

MR. TERRELL PRAISED

Our Minister to Turkey
Saved Many Lives.

The Situation in Anatolia Still
Grave—Sultan Refuses To Permit
Additions to the Foreign Fleet
in the Bosphorus—American Mis-
sionaries at Aintab Safe.

Washington, Nov. 26.—Dispatches received here from Constantinople say that, although the situation in Anatolia is much more tranquil than for some time, all danger is not passed by any means and that an outbreak may yet occur among the inhabitants, whose passions are only slumbering, not extinguished. The governor of Hadjin, who threatened to burn the convent there and set fire to the barley fields in that vicinity, owing to the strong representations made to the porte by Mr. Terrell, has been recalled, and his conduct will be looked into. The members of the American colony there and the other foreign residents join in praising the energetic and effective action of Mr. Terrell under very trying circumstances. He has undoubtedly been the means of saving American lives and property. The main question now under discussion between the porte and the representatives of the powers is that of adding four extra guardships to the little foreign fleet in the Bosphorus.

Turkish Government's View.
Although these just demands were made more than a week ago, on the ground that the foreign population of Constantinople needed this additional protection, and although on Saturday a report was circulated that the firman had been issued, the sultan still holds out in his refusal to grant the required permission. From high authority the view taken by the Turkish government can be given as follows: While admitting that the powers possess the treaty right to have two guardships each in the Bosphorus, the porte considers that the proposed increase in the number of foreign war vessels there, under the present condition of things there and elsewhere in the Turkish empire, might excite the Mussulmans and produce an effect far from the one desired by the powers. The reply points out also that, in view of the measures taken to preserve order there, any increase in the number of guardships attached to the embassies is not required. This is the substance of a note which the port has sent to the representatives of the powers.

A Blow to the Sultan's Dignity.

A conference of the ambassadors will be called to consider the note, and a joint reply may be sent to the porte. The substance of the note will also be telegraphed to the different Ottoman embassies and ministries abroad, with instructions to inform the governments they are accredited to of the stand assumed by the sultan in this matter. The Turkish representatives at London, St. Petersburg, Rome and Vienna will also be instructed earnestly to request the four powers not to insist upon their demands. While the above is a summary of the reply, the repugnance of the porte to granting the firman applied for is attributed, in political circles, to the belief existing among the Turkish ministers and the sultan's palace officials that to do so would be a blow to the sultan's dignity and direct proof of lack of confidence upon the part of the powers in his ability to govern and maintain order.

Another Outbreak Feared.

Behind this, it is said, lurks the sultan's fear that the demand is really only a cloak for the intention of the powers to make a naval demonstration in Turkish waters in case of renewed disturbances in Asiatic Turkey. No foreigner in Constantinople doubts that an increase in the number of guardships is necessary for the better protection of the foreign population. An apparently well founded report is in circulation that the Armenians of the capital, undismayed by the recent bloodshed there, have projected fresh demonstrations at the instigation of the central revolutionary committee, and are in hopes of being joined by the Young Turk party. The Austrian ambassador, Baron von Cille, has made a direct appeal to the Armenian patriarch to do his utmost to prevent another outbreak, warning him that such an occurrence would do the greatest harm to the Armenian cause and would tend to defeat the object the Armenians and their friends had in view.

Exiled Armenians.

The patriarch assured Baron von Cille that the Armenians had not planned another demonstration, "although," he said, "despair reigns among them, owing to the incessant arrests and exiling of Armenians." He insisted that 400 Armenians of that vicinity have recently been exiled to Anatolia. The absence of news from Zeitoun, which the Armenians are still said to be holding in strong force, and the failure of the government to furnish any information regarding the concentration of Turkish troops at Marash, are causing some uneasiness. No news is obtainable, either, concerning the rising of the Druses against Turkish rule, one of the most serious features of the whole situation. The Turks are looking forward to the coming of winter with hope that it will aid them in putting down disorders, while the thousands of homeless Armenians seem doomed to endure terrible sufferings.

Safety of Missionaries Assured.

United States Minister Terrell has received a dispatch from Aintab announcing the safety of the American missionaries there belonging to the cen-

tral Turkey mission. The missionaries say that protection was afforded them by the Turkish authorities. Mr. Terrell says he is satisfied that the 172 missionaries in Anatolia are safe. Definite information has been received here that the missionaries attached to the station at Klarnat have left that place, under escort, for the Black sea coast. The situation there is still grave and very complicated.

SENSATIONAL STATEMENT.

Rev. Dr. Johnson Says U. S. Minister Terrell Is a Mohammedan.

Jefferson City, Mo., Nov. 26.—Rev. J. T. Johnson, D. D., pastor of the First Baptist church of this city, who has just returned from a three months' tour of Turkey and the Holy Land, in a sermon on the Armenian trouble, made a sensational statement that American Minister Terrell ought to be hanged. He declares that he has joined the Mohammedan church and is thus aiding in the persecution and killing of Christians instead of protecting them; that the situation is far worse than has been reported to the papers and that Mr. Terrell prevents true reports from being sent out, sending out false reports himself. Dr. Johnson and his entire party of thirty-four members have signed a petition to President Cleveland begging him to remove Mr. Terrell.

CHAMPION BANKER HOME.

The Cyclist Returns from Abroad with Trunks Full of Trophies.

Pittsburg, Nov. 26.—George Banker, the well-known cyclist, has arrived home from his tour of the principal cities of Europe, bringing with him the title of champion of the world and several trunks filled with valuable trophies won in the many cycling events in which he participated. Banker's trip was also a success financially. He participated in eighty events, winning in sixty-one. Banker considers Jacquelin, the Frenchman, the best rider he met during his absence, though he speaks highly of the work of several other cyclists. Banker has not yet made any definite arrangements for next year.

Yale and Princeton Will Divide \$40,000, Less Expenses.

New York, Nov. 26.—Messrs. H. S. Van Duzer and Julian W. Curtis, of the committee in charge of Saturday's football game between the Yale and Princeton eleven, said to-day that it is impossible to tell yet what the exact receipts of the game were, but added that they would foot up about \$40,000, and possibly a little over that sum. Each college, he said, would receive in the neighborhood of \$14,000 as its share of the gate receipts. The total receipts last year were \$30,000.

GREAT CUBAN VICTORY

Spaniards Suffer a Severe
Defeat at Taguasco.

4,000 Rebels Hold 10,000 of the
Enemy in Check for Thirty-six
Hours and Then Completely Rout
Them with the Aid of Reinforce-
ments—Hundreds Killed.

New York, Nov. 26.—A Cuban messenger, who arrived at the Cuban junta late yesterday afternoon direct from the seat of the revolution, reported that on Nov. 19 one of the largest battles that has been fought since the beginning of the present trouble with Spain took place. The news has been withheld strictly, the correspondent of El Herald, a Madrid paper, not being allowed to send it out, even. The battle occurred at Taguasco, a town in the interior of the island. The Spanish forces consisted of about 10,000 men, while the Cubans had but about 4,000. The Spaniards were led by Generals Valdes, Luque and Aldave, and Gen. Maximo Gomez was at the head of the Cubans.

Fought Thirty-six Hours.

The Cubans had a most favorable position at the bottom of a hill. For thirty-six hours the opposing forces fought, but the Spaniards were unable to drive the Cubans back. The latter, however, could do no more than hold their own. Finally, just at a critical moment, Gen. Antonio Maceo of the Cuban army came rushing in with a force of 3,500 men. With the aid of this reinforcement the Spaniards were quickly routed. The Cubans advanced then toward Trinidad and Cie.

Killed and Wounded, 600.

Gen. Aldave is reported to have been killed in the battle and the total number of killed and wounded is placed at 600. Gen. Gomez secured 700 rifles and a large amount of ammunition. This is believed to be the largest battle of the revolution, larger than that of Bayamo, several months ago, in which Gen. Campos was wounded.

THE BATTLESHIP MAINE.

Will Go to Newport To Receive Her Torpedo Outfit.

Washington, Nov. 26.—It is said at the navy department that the battleship Maine will not receive a thorough overhauling at the Newport torpedo station, as reported, but will merely go there to have her torpedo outfit placed on board. Some time ago, as stated at the time, while the Maine was at the Brooklyn navy yard, she was discovered to have a greater depth forward than aft. This defect has been partly remedied and will be made thoroughly so in a short time. It does not injure her efficiency.

MASS WINE POISONED.

Second Attempt on the Life of a Mount Carmel, Pa., Priest.

Shamokin, Pa., Nov. 26.—Rev. J. Jaekimowicz of the Polish Catholic church in Mount Carmel narrowly escaped being poisoned at the early morning mass. A quantity of Paris green had been placed in the wine vessel from which he is in the habit of drinking during the service. Fortunately the powder was visible on the top of the wine, and as a previous attempt had been made on his life the Rev. Jaekimowicz became suspicious and did not partake of the wine.

GOLD FOR THE GOVERNMENT.

A Philadelphia Dry Goods House Sends \$100,000.

Philadelphia, Nov. 26.—In pursuance of the call of Secretary Carlisle for gold one of the leading retail dry goods houses of Philadelphia will ship \$100,000 of the yellow metal to the treasury department at Washington this afternoon. The firm in question is making the shipment with the patriotic purpose of sustaining the government's gold reserve and they hope their example will induce other business houses here to do the same.

DUCAL PARTY AT GIBRALTAR.

Marlborough and His Bride Arrive at the Mediterranean Port.

Gibraltar, Nov. 26.—The North German Lloyd steamer Fulda, Capt. Meier, from New York November 16, arrived here yesterday. The Duke and Duchess of Marlborough were among the passengers on board.

Smuggling Convictions Quashed.

St. Johns, N. F., Nov. 26.—The supreme court has quashed the convictions against the city saloonkeepers who were recently convicted of smuggling. The court decided that the indictments were faulty, inasmuch as the parties accused were purchasers, not the actual smugglers.

Engineering Firms Federate.

Glasgow, Nov. 26.—The Clyde engineering firms met in this city yesterday and confirmed the agreement to federate with the Belfast, Tyne and Barrow firms against the demands of their employes. This action will probably result in a lengthening of the strike now in progress.

Suicide of George T. Parks.

Washington, Nov. 26.—George T. Parks, a young real estate agent of this city, committed suicide at his residence by shooting himself through the heart. Illness and insomnia were given as the cause for the deed.

She Blew Out the Gas.

Paterson, N. J., Nov. 26.—Mary Langbero, 25 years old, a nurse, blew out the gas in her room, at 83 Fair street, and was found dead in the morning.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
