Steady Advance in Coal Price

Steady Advance in Coal Prices. The coal situation is rapidly working out its own salvation, and what the coal presidents failed to accomplish after numerous conferences and fierce and disastrous cutting of prices is being benefit about by the increased demand disastrous cutting of prices is being brought about by the increased demand for coal through the great revival in business and manufacturing circles, the return of cooler weather, and the infore-ed restriction in production caused by the prolonged drought. Following the advance in tide-water prices made on Monday last by some of the larger an-thracite companies, another advance was made on Friday by the Reading. ware, Lackawanna and Western and other companies. The new prices went into effect at once, but from present indications are but temporary, and may be still further advanced this week. The advance is an increase of from 15 to 25 cents per ton over the prices of Monday last, and from 25 to 50 cents over the prices in your prior to that time. In addition to the increased tide water prices, the Reading also ordered an increase in its line and Philadelphia prices from 15 to 40 cents per ton, which will go into effect tomorrow. The trade is in better condition now than for a year past.

year past. The Value of Advertising. From the Press and Printer. There are men in every town who do not advertise. You may not know them. Very few do. They call themselves business men, but they are not. Every-body who is in business is not a business man by any means. You find the man who does not advertise in the dark side streets with dingy surroundings and a general air of dilapidation hanging about him. He is not really in business. He is only hanging to the ragged edge of the business world. For a great many years dectors pro-nounced it a local disease, and prescrib-ed local remedies, and by constantly failing to cure with local treatment, pro-nounced it incurable. Science has proven catarrh to be a constitu-tional treatment. Hall's Catarrh Corr, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional ters out the market. It is taken in-ternally in doses from ten drons to a teaspoorial. It acts directly on the blood and mucous surfaces of the sys-tem. They offer one hundred dolars ave months. The following is the complete address of Hon. Charles Rice, of Wilkesbarre, president judge of the superior court of Pennsylvania, as delivered by him at the dedication and flag-raising of the Coxe Memorial School, at Freeland, on Saturday, September 21: After 1 had accepted the courteous invita-tion of your school board, and considered what I should say upon this occasion, it oc-curred to me, that although it would be fam-ilarground, it would not be inappropriate or unprofitable to re-examine, briefly, the un-derlying principles upon which organized so-city, acting through the state as its agrency.
