A Large Gathering Predicted at Their Meeting in Baltimore. Baltimore, July 15. --It is evident that Eurewie toose par-ing "New" was added, for if Yors is -New Eurewie would be unbearable, says the Sun. York's still carlier name of Eboracum would have gone no bet-ter with "New," and her Celtie name of Cacr Ebore would have been even worse than any of the others with a third element prefixed. The syllable "wie," which has almost disappeared in the contraction of Eurewice to York, is eather the Saxon wie, meaning an abid-ing place, than the Danish wick, mean-ing a station for ships, surely an ap-ing a station for ships, surely an ap-ing a station for ships, surely an ap-Baltimore: for it is predicted that it il be the largest gathering of Baptists at the world has ever seen, and, nu-rically, the greatest convention ever ld in the Monumental city. Por the Britons where St. Paul's enthedral now stands. Dublin is a name conceal-ing two unattractive syllables meaning the black pool, and Liverpool is literal-ly the pool of the living creatures, so called because wild fowl abounded upon the waters of a pool near the site of the city. Brussels is conjectured to mean either swamp or thicket, and Rome may be merely the early Latin equivalent of the crossroads from the fact that the local lines of travel met at the Forum. Berlin is conjectured to mean the short lake. Other guess-ers take it as the free and open place, the river island and the marshy spot. Names that are commonly accepted as of but a single word often contain a phrase or a whole sentence. Constan-tinople and Valparaiso are familiar ex-amples. Pernanbuco sounds well to bell. Cairo, which has been mistaken by European ignorance for the name of the city, is really a corruption of its descriptive title, so to speak, El Ka-birah, the victorious. The true name of the city is Misr. Bombay is only the Portuguese Bono Bahia, good bay, a modest enough name for an oriental eity, since the names of such usually mean a great deal that is pretentions or splendid. says: "One terrible form of brain disease, with mental symptoms, is certainly in-creasing. \* That malady might be described as a breakdown of the great center of the mind and motion in the brain. It always goes on from bad to worse until it renders its victim ut-certainly helpess in mind and body and kills him in a few years. No cure and scarcely any mitigation of this latter- day curse has yet been devised. It is a disease of eities, of restless lives, of dissipation and debanchery, of life at high pressure commonly." During the past year the asylums of Scotland recived 150 new cases; those of scotland recived 150 new cases; those of fingland, 1,400 cases, and those of fre-land, 52. The asylum statistics of this country show an even greater number. In a single asylum in this state, for sxample, that of Ogdenburg, there were among 659 admissions 31 cases of general paresis, This would make the proportion of general paresis over 4 per cent. MAY SAIL TO-DAY. Much Interest in the Coming Trip of the Columbia. Washington, July 10.—No further ad-vices in regard to the straining of the cruiser Columbia have been received by the navy department, and there is there-fore every reason to believe that the reports published concerning the injuries received by the cruiser at Southampton were sensational exaggerations. If the columbia would undoubtedly have been detained at Southampton for repairs in-stead of being ordered to go ahead in making the necessary preperations for ther race against time across the At-lantic. # MURDER IN FIRST DEGREE.

MCRDER IN FIRST DEGREE. Maria Barberi Convicted in New York Last Night. New York, July 16.—The trial of Maria Barberi, in the court of general sessions before Recorder Goff, for the murder of her lover Domenics Cataldo was concluded last night, the jury bring-ing in a verdict of guilty of murder in the first degree. The prisoner was re-manded until Thursday for sentence.

Electric Chair Her Doom. Marie Barberi is the first woman in this state condemned to death since the passage of the law making electrocution the death penalty. As the case now stands Maria is adjudged by the jury a subject of the electric chair. The sen-tence of the court, of course, has not yet been pronounced, but there is but one sentence for murder in the first degree. Electric Chair Her Doom. Will Probably Not Be Killed.

will Frobably Not Be Killed. Few believe, however, that Maria will ever sit in the death chair. The case, it was reported this morning, would be taken to the court of appeals, and if that court did not order a new trial, the gov-erdor would be appealed to to commute the death sentence to imprisonment.

Washington, July 16.-The corporate existence of the City National bank of Gloucester, Mass., has been extended to July 15, 1915. NEW YORK MARKETS, proportion of general paresis over 4 per sent. Among seven state asylums, to which 1.942 patients were admitted in 1890, there were 66 cases of general paresis, or a little over 3 per cent. If 4 per sent, be the general ratio of this dis-sesse in the state of New York, then the total number of pareties among the 16,000 insane would be about 640. As a matter of fact, the number is greater, because the proportion of this disease is larger in the New York and Kings county asylums than in those of the state at large. But even if there were but 1000 cases of general paresis among the 100,000 insane people of this cou-try it would be the extraordinary evi-lence of the development of a disease which in the last century was certainly not known even if it did exist.

Holmes Probably Guilty of Many Crimes.

The Finding of the Pietzel Girls' Bodies May Lead to Other Murders Committed by Him—Two Chi-cago Girls' Mysterious Absence—

Believed Pietzel Was Killed.

Believed Pietzel Was Killed. Philadelphia, July 16.—With the find-ing of the bodies of Alice and Nellie Peitzel, in Toronto, a chapter in the his-tory of one of the most sensational criminal cases in the annals of this country is closed, and the net of the law is being drawn more closely about one of the boldest -coundrels that has ever been arraigned at the bar of justice. **The Guilty Man.** Herman Mudgett, alias, H. H. Holmes, is lying in the county prison here awaiting sentence to the confessed charge of conspiracy in defrauding thy Fidelity Mutual Life association, of Phil-delphia, out of \$10.000 by palming off upon it a togut so body as that of Berja-min F. Pictzel, a policy-holder of the compary.

Pietzel's Life Insured. Pietze's Life Insured. In July, 1894, the Fidelity association issued a policy for \$10,000 upon the life of Benjamin F. Pietzel. Shorily after this time, this series at 1219 Cellow F. Perry rented a house at 1219 Cellow hill street, this city. In September of the same year a fire, supposed to have been emused by an epilosion, occurred at the house, and the charred body of Perry was found. Clothing, Boots, Shoes, ladies' and gents' furnishings, etc., are included in this sale which will continue during this month only. Our lines of ladies' waists and muslin underwear excels anything ever shown in the town.

At the house, and the charred body of Perry was found. The Body Identified. A short time after, a St. Louis law-yer appeared with Alice, a B-year-old daughter of Pietzel, and claimed the money, the girl positively identifying the remains as that of her father. Mrs. Pietzel's Part in the Plot. The money was paid to the lawyer and the party returned to St. Louis, Mrs. Pietzel was in St. Louis at this time, and she was given 8300, having previously agreed to assist in the plot, having been led to believe that a corpse from New York had been secured to be palmed off as that of her husband. paimed of as that of her husband. Arrests Made. The insurance company became sus-picious, and setting detectives upon Hoimes track, built up a case against lim, and in November of hast year Holmes was arrested in Boston. A few days after the arrest of Holmes Mrs, Pictzel was arrested in the same city and Howe, the lawyer, was taken into custody in St. Louis. After Holmes was brought to this city he told so many con-flicting stories that he speedily showed himself to be a liar of the greatest magnitude. Text Th KELLNER

himself to be a liar of the greatest-magnitude. Took Three of the Children. At the time that Holmes had given the mony to Mrs. Pietzel in St. Louis he offered to relieve her of the burden of three of her five children. The oldest and the youngest child remained with Mrs. Pietzel and Holmes took the other three, Alice, Nelie and Howard. **Probably a Wholesale Murderer.** After parting with her children, Mrs, Pietzel has never been able to oltain from Holmes any definite knowledge of their whereabouts. Holmes, however, assertated after his arrest that the chil-dren were alive, as was also Pietzel. Now, however, that the badies of the Harness! Light Carriage Harness, \$5.50, \$7, \$9 and \$10.50.

from Holmes any definite knowledge of their whereabouts. Holmes, however, assertated after his arrest that the chil-dren were alive, as was also Pietzel. Now, however, that the bodies of the Pietzel children have been found, two more crimes may be fastened upon him. **Williams Girls Missing**. He admits to having livel in Chicago with a young girl named Minnie Killed her sister, and that to shield Minnie from the lawe. Holmes says the girls quarrelled and that Minnie killed her sister, and that to shield Minnie from the lake. That Holmes' con-nection with the Williams sisters was not an entire fabrication is known pos-itively; and, as both girls have vanished from tive it is possible, that the scoun-dred murdered them. **May Have Murdered Pietzel.** 

drel murdered them. May Have Murdered Pietzel. As nothing has ever been heard of Pietzel since he came to this city in company with Holms, it is probable that the corpse found in the house on Callowhill street was his, and that Holmes killed him.
