotive on the D. S. & S., and it well deserves to be known as such. On Tuesday it made the quickest run to Harrisburg that any engine has yet accomplished. With a train of three cars it covered the distance to Pennsylvania's capital in a little more than four hours over the Pennsylvania road. On the train were seventy-two invited guests from Freeland, Poster, Butler and Conyngham.

Upon reaching the capital the party had a few hours to spare before returning and an interview was secured with Governor Hastings on the new county bill. For an hour or so they talked to the executive, rehashing all the old arguments about high taxes, worked-out coal lands and down-trodden farmers. The govornor listened and told them he would consider their arguments.

The return trip was then began and the run back to Drifton was made in three hours and forty-five minutes. A few of the Freeland contingent were real angry on the return trip because the governor forgot to write a voto when they spoke against the bill. The guests enjoyed the free ride hugely, and with the exception of a very few they are not worrying about the fate of the new

the exception of a very few they are not worrying about the fate of the new

county bill.

The amusing part of the excursion was that the promoters thought they were doing it unawares to the new county people. Those who were invited were requested to keep it secret, but it leaked out on Monday night. The friends of the bill were notified of the trip to be made, and smilling Matt Long was at Harrisburg and met the crowd.

A Wedding Yesterday.

Shortly after noon yesterday a pretty wedding took place at St. Ann's church. The groom was James J. Malloy, of Washington street, and Miss Mame Quinn, of Centre street, was the bride. The ceremony was performed in the presence of several friends of the contracting. Frank P. Malloy, of Jersey City Heights, N. J., a brother of the groom, was best man, and the bridesmaid was Miss Annie Brady, of Audenried.

At 1.35 o'clock the couple left for Philadelphia, and from there they go to Atlantic City, where a week or ten days will be spent. Upon their return they will take up their residence at Washington and Carbon streets, where Mr. Malloy is engaged in business.

The groom is one of the most popular young men in Freeland, and the bride an estimable young lady. Both have a host of friends whose congratulations and wishes for success were freely offered yesterday. A number of presents were received.

Beware of Ointments for Catarrh that contain mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. PRESIDENT ELECTED.

Board of Trade Moving Slowly Surely for a Greater Freeland.

The Board of Trade Moving Slowly But Surveyof or a Greater Freeland.

About fifty or more business men, interested in the movement to organize a board of trade, assembled at the council room last evening for the purpose of effecting a permanentorganization. Hugh Malloy, who acted in the capacity of chairman at the previous informal meetings of the board, called the assemblage to order, and stated that mominations would be received for permanent officers. For president, Daniel Coxe, of Drifton, was nominated and elected without opposition.

Mr. Coxe, upon taking the chair, announced that before proceeding further in the line of electing permanent officers, he deemed it as essential to the success of the movement that great care be exercised in the formation of the official part of the organization, and acting upon the suggestions of some of those present, stated that he thought it would be best to appoint a committee on organization, to report at a future meeting.

ON THE DIAMOND.

Old Mr. Jennings, the father of flughey, of Baltimore fame, came up from Moosic yesterday purposely to see Manager Chapman of the Torontos, and watched the game from the bench. It chapman was the manager who secured the now famous Shortstop Jennings from Lehighton and signed him to Louisville, when Hughey started on his brilliant base ball career. Unknown to his son, the old gentleman occasionally takes a flyer to New York or Philadelphia when the Baltimore club is playing and during the Baltimore club is playing and during the games reveals himself by a peculiar whistle which the shortstop asswered in siddhood. The whistle usually rattles the son, possibly because it was the signal for a wolloping in days gone by Jennings senior is 80 years old, and has not tasted intoxicants nor smoked for fifty-four years. This good trait is true of the son.—Serunton Tribune.

Captain Milligan and his club of stars will grace the Tigers park on Sunday next, and Manager Gallagher, of the home team, will have nine first-class men to oppose the leaguers. This should be the greatest exhibition ever witnessed in two contexts of the first series in the State league, and is unquestionably the strongest club that could be chosen from the league. Their record, however, does not frighten the Freeland players, and they will commence promptly at 3 o'clock.
